

# FELICITAS PRIVATE MARKETS FUND

## PROSPECTUS

### Class Y Shares and Class I Shares

October 31, 2024

**Felicitas Private Markets Fund** (the “Fund”) is a recently organized Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the “Investment Company Act”), as a non-diversified, closed-end management investment company.

The Fund operates under an Agreement and Declaration of Trust (“Declaration of Trust”) dated November 17, 2022 (the “Declaration of Trust”). Skypoint Capital Advisors, LLC serves as the investment adviser (the “Investment Adviser”) of the Fund. Felicitas Global Partners, LLC serves as investment sub-adviser to the Fund (the “Investment Sub-Adviser” or “Sub-Adviser” and, together with the Investment Adviser, the “Advisers”). Each of the Advisers is an investment adviser registered with the Securities and Exchange Commission (the “SEC”) under the Investment Advisers Act of 1940, as amended (the “Advisers Act”). The Fund intends to operate and elect to be treated as a regulated investment company for U.S. federal income tax purposes.

*Investment Objective.* The Fund’s investment objective is to deliver a combination of yield and capital appreciation.

*Investment Strategies.*

The Fund intends to seek its investment objective through a portfolio of private equity, private credit and real estate investments (“private assets”). Under normal circumstances, the Fund seeks to achieve its objective by investing at least 80% of its net assets (plus the amount of any borrowings for investment purposes) in “private assets” (“80% Policy”). For purposes of this 80% Policy, private assets include: (i) investments in general or limited partnerships, funds, corporations, trusts, closed-end funds (including, without limitation, funds-of-funds) (together, “Investment Funds”) that are managed by independent investment managers, i.e., investment advisers unaffiliated with the Advisers (each, an “Underlying Manager” and collectively, the “Underlying Managers”); (ii) secondary investments in Investment Funds managed by Underlying Managers; (iii) co-investment vehicles that invest alongside Investment Funds; and (iv) other direct investments in the equity or debt of a company, which are not generally available to unaccredited investors. Investment Funds will be limited to (i) private funds (e.g., exempt under Section 3(c)(1) or 3(c)(7) from registration under the Investment Company Act), or (ii) registered investment companies and non-traded business development companies that invest at least 80% of their assets in “private assets” that are only available to accredited investors. The Fund does not intend to invest directly in real estate but may invest in real estate indirectly through Investment Funds. The Fund’s investments also will include direct investments in equity or debt alongside private equity funds and firms. The Fund may change the 80% Policy without shareholder approval upon at least 60 days’ prior written notice to shareholders.

**The Fund’s investment program is speculative and entails substantial risks. There can be no assurance that the Fund’s investment objectives will be achieved or that its investment program will be successful. Investors should consider the Fund as a supplement to an overall investment program and should invest only if they are willing to undertake the risks involved. Investors could lose some or all of their investment. See “PRINCIPAL RISK FACTORS” BEGINNING ON PAGE 19.**

The Fund offers two separate classes of shares of beneficial interest (the “Shares”) of the Fund, designated as Class Y Shares and Class I Shares. The Fund’s Shares will generally be offered as of the first business day of each calendar quarter or at such other times as may be determined by the Board of Trustees of the Fund, in each case subject to any applicable fees, as described herein. The Shares will be issued at net asset value (“NAV”) per Share. The Fund has registered \$175,000,000 for sale under the registration statement to which this Prospectus relates. No holder of the Fund’s Shares (“Shareholder”) will have the right to require the Fund to redeem its Shares. This Prospectus is not an offer to sell Shares and is not soliciting an offer to buy Shares in any state or jurisdiction where such offer or sale is not permitted. Investments in the Fund may be made only by “Eligible Investors” as defined herein. See “ELIGIBLE INVESTORS.”

Simultaneous with the commencement of the Fund’s operations (“Commencement of Operations”), Felicitas Equity Fund, LP (the “Predecessor Fund”), reorganized with and transferred substantially all its assets into the Fund. The Fund maintains an investment objective, strategies and investment policies, guidelines and restrictions that are, in all material respects, equivalent to those of the Predecessor Fund. The investment adviser to the Predecessor Fund is the Sub-Adviser to the Fund. The Fund and the Predecessor Fund share the same portfolio managers.

This Prospectus concisely provides information that you should know about the Fund before investing. You are advised to read this Prospectus carefully and to retain it for future reference. Additional information about the Fund, including the Fund’s statement of additional information (the “SAI”), dated October 31, 2024, has been filed with the SEC. You may request a free copy of this Prospectus, the SAI, annual and semi-annual reports, when available, and other information about the Fund, and make inquiries without charge by writing to the Fund, c/o UMB Fund Services, Inc., 235 West Galena Street, Milwaukee, WI 53212, by calling the Fund toll-free at (888) 884-8810 or by accessing the Investment Adviser’s website at <https://www.skypointfunds.com>. The information on the Investment Adviser’s website is not incorporated by reference into this Prospectus and investors should not consider it a part of this Prospectus. The SAI is incorporated by reference into this Prospectus in its entirety. You may also obtain copies of the SAI, and the annual and semi-annual reports of the Fund, when available, as well as other information about the Fund on the SEC’s website at <https://www.sec.gov>. You may also email requests for these documents to [publicinfo@sec.gov](mailto:publicinfo@sec.gov). The address of the SEC’s internet site is provided solely for the information of prospective investors and is not intended to be an active link.

***Shares are speculative and illiquid investments involving substantial risk of loss.***

- **The Fund has limited operating history and the Shares have no history of public trading.**
- **The Fund does not intend to list the Shares on any securities exchange and the Fund does not expect a secondary market in the Shares to develop.**
- **You should generally not expect to be able to sell your Shares (other than through the limited repurchase process), regardless of how the Fund performs.**
- **You should consider that you may not have access to the money you invest for an indefinite period of time.**
- **An investment in the Shares is not suitable for you if you need foreseeable access to the money you invest.**
- **Because you will be unable to sell your Shares or have them repurchased immediately, you will find it difficult to reduce your exposure on a timely basis during a market downturn.**
- **The Fund and any underlying Investment Funds may utilize borrowings and financial leverage and significant risks may be assumed as a result. See “RISK FACTORS — LEVERAGE RISK.”**

***There are risks associated with the Fund’s distribution sources.***

- **The amount of distributions that the Fund may pay, if any, is uncertain.**
- **The Fund may pay distributions in a significant part from sources that may not be available in the future and that are unrelated to the Fund’s performance, such as from offering proceeds, borrowings, and amounts from the Fund’s affiliates that are subject to repayment by investors.**

	Class Y Shares <sup>(2)</sup>	Class I Shares <sup>(2)</sup>	Total
<b>Price to Public<sup>(1)</sup></b> . . . . .	Current Net Asset Value	Current Net Asset Value	\$175,000,000
<b>Sales Load</b> . . . . .	None	None	None
<b>Proceeds to Fund<sup>(3)</sup></b> . . . . .	Current Net Asset Value	Current Net Asset Value	Up to \$175,000,000

(1) UMB Distribution Services, LLC (the “Distributor”) acts as the principal underwriter of the Fund’s Shares on a commercially reasonable efforts basis. The Shares are being offered through the Distributor and may also be offered through other brokers or dealers that have entered into selling agreements with the Distributor. The Investment Adviser pays the Distributor out of its own resources a fee for certain distribution-related services. The Investment Adviser, the Distributor and/or their affiliates may make payments to selected affiliated or unaffiliated third parties (including the parties who have entered into selling agreements with the Distributor) from time to time in connection with the distribution of Shares and/or the servicing of

Shareholders and/or the Fund. These payments will be made out of the Investment Adviser's, Distributor's and/or affiliates' own assets, as applicable, and will not represent an additional charge to the Fund. The amount of such payments may be significant in amount and the prospect of receiving any such payments may provide such third parties or their employees with an incentive to favor sales of Shares of the Fund over other investment options. See "DISTRIBUTOR." The Fund will sell Shares only to investors who certify that they are "Eligible Investors." See "INVESTOR QUALIFICATIONS." Generally, the stated minimum initial investment in the Fund by any investor is \$250,000 for Class Y Shares, and \$25,000 for Class I Shares. The Fund, in its sole discretion, may accept investments below these minimums. Investors purchasing Shares will not be charged a sales load. Pending any closing, funds received from prospective investors will be placed in an interest-bearing escrow account with UMB Bank, n.a., the Fund's escrow agent. On the date of any closing, the balance in the escrow account with respect to each investor whose investment is accepted will be invested in the Fund on behalf of such investor. Any interest earned on escrowed amounts will be credited to the Fund. See "FUND SUMMARY — THE OFFERING."

- (2) Pursuant to exemptive relief from the SEC, the Fund offers Class Y Shares and Class I Shares of the Fund.
- (3) Assumes all Shares currently registered are sold in the offering. Shares will be offered in a continuous offering at the Fund's then NAV. The Fund will also bear certain ongoing offering costs associated with the Fund's continuous offering of Shares. See "FUND EXPENSES."

**Neither the SEC nor any state securities commission has determined whether this Prospectus is truthful or complete, nor have they made, nor will they make, any determination as to whether anyone should buy these securities. Any representation to the contrary is a criminal offense.**

You should not construe the contents of this Prospectus as legal, tax or financial advice. You should consult with your own professional advisers as to legal, tax, financial, or other matters relevant to the suitability of an investment in the Fund.

You should rely only on the information contained in this Prospectus and the SAI. The Fund has not authorized anyone to provide you with different information. You should not assume that the information provided by this Prospectus is accurate as of any date other than the date shown below.

THE FUND'S PRINCIPAL UNDERWRITER IS UMB DISTRIBUTION SERVICES, LLC.

**The date of this Prospectus is October 31, 2024**

## FUND SUMMARY

This is only a summary and does not contain all of the information that you should consider before investing in the Fund. Before investing in the Fund, you should carefully read the more detailed information appearing elsewhere in this Prospectus.

**The Fund** ..... Felicitas Private Markets Fund (the “Fund”) is a recently organized Delaware statutory trust that is registered under the Investment Company Act, as a non-diversified, closed-end management investment company (“Investment Company Act”). The Fund was organized as a Delaware trust on November 17, 2022. The Fund is an appropriate investment only for those investors who can tolerate a high degree of risk and do not require a liquid investment.

Simultaneous with the commencement of the Fund’s operations (“Commencement of Operations”), Felicitas Equity Fund, LP (the “Predecessor Fund”), reorganized with and transferred substantially all its assets into the Fund. The Fund maintains an investment objective, strategies and investment policies, guidelines and restrictions that were, in all material respects, equivalent to those of the Predecessor Fund. The investment adviser to the Predecessor Fund is the Sub-Adviser to the Fund. The Fund and the Predecessor Fund shared the same portfolio manager.

Pursuant to exemptive relief, the Fund offers two separate classes of Shares designated as Class Y Shares and Class I Shares. Each class of Shares is subject to different fees and expenses. The Fund may offer additional classes of Shares in the future. The Fund intends to elect to be treated as a regulated investment company (“RIC”) under the Internal Revenue Code of 1986, as amended (the “Code”), which generally requires that, at the end of each quarter: (1) at least 50% of the Fund’s total assets are invested in (i) cash and cash items (including receivables), Federal Government securities and securities of other regulated investment companies; and (ii) securities of separate issuers, each of which amounts to no more than 5% of the Fund’s total assets (and no more than 10% of the issuer’s outstanding voting shares), and (2) no more than 25% of the Fund’s total assets are invested in (i) securities (other than Federal Government securities or the securities of other regulated investment companies) of any one issuer; (ii) the securities (other than the securities of other regulated investment companies) of two or more issuers which the taxpayer controls and which are engaged in the same or similar trades or businesses; or (iii) the securities of one or more qualified publicly traded partnerships.

### Investment Objective and Principal

**Strategies** ..... The Fund’s investment objective is to deliver a combination of yield and capital appreciation. **There can be no assurance that the Fund will achieve its investment objective or that the Fund’s investment strategies will be successful.**

The Fund intends to seek its investment objective through a portfolio of private equity, private credit and real estate investments (“private assets”). Under normal circumstances, the Fund seeks to achieve its objective by investing at least 80% of its net assets (plus the amount of any borrowings for investment purposes) in “private assets” (“80% Policy”). For purposes of this 80% Policy, private assets include: (i) investments in general or limited partnerships, funds, corporations, trusts, closed-end funds (including, without limitation, funds-of-funds) (together, “Investment Funds”) that are managed by independent investment managers, i.e., investment advisers unaffiliated with the Advisers) (each, an “Underlying Manager” and collectively, the “Underlying Managers”); (ii) secondary investments in Investment Funds managed by Underlying Managers; (iii) co-investment vehicles that invest alongside Investment Funds; and (iv) other direct investments in the equity or debt of a company, which are not generally available to unaccredited investors (each, a “Direct Investment” and together with the Investment Funds, the “Investments”). Investment Funds will be limited to (i) private funds (e.g., exempt under Section 3(c)(1) or 3(c)(7) from registration under the Investment Company Act), or (ii) registered investment companies and non-traded business development companies that invest at least 80% of their assets in “private assets” that are only available to accredited investors. The Fund does not intend to invest directly in real estate but may invest in real estate indirectly through Investment Funds. The Fund’s investments also will include direct investments in equity or debt alongside private equity funds and firms, and the Fund may provide debt or preferred equity financing to other companies, institutions, funds, or fund managers. The Fund will invest primarily in Investment Funds and to a lesser extent in co-investments and direct investment. The Fund may change the 80% Policy without shareholder approval upon at least 60 days’ prior written notice to shareholders.

The Fund conducts thorough due diligence on each Investment Fund before investing. For primary commitments, the Fund evaluates, among other factors, the Investment Fund’s track record, investment team, the quality of its current portfolio, the projected return on the investment in the Investment Fund from, among other things, a multiple of invested capital (“MOIC”) and internal rate of return (“IRR”) perspective. For secondary commitments, the Fund evaluates, among other things, the entry valuation, the quality of the underlying assets and the sponsor of the Investment Fund, the structure of the security, projected MOIC and IRR and the expected transaction duration. For primary and secondary co-investments and Direct Investments, the Fund will consider, among other things, the quality and financial metrics of the underlying asset(s) including revenue and EBITDA growth trends and leverage profile, the quality of the sponsor and its underwriting of the deal, the projected MOIC and IRR, and the Fund’s ability to access ongoing financial information about the underlying asset(s). For direct lending opportunities, the Fund considers, among other things, the seniority of its position in the capital structure, the various potential methods of repayment from any underlying collateral, the loan to value (“LTV”) and expected duration of the opportunity, and the expected overall projected MOIC and IRR.

The Investment Adviser intends to achieve and monitor diversification primarily on a “look-through” basis by examining the underlying assets/strategies in the Investment Funds. Looking through to the underlying investments of the Investment Funds, together with Direct Investments, the Investment Adviser generally aims to have no single company, or loan, represent more than 3% of the Fund’s capital commitment and intends to allocate the Fund’s portfolio as follows: (a) 50% in private equity; (b) 30% in private credit; (c) 10% in real estate; and (d) 10% in liquid investments. The target allocations may change on an opportunistic basis or in response to changing market conditions without notice to shareholders.

The Fund is permitted to borrow money or issue debt securities in an amount up to 33⅓% of its total assets in accordance with the Investment Company Act. The Fund may establish a credit line to borrow money for a range of purposes, including meeting capital calls of existing underlying Investments or acquiring new Investments. The Fund will not undertake any ongoing, long-term, Fund-level borrowing. The Fund will engage in short-term borrowing (such as for purposes of meeting capital calls of existing underlying Investments or acquiring new Investments).

In addition, the Fund may make investments through one or more direct and indirect wholly-owned subsidiaries (each a “Subsidiary” and collectively the “Subsidiaries”). Such Subsidiaries will not be registered under the Investment Company Act; however, the Fund will wholly own and control any Subsidiary. The Board of Trustees of the Fund (the “Board”) has oversight responsibility for the investment activities of the Fund, including its investment in any Subsidiary, and the Fund’s role as sole direct or indirect shareholder of any Subsidiary. To the extent applicable to the investment activities of a Subsidiary, the Subsidiary will follow the same compliance policies and procedures as the Fund. The Fund will “look through” any such Subsidiary to determine compliance with its investment policies.

Underlying Managers may use leverage in their respective trading strategies, Investment Funds may utilize bank and/or broker-provided financing to varying degrees. In addition, the low margin and collateral deposits required to trade certain financial instruments may permit a high degree of leverage. The degree of leverage that an Investment Fund may utilize may not be limited to any predetermined level but will be subject to applicable legal or bank or broker-imposed leverage limitations, to the extent applicable.

The Fund may, among other things, hold cash or invest in cash equivalents. Among the cash equivalents in which the Fund may invest are: obligations of the United States Government, its agencies or instrumentalities; commercial paper; and certificates of deposit and bankers’ acceptances issued by United States banks that are members of the Federal Deposit Insurance Corporation. The Fund may also enter into repurchase agreements and may purchase shares of money market mutual funds in accordance with applicable legal restrictions.

During temporary defensive periods, the Fund may deviate from its investment policies and objective. During such periods, the Fund may invest up to 100% of its total assets in cash or cash equivalents, including short- or intermediate-term U.S. Treasury securities, as well as other short-term investments, including high quality, short-term debt securities. There can be no assurance that such techniques will be successful. During such periods, the Fund may not achieve its investment objective.

It is expected that the Fund’s assets will not be fully invested at all times.

The Fund may co-invest alongside one or more other investment funds or investment vehicles managed, sponsored or advised by the Investment Sub-Adviser or its affiliates. The Fund is subject to certain limitations relating to co-investments and joint transactions with affiliates, which, in certain circumstances, likely may limit the Fund’s ability to make investments or enter into other transactions alongside other clients. The Investment Sub-Adviser has received an exemptive order from the SEC that permits the Fund to participate in certain negotiated investments (each, a “17(d) investment”) alongside affiliates of the Investment Sub-Adviser (the “Order”). The Order is subject to certain terms and conditions, including (i) that a majority of the Trustees of the Board who have no financial interest in the 17(d) investment transaction and a majority of the Trustees of the Board who are not “interested persons,” as defined in the Investment Company Act, approve the 17(d) investment and (ii) that the price, terms and conditions of the 17(d) investment will be identical for each fund participating pursuant to the exemptive relief. The Fund could be limited in its ability to invest in certain investments in which the Advisers or any of their respective affiliates are investing or are invested.

**The Investment Adviser** . . . . . Skypoint Capital Advisors, LLC serves as the investment adviser (the “Investment Adviser”) of the Fund. The Investment Adviser provides day-to-day investment management services to the Fund, including selection and oversight of the Sub-Adviser and the Fund’s other service providers. Its principal place of business is located at 1380 W. Paces Ferry Road, Suite 2180, Atlanta, Georgia 30327. The Investment Adviser is registered as an investment adviser with the SEC under the Advisers Act. As of June 30, 2024, the Investment Adviser had assets under management of approximately \$105 million.

The Fund intends to rely on the no-action relief provided by the Commodity Futures Trading Commission (“CFTC”). Pursuant to the relief, the Investment Adviser is not required to register as a commodity pool operator with respect to the Fund, or rely on an exemption from registration, until the later of June 30, 2013 or six months from the date that revised guidance is issued on the application of the calculation of the de minimis thresholds to fund-of-funds operators. As of the date of this Prospectus, the CFTC has not yet proposed any guidance regarding the application of the de minimis thresholds to fund-of-funds operators. If the Fund and the Advisers with respect to the Fund become subject to CFTC regulation, the Fund may incur additional compliance, operational and other expenses.

**The Sub-Adviser** . . . . . Felicita Global Partners, LLC serves as the investment sub-adviser (the “Sub-Adviser”) of the Fund, including investment selection, initial and on-going due diligence of Underlying Managers and asset allocation. The Sub-Adviser provides day-to-day investment management services to the Fund. Its principal place of business is located at 65 N. Raymond Ave., Ste. 315, Pasadena, California 91103. The Sub-Adviser is registered as an investment adviser with the SEC under the Advisers Act. As of June 30, 2024, the Sub-Adviser had approximately \$811 million of assets under management.

**The Administrator, Transfer Agent and Custodian** . . . . . The Fund has retained UMB Fund Services, Inc. (the “Administrator”) to provide services for fund administration, fund accounting, tax regulation and compliance, transfer agent and record keeping, and custody administration services provided by the Administrator or its affiliates. UMB Bank, n.a. (the “Custodian”), an affiliate of the Administrator, serves as the primary custodian of the assets of the Fund and the escrow agent for the Fund. The Fund compensates the Administrator and Custodian for these services and reimburses the Administrator for certain of its out-of-pocket expenses.

**Fees and Expenses** . . . . . The Fund will bear directly certain ongoing offering costs associated with the continuous offering of Shares, which will be expensed as they are incurred. Offering costs cannot be deducted by the Fund or the Shareholders.

On an ongoing basis, the Fund bears its own operating expenses (including, without limitation, its offering expenses not paid by the Investment Adviser). A more detailed discussion of the Fund's expenses can be found under "*FUND EXPENSES*."

*Investment Management Fee.* The Fund pays the Investment Adviser a management fee (the "Investment Management Fee") in consideration of the advisory services provided by the Investment Adviser to the Fund. The Fund pays the Investment Adviser an annual rate of 1.50%, payable quarterly in arrears, based upon the Fund's net assets as of quarter-end. The Investment Management Fee is paid to the Investment Adviser before giving effect to any repurchase of Shares in the Fund effective as of that date and will decrease the net profits or increase the net losses of the Fund that are credited to its Shareholders.

The Investment Adviser pays the Sub-Adviser a quarterly sub-advisory fee equal to 83.33% of the first \$750,000 of Net Management Fee received by the Investment Adviser and then 66.67% of any Net Management Fee above \$750,000. The "Net Management Fee" means the gross management fee (as defined by the Investment Management Agreement) paid by the Fund to the Investment Adviser for the period being measured, minus the amount of any fee waiver or expense reimbursement paid by or due from the Investment Adviser to the Fund or any service provider to the Fund (including without limitation shareholder service fees and platform fees and expenses paid by the Fund or the Investment Adviser) under an expense limitation agreement, expense cap arrangement, or other similar agreement. See "INVESTMENT MANAGEMENT FEE."

*Expense Limitation and Reimbursement Agreement.* The Investment Adviser has entered into an expense limitation and reimbursement agreement (the "Expense Limitation and Reimbursement Agreement") with the Fund, whereby the Investment Adviser has agreed to waive fees that it would otherwise have been paid, and/or to assume expenses of the Fund (a "Waiver"), if required to ensure the Total Annual Expenses (excluding any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses (as determined in accordance with SEC Form N-2), expenses incurred in connection with any merger or reorganization after commencement of Fund operations, any shareholder servicing fees paid under the Fund's Shareholder Service Plan and extraordinary expenses, such as litigation expenses) do not exceed 2.25% of the net assets of the Fund on an annualized basis (the "Expense Limit") through July 1, 2025. Because taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses, expenses incurred in connection with any merger or reorganization after commencement of Fund operations, any shareholder servicing fees paid under the Fund's Shareholder Service Plan and extraordinary expenses are excluded from the Expense Limit, Total Annual Expenses (after fee waivers and expense reimbursements) are expected to exceed 2.25%. The Expense Limitation and Reimbursement may not be terminated before July 1, 2025 by the Investment Adviser and thereafter may be terminated by the Fund or the Investment Adviser upon 30 days' written notice. Unless it is terminated, the Expense

Limitation and Reimbursement Agreement automatically renews for consecutive one-year terms. For a period not to exceed three years from the date on which a Waiver is made, the Investment Adviser may recoup amounts waived or assumed, provided it is able to effect such recoupment and remain in compliance with the Expense Limit in effect at the time of the Waiver and the Expense Limit in effect at the time of the repayment. The Expense Limitation Agreement may be terminated by the Board of Trustees of the Fund (the “Board”) upon thirty days’ written notice to the Investment Adviser. See “FUND EXPENSES.”

*Administration Fee.* The Fund pays the Administrator an annual fee beginning at 0.095% of the Fund’s net assets and decreasing as assets reach certain levels. In addition, the Fund pays the Administrator its pro-rata share, based on combined assets under management, of an annual relationship-level base fee paid by all registered investment companies advised by the Investment Adviser and serviced by the Administrator (together with the asset-based fee, the “Administration Fee”). This fee structure generally covers fund administration, fund accounting, tax regulation and compliance, transfer agent and record keeping, and custody administration services provided by the Administrator or its affiliates. The Administration Fee is paid to the Administrator out of the assets of the Fund, and therefore decreases the net profits or increases the net losses of the Fund. The Fund also reimburses the Administrator for certain out-of-pocket expenses incurred by the Administrator or its affiliates for services provided to the Fund. See “ADMINISTRATION”.

**Fees of the Underlying Managers . . . . .** As an investor in Investment Funds, the Fund indirectly bears asset-based fees and may indirectly bear performance-based fees or allocations charged by the investment advisers to the Investment Funds (the “Underlying Managers”). Such fees and performance-based compensation are in addition to the fees that are charged by the Investment Adviser to the Fund and allocated to the Fund. Generally, fees payable to Underlying Managers of Investment Funds will range from 1.0% to 2.0% (annualized) of the average net asset value (“NAV”) of the Fund’s investment. In addition, certain Underlying Managers of private Investment Funds charge an incentive allocation or fee generally ranging from 10% to 20% of an Investment Fund’s net profits, although it is possible that such ranges may be exceeded for certain Underlying Managers. An investor in the Fund bears a proportionate share of the expenses of the Fund.

**Investor Qualifications . . . . .** Each prospective investor in the Fund will be required to certify that it is an “accredited investor” within the meaning of Rule 501 under the Securities Act of 1933, as amended (the “Securities Act”). The criteria for qualifying as an “accredited investor” are set forth in the investor application that must be completed by each prospective investor. Investors who meet such qualifications are referred to in this Prospectus as “Eligible Investors.” Existing Shareholders who request to purchase additional Shares (other than in connection with the DRIP (as defined below)) will be required to qualify as Eligible Investors and to complete an additional investor application prior to the additional purchase. The “accredited investor” criteria will apply to all investors and will not be waived.

An investment in the Fund may not be appropriate for certain types of tax-exempt entities, including charitable remainder unitrusts. Tax-exempt entities should consult with their tax advisers prior to making an investment in the Fund.

**The Offering** . . . . . The minimum initial investment for Class Y Shares of the Fund is \$250,000 and the minimum additional investment in Class Y Shares of the Fund by any Shareholder is \$25,000. The minimum initial investment for Class I Shares of the Fund is \$25,000 and the minimum additional investment in Class I Shares of the Fund by any Shareholder is \$5,000. However, the Fund, in its sole discretion, may accept investments below these minimums. See “PURCHASING SHARES”.

Shares will generally be offered for purchase as of the first day of each calendar quarter, except that Shares may be offered more or less frequently as determined by the Board in its sole discretion. Once a prospective investor’s purchase order is received, a confirmation is sent to the investor. Potential investors should send subscription funds by wire transfer pursuant to instructions provided to them by the Fund.

Subscriptions are generally subject to the receipt of cleared funds on or prior to the acceptance date set by the Fund and notified to prospective investors. Pending any closing, funds received from prospective investors will be placed in an interest-bearing escrow account with UMB Bank, n.a., the Fund’s escrow agent. On the date of any closing, the balance in the escrow account with respect to each investor whose investment is accepted will be invested in the Fund on behalf of such investor. Any interest earned on escrowed amounts will be credited to the Fund for the benefit of all Shareholders.

A prospective investor must submit a completed investor application on or prior to the acceptance date set by the Fund. The Fund reserves the right to reject, in its sole discretion, any request to purchase Shares in the Fund at any time. The Fund also reserves the right to suspend or terminate offerings of Shares at any time at the Board’s discretion. Additional information regarding the subscription process is set forth under “PURCHASING SHARES.”

There is no sales charge imposed the Fund on the purchase of Shares. Your financial intermediary may impose additional charges when you purchase Shares of the Fund.

**Shareholder Servicing Plan** . . . . . The Fund is relying on exemptive relief from the SEC that allows the Fund, subject to certain conditions, to adopt a Shareholder Service Plan with respect to its Class I Shares in compliance with Rule 12b-1 under the Investment Company Act. Under the Shareholder Service Plan, the Fund is permitted to pay as compensation up to 0.15% on an annualized basis of the net assets of the Fund attributable to Class I Shares (the “Shareholder Servicing Fee”) to qualified recipients under the Shareholder Service Plan. The Fund may pay all or a portion of these fees to any registered securities dealer, financial institution, or any other person who provides certain shareholder services, pursuant to a written agreement. Class Y Shares are not subject to the Shareholder Servicing Fee.

**Distributions and Dividend Reinvestment Plan** . . . . . Because the Fund intends to qualify annually as a RIC under the Code, the Fund intends to distribute at least 90% of its annual net taxable income to its Shareholders. Nevertheless, there can be no assurance that the Fund will pay distributions to Shareholders at any particular rate. Each year, a statement on Internal Revenue Service (“IRS”) Form 1099-DIV identifying the amount and character of the Fund’s distributions will be mailed to Shareholders. See “TAXES” below. The Fund is not a suitable investment for any investor who requires regular dividend income.

Each Shareholder whose Shares are registered in its own name will automatically be a participant under the Fund's dividend reinvestment program (the "DRIP") and have all income dividends and capital gains distributions automatically reinvested in Shares unless such Shareholder, at any time, specifically elects to receive income dividends and/or capital gains distributions in cash. A Shareholder receiving Shares under the DRIP instead of cash distributions may still owe taxes and, because Fund Shares are generally illiquid, may need other sources of funds to pay any taxes due. The Fund reserves the right to cap the aggregate amount of any income dividends and/or capital gain distributions that are made in cash (rather than being reinvested) at a total amount of not less than 20% of the total amount distributed to Shareholders. In the event that Shareholders submit elections in aggregate to receive more than the cap amount of such a distribution in cash, any such cap amount will be pro-rated among those electing Shareholders. Inquiries concerning income dividends and/or capital gains distributions should be directed to the Fund's Administrator, UMB Fund Services, Inc. at (888) 884-8810 or 235 West Galena Street, Milwaukee, WI 53212.

**No Redemptions; Repurchase Offers . . . The Fund is not a liquid investment.** No Shareholder will have the right to require the Fund to redeem its Shares. At the sole discretion of the Board and provided that it is in the best interests of the Fund and Shareholders to do so, the Fund intends to, but is not obligated to, provide a limited degree of liquidity to the Shareholders by conducting repurchase offers generally quarterly on or about March 31, June 30, September 30 and December 31 of each year. See "TENDER OFFERS/OFFERS TO REPURCHASE."

Any repurchases of Shares will be made at such times and on such terms as may be determined by the Board from time to time in its sole discretion. However, no assurance can be given that repurchases will occur or that any Shares properly tendered will be repurchased by the Fund. In determining whether the Fund should offer to repurchase Shares from Shareholders of the Fund pursuant to repurchase requests, the Board may consider, among other things, the recommendation of the Investment Adviser as well as a variety of other operational, business and economic factors.

A 2.00% early repurchase fee will be charged by the Fund with respect to any repurchase of Shares from a Shareholder at any time prior to the day immediately preceding the one-year anniversary of the Shareholder's purchase of the Shares. Shares tendered for repurchase will be treated as having been repurchased on a "first in-first out" basis. An early repurchase fee payable by a Shareholder may be waived by the Fund in circumstances where the Board determines that doing so is in the best interests of the Fund. See "TENDER OFFERS/REPURCHASES OF SHARES."

**Risk Factors** . . . . . The Fund is subject to substantial risks — including market risks, strategy risks and risks associated with investments in Investment Funds. The Fund will also be subject to the risks associated with the investment strategies employed by the Advisers. While the Advisers will attempt to moderate any risks, there can be no assurance that the Fund’s investment activities will be successful or that the investors will not suffer losses. The Advisers may not have any control over the Underlying Managers and there can be no assurances that the Underlying Managers will manage their Investment Funds in a manner consistent with the Fund’s investment objective. Additionally, some Investment Funds may not be registered as investment companies under the Investment Company Act and, therefore, the Fund may not be entitled to the various protections afforded by the Investment Company Act with respect to its investments in those Investment Funds. There may also be certain conflicts of interest relevant to the management of the Fund, arising out of, among other things, activities of the Advisers and their affiliates and employees with respect to the management of accounts for other clients as well as the investment of proprietary assets. Prospective investors should review carefully the “PRINCIPAL RISK FACTORS” section of this Prospectus. An investment in the Fund should only be made by investors who understand the risks involved and who are able to withstand the loss of the entire amount invested.

Accordingly, the Fund should be considered a speculative investment, and you should invest in the Fund only if you can sustain a complete loss of your investment. The Fund should be considered an illiquid investment. The Fund’s Shares are not traded on an active market and there is currently no secondary market for the Shares, nor does the Fund expect a secondary market in the Shares to develop. However, limited liquidity may be available through the quarterly repurchase offers described in this Prospectus. Past results of the Advisers, their principals, and the Fund are not indicative of future results. See “PRINCIPAL RISK FACTORS.”

**Summary of Taxation** . . . . . The Fund intends to elect to be treated and qualify as a RIC for federal income tax purposes. As a RIC, the Fund will generally not be subject to federal corporate income tax, provided that when it is a RIC, it distributes out substantially all of its income and realized gains each year. The Investment Funds may be subject to taxes, including withholding taxes, attributable to investments of the Investment Funds. U.S. investors in the Fund are not expected to be entitled to a foreign tax credit with respect to any of those taxes. See “TAXES.”

## FUND FEES AND EXPENSES

The following tables describe the aggregate fees and expenses that the Fund expects to incur and that the Shareholders can expect to bear, either directly or indirectly, through the Fund's investments. The purpose of the following table and the example below is to assist prospective investors in understanding the various fees and expenses that a Shareholder will bear, either directly or indirectly. The expenses shown in the table are based on estimated amounts for the current fiscal year. The Fund's actual expenses may vary from the estimated expenses shown in the table. For a more complete description of the various fees and expenses of the Fund, see "INVESTMENT MANAGEMENT," "ADMINISTRATION," "FUND EXPENSES," and "PURCHASING SHARES."

<b>SHAREHOLDER TRANSACTION EXPENSES:</b>	<b>Class Y</b>	<b>Class I</b>
Maximum Early Repurchase Fee (as a percentage of repurchased amount) <sup>(1)</sup> . . . . .	2.00%	2.00%
<b>ANNUAL EXPENSES:</b> <i>(As a Percentage of Net Assets Attributable to Shares)</i>		
Investment Management Fee <sup>(2)</sup> . . . . .	1.50%	1.50%
Acquired Fund Fees and Expenses <sup>(3)</sup> . . . . .	4.11%	4.11%
Shareholder Servicing Fees <sup>(4)</sup> . . . . .	—	0.15%
Other Expenses <sup>(5)</sup> . . . . .	1.18%	1.18%
Total Annual Expenses . . . . .	6.79%	6.94%
Less: Fee Waiver and Expense Reimbursements <sup>(6)</sup> . . . . .	(0.43)%	(0.43)%
Net Annual Expenses . . . . .	6.36%	6.51%

- (1) A 2.00% early repurchase fee payable to the Fund will be charged with respect to the repurchase of a Shareholder's Class Y Shares or Class I Shares at any time prior to the day immediately preceding the one-year anniversary of a Shareholder's purchase of the Shares (on a "first in-first out" basis). An early repurchase fee payable by a Shareholder may be waived by the Fund, in circumstances where the Board determines that doing so is in the best interests of the Fund and in a manner as will not discriminate unfairly against any Shareholder. See "TENDER OFFERS/REPURCHASES OF SHARES."
- (2) For its provision of advisory services to the Fund, the Investment Adviser receives an annual Management Fee, payable quarterly in arrears, equal to 1.50% of the Fund's net assets determined as of quarter-end. The Management Fee is paid to the Investment Adviser before giving effect to any repurchase of Shares in the Fund effective as of that date, and will decrease the net profits or increase the net losses of the Fund that are credited to its Shareholders.
- (3) In addition to the Fund's direct expenses, the Fund indirectly bears a pro-rata share of the expenses of the Investment Funds. Private Investment Funds generally charge, in addition to management fees calculated as a percentage of the average NAV of the Fund's investment, performance-based fees generally from 10% to 20% of the net capital appreciation in the private investment Fund's investment for the year or other measurement period, subject to loss carryforward provisions, as set forth in the respective private investment Funds' offering documents. The Acquired Fund Fees and Expenses are based on expected amounts for the current fiscal year. In the future, these fees and expenses may be substantially higher or lower than reflected, because certain fees are based on the performance of the investment Funds, which fluctuates over time. In addition, the Fund's portfolio changes from time to time, which will result in different Acquired Fund Fees and Expenses.
- (4) Pursuant to exemptive relief from the SEC, the Fund offers multiple classes of Shares and has adopted a shareholder service plan ("Shareholder Service Plan") for Class I Shares. Under the Shareholder Service Plan, the Fund is permitted to pay as compensation up to 0.15% on an annualized basis of the net assets of the Fund attributable to Class I Shares (the "Shareholder Servicing Fee") to qualified recipients under the Shareholder Service Plan. The Fund may pay all or a portion of these fees to any registered securities dealer, financial institution, or any other person (each, a "Recipient") who provides certain shareholder services, pursuant to a written agreement. Class Y Shares are not subject to the Shareholder Servicing Fee.
- (5) Other Expenses are estimated for the Fund's current fiscal year. "Other Expenses" include, among other things, professional fees and other expenses that the Fund will bear, including ongoing offering costs and fees and expenses of the Administrator, Transfer agent and Custodian.
- (6) The Investment Adviser has entered into an expense limitation and reimbursement agreement (the "Expense Limitation and Reimbursement Agreement") with the Fund, whereby the Investment Adviser has agreed to waive fees that it would otherwise have been paid, and/or to assume expenses of the Fund (a "Waiver"), if required to ensure the Total Annual Expenses (excluding any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses (as determined in accordance with SEC Form N-2), expenses incurred in connection with any merger or reorganization after commencement of Fund operations, any shareholder servicing fees paid under the Fund's Shareholder Service Plan and extraordinary expenses, such as litigation expenses) do not exceed 2.25% of the net assets of the Fund on an annualized basis (the "Expense Limit") through July 1, 2025. The Expense Limitation and Reimbursement may not be terminated before July 1, 2025 by the Investment Adviser and thereafter may be terminated by the Fund or

the Investment Adviser upon 30 days' written notice. Unless it is terminated, the Expense Limitation and Reimbursement Agreement automatically renews for consecutive one-year terms. For a period not to exceed three years from the date on which a Waiver is made, the Investment Adviser may recoup amounts waived or assumed, provided it is able to effect such recoupment and remain in compliance with the Expense Limit in effect at the time of the Waiver and the Expense Limit in effect at the time of the repayment.

The following example is intended to help you compare the cost of investing in the Fund with the cost of investing in other funds. The example assumes that all distributions are reinvested at NAV and that the percentage amounts listed under annual expenses remain the same in the years shown (except that the example reflects the expense limitation for the one-year period and the first year of each additional period). The assumption in the hypothetical example of a 5% annual return is the same as that required by regulation of the SEC applicable to all registered investment companies. The assumed 5% annual return is not a prediction of, and does not represent, the projected or actual performance of the Shares.

**EXAMPLE**

	1 Year	3 Years	5 Years	10 Years
You Would Pay the Following Expenses Based on the Imposition of a \$1,000 Investment in the Fund, Assuming a 5% Annual Return:				
Class Y Shares . . . . .	\$ 63	\$ 195	\$ 322	\$ 620
Class I Shares . . . . .	\$ 65	\$ 199	\$ 328	\$ 629

The example is based on the annual fees and expenses set out in the table above and should not be considered a representation of future expenses. Actual expenses may be greater or less than those shown. Moreover, the rate of return of the Fund may be greater or less than the hypothetical 5% return used in the example. A greater rate of return than that used in the example would increase the dollar amount of the asset-based fees paid by the Fund.

## FINANCIAL HIGHLIGHTS

The information contained in the table below sets forth selected information derived from the Fund’s financial statements. Financial statements for the fiscal period from July 1, 2023 (commencement of operations) to June 30, 2024 have been audited by Cohen & Company, Ltd., the Fund’s independent registered public accounting firm. Cohen & Company, Ltd.’s report, along with the Fund’s financial statements and notes thereto, are included in the Fund’s annual report for the period July 1, 2023 through June 30, 2024 (“Annual Report”), which is incorporated by reference into this Prospectus. You may obtain the Annual Report free of charge by writing to the Fund, c/o UMB Fund Services, Inc., 235 West Galena Street, Milwaukee, WI 53212; by calling the Fund toll-free at 1 (844) 440-4450; or by visiting the following hyperlink: [https://www.sec.gov/Archives/edgar/data/1957121/000121390024076439/ea0211931-01\\_ncsr.htm](https://www.sec.gov/Archives/edgar/data/1957121/000121390024076439/ea0211931-01_ncsr.htm). The information in the table below should be read in conjunction with each of those financial statements and the notes thereto.

### Consolidated Financial Highlights — Class Y Shares

*Per share operating performance.*

*For a capital share outstanding throughout the period.*

	For the Period July 1, 2023* through June 30, 2024
<b>Per Share Operating Performance:</b>	
<b>Net Asset Value per share, beginning of period</b> .....	\$ 20.00
Activity from investment operations:	
Net investment income <sup>(1)</sup> .....	0.17
Net realized and unrealized gain/(loss) on investments .....	0.19
Total from investment operations .....	0.36
Distributions to investors	
From net investment income .....	(0.06)
From return of capital .....	(0.03)
Total distributions to investors .....	(0.09)
<b>Net Asset Value per share, end of period</b> .....	<b>\$ 20.27</b>
<b>Net Assets, end of period</b> .....	<b>\$ 105,328,617</b>
<b>Ratios to average shareholders’ equity:</b>	
Net investment income <sup>(2)</sup> .....	0.81%
Gross expenses <sup>(3)</sup> .....	2.68%
Expense Recoupment/(Reimbursement) .....	(0.43)%
Net expenses <sup>(3)</sup> .....	2.25%
Total Return <sup>(4)</sup> .....	1.82%
Portfolio turnover rate .....	4%

\* The Fund commenced operations following the close of business on June 30, 2023 following reorganization of Felicitas Equity Fund, LP which was effective as of close of business on June 30, 2023. Prior to that, the Fund had been inactive except for matters relating to the Fund’s establishment, designation and planned registration of the Fund’s shares of beneficial interest under the Securities Act and the sale of 5,000 shares (“Initial Shares”) to the Investment Advisor for \$100,000 on June 20, 2023 at an initial Net Asset Value (“NAV”) of \$20 per share.

(1) Per share data is computed using the average shares method.

- (2) Recognition of net investment income by the Fund is affected by the timing of the declaration of dividends by the underlying funds in which the Fund invests. Ratios do not include net investment income of the funds in which the Fund invests.
- (3) These ratios exclude the impact of expenses of the underlying investment companies holdings as represented in the Fund's Consolidated Schedule of Investments.
- (4) Total return based on per unit net asset value reflects the change in net asset value based on the effects of the performance of the Fund during the period and assumes distributions, if any, were reinvested. Total returns shown exclude the effect of applicable sales charges.

## USE OF PROCEEDS

The proceeds from the sale of Shares, not including the Fund's fees and expenses (including, without limitation, offering expenses), will be invested by the Fund in accordance with the Fund's investment objective and strategies as soon as practicable, but in no event later than three months after receipt, and consistent with market conditions and the availability of suitable investments; proceeds held in cash may be used to meet operational needs, to provide for anticipated funding requirements with respect to Investment Funds, for temporary defensive purposes, or to maintain liquidity.

Delays in investing the Fund's assets may occur, for example (i) because of the time typically required to complete private transactions (which may be considerable), (ii) because certain Investment Funds selected by the Advisers may provide infrequent opportunities to purchase their securities, or (iii) because a prospective Investment Fund fails to close.

Pending the investment of the proceeds of any offering or any other available funds pursuant to the Fund's investment objective and strategies, a portion of such amounts, which may include a substantial portion of the proceeds of an offering, may be invested in short-term debt securities or money market funds. In addition, subject to applicable law, the Fund may maintain a portion of its assets in cash or short-term securities or money market funds to meet operational needs, to provide for anticipated funding requirements with respect to Investment Funds, for temporary defensive purposes, or to maintain liquidity. The Fund may be prevented from achieving its objective during any period in which the Fund's assets are not substantially invested in accordance with its principal investment strategies.

## INVESTMENT OBJECTIVE AND STRATEGIES

### INVESTMENT OBJECTIVE

The Fund's investment objective is to deliver a combination of yield and capital appreciation. There can be no assurance that the Fund will achieve its investment objective or that the Fund's investment strategies will be successful.

The Fund's investment objective is non-fundamental and may be changed by the Board without the approval of Shareholders.

### INVESTMENT OVERVIEW

The Fund intends to seek its investment objective through a portfolio of private equity, private credit and real estate investments ("private assets"). Under normal circumstances, the Fund seeks to achieve its objective by investing at least 80% of its net assets (plus the amount of any borrowings for investment purposes) in "private assets" ("80% Policy"). For purposes of this 80% Policy, private assets include: (i) investments in general or limited partnerships, funds, corporations, trusts, closed-end funds (including, without limitation, funds-of-funds) (together, "Investment Funds") that are managed by independent investment managers, i.e., investment advisers unaffiliated with the Advisers) (each, an "Underlying Manager" and collectively, the "Underlying Managers"); (ii) secondary investments in Investment Funds managed by Underlying Managers; (iii) co-investment vehicles that invest alongside Investment Funds; and (iv) other direct investments in the equity or debt of a company, which are not generally available to unaccredited investors (each, a "Direct Investment" and together with the Investment Funds, the "Investments"). Investment Funds will be limited to (i) private funds (e.g., exempt under Section 3(c)(1) or 3(c)(7) from registration under the Investment Company Act), or (ii) registered investment companies and non-traded business development companies that invest at least 80% of their assets in "private assets" that are only available to accredited investors. The Fund does not intend to invest directly in real estate but may invest in real estate indirectly through Investment Funds. The Fund's investments also will include direct investments in equity or debt alongside private equity funds and firms, and the Fund may provide debt or preferred equity financing to other companies, institutions, funds, or fund managers. The Fund will invest primarily in Investment Funds and to a lesser extent in co-investments and direct investment. The Fund may change the 80% Policy without shareholder approval upon at least 60 days' prior written notice to shareholders.

The Fund conducts thorough due diligence on each Investment Fund before investing. For primary commitments, the Fund evaluates, among other factors, the Investment Fund's track record, investment team, the quality of its current portfolio, the projected return on the investment in the Investment Fund from, among other things, a multiple of invested capital ("MOIC") and internal rate of return ("IRR") perspective. For secondary commitments, the Fund evaluates, among other things, the entry valuation, the quality of the underlying assets and the sponsor of the Investment Fund, the structure of the security, projected MOIC and IRR and the expected transaction duration. For primary and secondary co-investments and direct investments, the Fund will consider, among other things, the quality and financial metrics of the underlying asset(s) including revenue and EBITDA growth trends and leverage profile, the quality of the sponsor and its underwriting of the deal, the projected MOIC and IRR, and the Fund's ability to access ongoing financial information about the underlying asset(s). For direct lending opportunities, the Fund considers, among other things, the seniority of its position in the capital structure, the various potential methods of repayment from any underlying collateral, the loan to value ("LTV") and expected duration of the opportunity, and the expected overall projected MOIC and IRR.

The Fund is expected to have a broad portfolio of investments that will contain exposure to multiple sectors of the private markets and hundreds of underlying investments.

It is expected that the Fund's assets will not be fully invested at all times.

The Fund's success will depend on the Investment Sub-Adviser's ability to (a) identify Investment Funds for investment and determine the optimal allocations to such funds, (b) evaluate and process co-investments offered to the Fund, and (c) effectively source, underwrite, and execute on other direct Investments and secondary investments generated from different channels that leverage the Investment Sub-Adviser's network. The Fund has been granted exemptive relief from the SEC that permits it to, among other things, co-invest with certain other persons, including certain affiliates of the Sub-Adviser and certain private funds managed by the Sub-Adviser and its affiliates, subject to certain terms and conditions. The Investment Adviser will not cause the Fund to engage in certain investments alongside affiliates unless such investments are permitted under the order granting an exemption from Section 17 of the Investment Company Act

or unless such investments are not prohibited by Section 17(d) of the Investment Company Act or interpretations of Section 17(d) as expressed in SEC no-action letters or other available guidance. The Fund could be limited in its ability to invest in certain investments in which the Investment Adviser or any of its affiliates are investing or are invested.

## **USE OF LEVERAGE**

The Fund may establish a credit line to engage in short-term borrowing for a range of purposes, including meeting capital calls of existing underlying Investments or acquiring new Investments. There is no assurance, however, that the Fund will be able to enter into a credit line or that it will be able to timely repay any borrowings under such credit line, which may result in the Fund incurring leverage on its portfolio investments from time to time. The Fund is permitted to borrow money or issue debt securities in an amount up to 33 $\frac{1}{3}$ % of its total assets in accordance with the Investment Company Act. The rights of any lenders to the Fund to receive payments of interest or repayments of principal will be senior to those of the Shareholders and the terms of any borrowings may contain provisions that limit certain activities of the Fund. The Fund also may borrow money from banks or other lenders for temporary purposes in an amount not to exceed 5% of the Fund's assets. Such temporary borrowings are not subject to the asset coverage requirements discussed above. See "PRINCIPAL RISK FACTORS — BORROWING, USE OF LEVERAGE."

## **INVESTMENT ALLOCATION METHODS**

Below is an explanation as to the Fund's various methods of allocating to private assets:

### ***Primary Commitments to funds***

The Fund shall act as an initial passive investor, or limited partner, in a private assets fund managed by an Underlying Manager. Primary commitments may be made when the Underlying Manager's fund is largely uninvested and may be deemed to be a 'blind pool'. The investment horizon is typically longer in duration due to the nature of entering the Investment Fund at or close to its inception.

### ***Secondary Commitments to funds***

The Fund shall act as a replacement passive investor, or limited partner, in a private assets fund managed by an Underlying Manager. Unlike primary commitments to funds, a secondary commitment involves acquiring an existing investor's ownership stake in a private assets fund, which may be done at a negotiated discount or premium to its net asset value. Since these Investments are made further on in the acquired fund's life, there is typically less of a 'blind pool', as the fund will have, in most cases, commenced, if not concluded its investment period. For this reason, the duration of a secondary commitment into a fund is typically shorter than that of a primary commitment to a fund.

### ***Primary and Secondary Co-Investments***

Co-Investments may be offered to the Fund by its Underlying Managers or by independent investment managers (collectively, the "Third-Party Managers") who do not have an existing economic relationship with the Fund. Unlike investments made into funds, co-investments are investments made into that of a single company, in a passive manner, and directly alongside or via an entity managed by a Third-Party Manager. Co-Investments may be made on a primary and secondary basis.

### ***Primary and Secondary Direct Investments***

Direct Investments typically involves acquiring a passive minority ownership in a company, as opposed to a fund. Unlike Co-Investments, these Investments are done independently by the Investment Sub-Adviser, and do not feature a Third-Party Manager. Further, unlike typical primary direct Investments, these Investments are often further removed from the day-to-day operations and management of the company and emphasize a non-control, passive ownership role. Direct Investments may be made on a primary and secondary basis. An example of a Secondary Direct Investment would be an acquisition of an employee's or minority investor's shares in a privately held technology business, whereas a Primary Direct Investment would be an acquisition of an investor's shares directly from a company through a funding round.

### ***Direct Lending***

Direct Lending is a private credit strategy, which may be done via primary or secondary commitments to funds, as well as via primary or secondary co-investments. In this instance, the Investment Sub-Adviser will provide debt or preferred equity financing to companies, funds or individuals, often with ‘asset-backed’ collateral, such as real estate or portfolio companies.

### **PORTFOLIO ALLOCATION**

The Investment Adviser intends to achieve and monitor portfolio allocation primarily on a “look-through” basis by examining the underlying assets/strategies in the Investment Funds or interests purchased, as shown in the table below. The Investment Adviser may, however, alter the target allocations on an opportunistic basis or in response to changing market conditions. On a “look-through” basis, the Investment Adviser aims to have no single company, or loan, represent more than 3% of the Fund’s capital commitment.

<b>Portfolio Allocation by Strategy</b>	<b>Percentage of Capital Commitment</b>
Private Equity . . . . .	50%
Private Credit . . . . .	30%
Real Estate . . . . .	10%
Liquid Investments . . . . .	10%

The Fund may gain exposure to the following strategies through investing in funds, co-investments, and direct investments on a primary or secondary basis:

#### ***Private Equity***

Private equity involves making equity investments into privately held companies of different stages through bespoke, privately negotiated transactions. The Fund shall invest directly and indirectly via Underlying Funds in young and emerging companies, often with limited operating history (“Venture Capital”), companies with sizeable revenue growth but limited profitability (“Growth Equity”), and mature stage businesses with consistent earnings (“Buyout”). The intention behind private equity is to provide capital appreciation.

#### ***Private Credit***

Private credit involves making loans and similar investments typically made in private companies that are negotiated directly with the borrower. They may include first and second lien senior secured loans, unitranche debt, unsecured debt, and structurally subordinated debt. Private credit will also include alternative lending (such as, but not limited to, real estate-secured lending, bespoke financing to private equity funds, trade finance, receivable transfer, life settlement, consumer lending, etc.) and leveraged loans. Additionally, special situations may be included within private credit and may include mezzanine, distressed debt (non-control and distressed for control), turnarounds and non-performing loans. The intention behind private credit is to provide capital preservation and yield.

#### ***Real Estate***

Real estate involves typically equity investments in underlying properties across various real estate sectors, including, without limitation, multifamily, retail, office, hospitality, data centers, senior living, and industrial assets. In some cases, investments may also be made in the debt, preferred equity or mortgages relating to such properties. For RIC compliance, the Fund shall not make direct investments into real estate but rather invest into Underlying Funds or private securities that invest in real estate, and via a ‘blocker structure’.

#### ***Liquid Investments***

Liquid investments may include publicly traded securities, such as stocks, bonds, business development companies (“BDCs”), exchange-traded funds (“ETFs”), registered investment companies (e.g. mutual funds, interval funds and tender offer funds, etc.), cash and cash equivalent.

### ***Investment Policies and Restrictions***

The Fund will continue to attempt to diversify its holdings in Investment Funds, and, as a result, will typically hold interests in no fewer than ten Investment Funds at any one time.

The Underlying Managers will primarily invest in equity and/or debt securities that are not listed on securities exchanges and that may be illiquid. The investments of the Underlying Managers may from time to time be concentrated in a particular industry or industries. The Fund will not knowingly concentrate its assets in a single industry.

A significant portion of the Fund's investments are in the form of interests that are not offered pursuant to an effective registration statement under the Securities Act and are issued by entities organized as partnerships under United States law, but not registered as investment companies under the Investment Company Act. Subject to applicable law, the Fund may, from time to time in the future, also invest directly in securities pursuant to a discretionary investment advisory agreement with an investment manager. However, the Fund does not have any current intention to invest directly in securities pursuant to a discretionary investment advisory agreement with an investment manager. Any such future investments would be made subject to applicable law and such an investment manager would be treated as an investment adviser to the Fund in accordance with the Investment Company Act and would require the approval of the Fund's Shareholders.

The Fund may, among other things, hold cash or invest in cash equivalents. Among the cash equivalents in which the Fund may invest are: obligations of the United States Government, its agencies or instrumentalities; commercial paper; and certificates of deposit and bankers' acceptances issued by United States banks that are members of the Federal Deposit Insurance Corporation. The Fund may also enter into repurchase agreements and may purchase shares of money market mutual funds in accordance with applicable legal restrictions.

During temporary defensive periods, the Fund may deviate from its investment policies and objective. During such periods, the Fund may invest up to 100% of its total assets in cash or cash equivalents, including short- or intermediate-term U.S. Treasury securities, as well as other short-term investments, including high quality, short-term debt securities. There can be no assurance that such techniques will be successful. During such periods, the Fund may not achieve its investment objective.

Unless otherwise specified, the investment policies and limitations of the Fund are not considered to be fundamental by the Fund and can be changed without a vote of the Shareholders. The Fund's investment objective and certain investment restrictions specifically identified as such in the SAI are considered fundamental and may not be changed without approval by holders of a "majority of the outstanding voting securities" of the Fund, as defined in the Investment Company Act, which includes Shares and shares of preferred stock of the Fund ("Preferred Shares"), if any, voting together as a single class, and the holders of the outstanding Preferred Shares voting as a single class. As defined in the Investment Company Act, when used with respect to particular shares of the Fund, a "majority of the outstanding voting securities" means: (i) 67% or more of the shares present at a meeting, if the holders of more than 50% of the shares are present or represented by proxy; or (ii) more than 50% of the shares, whichever is less. The Fund may change the 80% Policy without shareholder approval upon at least 60 days' prior written notice to shareholders.

## PRINCIPAL RISK FACTORS

All investments carry risks to some degree. The Fund cannot guarantee that its investment objective will be achieved or that its strategy of investing in the Fund will be successful. **An investment in the Fund involves substantial risks, including the risk that the entire amount invested may be lost.** Below is a list of the principal risks of investing in the Fund. Different risks may be more significant at different times, depending on market conditions.

**The Shares are speculative and illiquid securities involve substantial risk of loss. An investment in the Fund is appropriate only for those investors who do not require a liquid investment, for whom an investment in the Fund does not constitute a complete investment program, and who fully understand and can assume the risks of an investment in the Fund.**

### BUSINESS AND STRUCTURE RELATED RISKS

#### Limited Operating History

The Fund is a recently-organized closed-end management investment company that has limited operating history. The Fund is designed primarily as a long-term investment vehicle and not as a trading tool. An investment in the Fund's securities should not constitute a complete investment program for any investor and involves a high degree of risk. Due to the uncertainty in all investments, there can be no assurance that the Fund will achieve its investment objective. The value of the Fund's shares could decline substantially and cause you to lose some or all of your investment. Many of the Fund's competitors are substantially larger and have considerably greater financial, technical and marketing resources than the Fund does. For example, some competitors may have a lower cost of capital and access to funding sources that are not available to the Fund. In addition, some of the Fund's competitors may have higher risk tolerances or different risk assessments than the Fund has. These characteristics could allow the Fund's competitors to consider a wider variety of investments, establish more relationships and offer better pricing and more flexible structuring than the Fund. The Fund may lose investment opportunities if it does not match competitors' pricing, terms, and structure. If the Fund is forced to match competitors' pricing, terms and structure, it may not be able to achieve acceptable returns on investments or may bear substantial risk of capital loss. Many of the Fund's competitors have greater experience operating under, or are not subject to, the regulatory restrictions that the Investment Company Act imposes on the Fund as a registered closed-end management investment company.

#### Non-Diversified Status

The Fund is a "non-diversified" management investment company. Thus, there are no percentage limitations imposed by the Investment Company Act on the Fund's assets that may be invested, directly or indirectly, in the securities of any one issuer. Consequently, if one or more Investments are allocated a relatively large percentage of the Fund's assets, losses suffered by such Investments could result in a higher reduction in the Fund's capital than if such capital had been more proportionately allocated among a larger number of investments. The Fund may also be more susceptible to any single economic or regulatory occurrence than a diversified investment company. However, the Fund will be subject to diversification requirements applicable to RICs under the Code. See "CERTAIN TAX CONSIDERATIONS."

#### Lack of Operating History of Investment Funds

Certain Investment Funds may be newly formed entities that have no operating histories. In such cases, the Investment Sub-Adviser may evaluate the past investment performance of the applicable Underlying Managers or of their personnel. However, this past investment performance may not be indicative of the future results of an investment in an Investment Fund. Although the Investment Sub-Adviser and its affiliates and their personnel have experience evaluating the performance of alternative asset managers and providing manager selection and asset allocation services to clients, the Fund's investment programs should be evaluated on the basis that there can be no assurance that the Investment Sub-Adviser's assessments of Underlying Managers, and in turn their assessments of the short-term or long-term prospects of investments, will prove accurate. Thus, the Fund may not achieve its investment objective and its NAV may decrease.

## **MANAGEMENT RELATED RISKS**

### **Investment Selection**

The Investment Funds will be selected by the Investment Sub-Adviser based on information provided to it by those Investment Funds and through other sources. Although the Investment Sub-Adviser is expected to evaluate all such information and data and to seek independent corroboration when it considers it appropriate and when it is reasonably available, the Investment Sub-Adviser will not be in a position to confirm the completeness, genuineness or accuracy of such information and data. Information about private Investment Funds and private companies is more difficult to obtain and can be less reliable and more subjective than information about investment companies that are registered with the SEC. Historical performance of the principals of an Underlying Manager is not indicative of the future returns of that Investment Fund.

### **Dependence on the Advisers and the Underlying Managers**

The Fund's success depends on the acumen and expertise of the Sub-Adviser in selecting Investment Funds and the acumen and expertise of the Underlying Managers in selecting portfolio securities or other assets in which to invest. In addition, decisions with respect to the management of the Fund will be made by the Advisers. Shareholders have no right or power to take part in the management of the Fund or to select or define the Fund's investment criteria or decisions. Accordingly, no prospective Shareholder should invest in the Fund unless such Shareholder is willing to entrust all aspects of the management of the Fund to the Advisers. Historical performance of the Advisers and their affiliates is not indicative of the returns that Shareholders may achieve from an investment in the Fund.

### **Access to Information from Underlying Managers**

The Investment Sub-Adviser will request detailed information on a continuing basis from each Underlying Manager regarding such Underlying Manager's historical performance and investment strategies. However, the Investment Sub-Adviser may not always be provided with detailed information regarding all the investments made by an Underlying Manager because certain of this information may be considered proprietary information by the Underlying Manager or the Underlying Manager may otherwise be prevented by agreement with issuers of the applicable securities from providing this information. This potential lack of access to information may make it more difficult for the Investment Sub-Adviser to select, allocate among and evaluate certain Underlying Managers.

### **Borrowing; Use of Leverage**

The strategies implemented by the Underlying Managers typically are leveraged. The use of leverage increases both risk of loss and profit potential. The Fund is subject to the Investment Company Act requirement that an investment company satisfy an asset coverage requirement of 300% of its indebtedness, including amounts borrowed, measured at the time the investment company incurs the indebtedness. This means that at any given time the value of the Fund's total indebtedness may not exceed one-third of the value of its total assets (including such indebtedness). These limits do not apply to the Investment Funds and, therefore, the Fund's portfolio may be exposed to the risk of highly leveraged investment programs of certain Investment Funds.

### **Investment Funds Risk**

Investments in Investment Funds generally are subject to legal or contractual restrictions on their resale. Certain Investment Funds may not permit voluntary withdrawals or redemptions. To the extent that an Investment Fund permits voluntary withdrawals or redemptions, if the Fund requests a complete or partial withdrawal of its interest in such Investment Fund, the Underlying Manager of such Investment Fund generally may, in its discretion or at the election of the Fund, (i) not satisfy the Fund's withdrawal request with respect to the portion of such investment's assets represented by illiquid investments until the disposition of those illiquid investments, (ii) satisfy the Fund's withdrawal request with an in-kind distribution of illiquid investments (either directly or through an in-kind distribution of interests in a special purpose vehicle or other investment vehicle (collectively, "SPVs") established to hold such illiquid investments), or (iii) in some cases, satisfy the withdrawal amount by valuing illiquid investments at the lower of cost or market or otherwise in the sole discretion of the applicable Underlying Manager. If the Fund receives distributions in-kind from an investment, the Fund may incur additional costs and risks to dispose of such assets. In addition, certain Investment Funds may require maintenance of investment minimums and/or have holding periods

and/or other withdrawal provisions more restrictive than those of the Fund. These may include, but are not limited to, lock-ups, “side pockets,” withdrawal “gates” and fees, suspensions and delays of withdrawals and other similar limitations. See “SPECIAL RISKS OF FUND OF FUNDS STRUCTURE — LIQUIDITY CONSTRAINTS OF INVESTMENT FUNDS.”

### **Recent Market Circumstances**

The value of the Fund’s investments may increase or decrease in response to expected, real or perceived economic, political or financial events in the U.S. or global markets. The frequency and magnitude of such changes in value cannot be predicted. U.S. or global markets may be adversely affected by uncertainties and events in the U.S. and around the world, such as major cybersecurity events, geopolitical events (including wars, terror attacks, natural disasters, the spread of infectious disease (including epidemics or pandemics) or other public health emergencies), social unrest, political developments, changes in government policies, taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and developments in the laws and regulations in the U.S. and other countries, or other political, regulatory, economic and social developments, and developments that impact specific economic sectors, industries or segments of the market.

The impairment or failure of one or more banks with whom the Fund transacts may inhibit the Fund’s or an Underlying Fund’s ability to access depository accounts. In such cases, the Fund or an Underlying Fund may be forced to delay or forgo investments, resulting in lower Fund performance. In the event of such a failure of a banking institution where the Fund, an Underlying Fund or other Fund investment holds depository accounts, access to such accounts could be restricted and U.S. Federal Deposit Insurance Corporation (“FDIC”) protection may not be available for balances in excess of amounts insured by the FDIC. In such instances, the Fund, an Underlying Fund or other Fund investment may not recover such excess, uninsured amounts.

The Fund cannot predict the effects or likelihood of such events on the U.S. and global economies, the value of the Shares or the NAV of the Fund. The issuers of securities, including those held in the Fund’s portfolio, could be materially impacted by such events, which may, in turn, negatively affect the value of such securities or such issuers’ ability to make interest payments or distributions to the Fund. These risks may be magnified if certain events or developments adversely interrupt the global supply chain; in these and other circumstances, such risks might affect companies worldwide due to increasingly interconnected global economies and financial markets.

### **Government Intervention in Financial Markets Risk**

The instability in the financial markets in the recent past led the U.S. government and foreign governments to take a number of unprecedented actions designed to support certain financial institutions and segments of the financial markets that experienced extreme volatility, and in some cases a lack of liquidity. Current market conditions could lead to further such actions. See “RECENT MARKET CIRCUMSTANCES.” U.S. federal and state governments and foreign governments, their regulatory agencies or self-regulatory organizations may take additional actions that affect the regulation of the securities in which the Fund invests, or the issuers of such securities, in ways that are unforeseeable and on an “emergency” basis with little or no notice with the consequence that some market participants’ ability to continue to implement certain strategies or manage the risk of their outstanding positions will be suddenly and/or substantially eliminated or otherwise negatively implicated. Given the complexities of the global financial markets and the limited time frame within which governments have been able to take action, these interventions have sometimes been unclear in scope and application, resulting in confusion and uncertainty, which in itself has been materially detrimental to the efficient functioning of such markets as well as previously successful investment strategies. Decisions made by government policy makers could exacerbate any economic difficulties. Issuers might seek protection under the bankruptcy laws. Legislation or regulation may also change the way in which the Fund itself is regulated. Such legislation or regulation could limit or preclude the Fund’s ability to achieve its investment objectives.

### **Closed-End Fund; Liquidity Limited to Periodic Repurchases of Shares**

The Fund has been organized as a non-diversified, closed-end management investment company and designed primarily for long-term investors. An investor should not invest in the Fund if the investor needs a liquid investment. Closed-end funds differ from open-end management investment companies (commonly known as mutual funds) in that investors in a closed-end fund do not have the right to redeem their shares on a daily basis. Unlike most closed-end funds, which typically list their shares on a securities exchange, the Fund does not intend to list the Shares for trading

on any securities exchange, and the Fund does not expect any secondary market to develop for the Shares. Shares are considerably less liquid than Shares of funds that trade on a stock exchange, or Shares of open-end registered investment companies. It is possible that the Fund may be unable to repurchase all of the Shares that an investor tenders due to the illiquidity of the Fund's investments or if the Shareholders request the Fund to repurchase more Shares than the Fund is then offering to repurchase. There can be no assurance that the Fund will conduct repurchase offers in any particular period and Shareholders may be unable to tender Shares for repurchase for an indefinite period of time.

There will be a substantial period of time between the date as of which Shareholders must submit a request to have their Shares repurchased and the date they can expect to receive payment for their Shares from the Fund. Shareholders whose Shares are accepted for repurchase bear the risk that the Fund's NAV may fluctuate significantly between the time that they submit their repurchase requests and the date as of which such Shares are valued for purposes of such repurchase. Shareholders will have to decide whether to request that the Fund repurchase their Shares without the benefit of having current information regarding the value of Shares on a date proximate to the date on which Shares are valued by the Fund for purposes of effecting such repurchases.

In considering whether to repurchase Shares during periods of financial market stress, the Board may offer to repurchase Shares at a discount to their prevailing net asset value that appropriately reflects market conditions, subject to applicable law. Further, repurchases of Shares, if any, may be suspended, postponed or terminated by the Board under certain circumstances. An investment in the Fund is suitable only for investors who can bear the risks associated with the limited liquidity of Shares and the underlying investments of the Fund. Also, because Shares are not listed on any securities exchange, the Fund is not required, and does not intend, to hold annual meetings of its Shareholders unless called for under the provisions of the Investment Company Act.

### **Substantial Repurchases**

Substantial requests for the Fund to repurchase Shares could require the Fund to liquidate certain of its investments more rapidly than otherwise desirable in order to raise cash to fund the repurchases and achieve a market position appropriately reflecting a smaller asset base. This could have a material adverse effect on the value of the Shares.

### **Special Risks of Fund of Funds Structure**

*No Registration.* Private investment Funds generally will not be registered as investment companies under the Investment Company Act. Accordingly, the provisions of the Investment Company Act, which, among other things, require investment companies to have securities held in custody at all times in segregated accounts and regulate the relationship between the investment company and its asset management, are not applicable to an investment in the Investment Funds. In addition, Investment Funds generally are not obligated to disclose the contents of their portfolios. This lack of transparency may make it difficult for the Advisers to monitor whether holdings of the Investment Funds cause the Fund to be above specified levels of ownership in certain investment strategies. Although the Fund expects to receive information from each Underlying Manager regarding its investment performance on a regular basis, in most cases there is little or no means of independently verifying this information. An Underlying Manager may use proprietary investment strategies that are not fully disclosed to its investors and may involve risks under some market conditions that are not anticipated by the Fund. In addition, while many Underlying Managers will register with the SEC and state agencies as a result of developments in certain laws, rules and regulations, some Underlying Managers may still be exempt from registration. In such cases, these Underlying Managers will not be subject to various disclosure requirements and rules that would apply to registered investment advisers. Similarly, while many Underlying Managers will register as commodity pool operators under the Commodity Exchange Act, other Underlying Managers will be exempt from registration and will not be subject to various disclosure requirements and rules that would apply to registered commodity pool operators.

*Closed-End Funds.* The Fund may invest in Investment Funds that are closed-end investment companies registered under the Investment Company Act. The shares of many closed-end funds, after their initial public offering, frequently trade at a price-per-share that is less than the NAV per share, the difference representing the "market discount" of such shares. A relative lack of secondary market purchasers for closed-end fund shares also may contribute to such shares trading at a discount to their NAV.

*Business Development Companies.* A business development company ("BDC"), which is a type of closed-end fund, typically invests in small and medium-sized U.S. companies. A BDC's portfolio is subject to the risks inherent in investing in smaller companies, including that portfolio companies may be dependent on a small number of products or services and may be more adversely affected by poor economic or market conditions. Some BDCs invest substantially,

or even exclusively, in one sector or industry group and therefore the BDC may be susceptible to adverse conditions and economic or regulatory occurrences affecting the sector or industry group, which tends to increase volatility and result in higher risk. The Small Business Credit Availability Act permits BDCs to adopt a lower asset coverage ratio, thereby enhancing their ability to use leverage. Investments in BDCs that use greater leverage may be subject to heightened risks.

*Exchange-Traded Funds and Other Investment Companies.* The Fund may invest in shares of both open- or closed-end investment companies (including money market funds, single country funds, and ETFs of any kind) and trusts, limited partnerships, limited liability companies or other forms of business organizations, including other pooled investments. Investing in another pooled vehicle exposes the Trust to all the risks of that pooled vehicle.

Among the types of investment companies in which the Trust may invest are exchange-traded funds (“ETFs”). Index ETFs are open-end management investment companies that seek to provide investment results that correspond generally to the price and yield performance of a specified index (Index Fund). Individual investments in ETFs generally are not redeemable. However, large quantities of ETF shares known as “Creation Units” are redeemable from the ETF. The liquidity of smaller holdings of ETF shares will depend upon the existence of a secondary market.

ETFs also carry the risk that the price the Trust pays or receives may be higher or lower than the ETF’s NAV. ETFs are also subject to certain additional risks, including the risks of illiquidity and of possible trading halts due to market conditions or other reasons, based on the policies of the relevant exchange. ETFs and other investment companies in which the Trust may invest may be leveraged, which would increase the volatility of the value of the Fund’s Shares.

*Multiple Levels of Fees and Expenses.* Although in many cases investor access to the Investment Funds may be limited or unavailable, an investor who meets the conditions imposed by an Investment Fund may be able to invest directly with the Investment Fund. By investing in Investment Funds indirectly through the Fund, the investor bears asset-based fees and performance-based fees and allocations. Moreover, investors in the Fund bear a proportionate share of the fees and expenses of the Fund (including organizational and offering expenses not paid by the Investment Adviser, operating costs, sales charges, brokerage transaction expenses, and administrative fees) and, indirectly, similar expenses of the Investment Funds. Thus, an investor in the Fund may be subject to higher operating expenses than if he or she invested in an Investment Fund directly or in a closed-end fund which did not utilize a “fund of funds” structure. Business development company expenses are similar to the expenses paid by any operating company held by the Fund. They are not direct costs paid by Fund shareholders and are not used to calculate the Fund’s net asset value. They have no impact on the costs associated with Fund operations.

Most of the Investment Funds may be subject to a performance-based fee or allocation, irrespective of the performance of other Investment Funds and the Fund generally. Accordingly, an Underlying Manager to an Investment Fund with positive performance may receive performance-based compensation from the Investment Fund, and thus indirectly from the Fund and its Shareholders, even if the Fund’s overall performance is negative. Generally, fees payable to Underlying Managers of the Investment Funds will range from 1.0% to 2.0% (annualized) of the average NAV of the Fund’s investment. In addition, certain Underlying Managers charge an incentive allocation or fee generally ranging from 15% to 20% of an Investment Fund’s net profits, although it is possible that such ranges may be exceeded for certain Underlying Managers. The performance-based compensation received by an Underlying Manager also may create an incentive for that Underlying Manager to make investments that are riskier or more speculative than those that it might have made in the absence of the performance-based allocation. Such compensation may be based on calculations of realized and unrealized gains made by the Underlying Manager without independent oversight.

*Underlying Managers Invest Independently.* The Underlying Managers generally invest wholly independently of one another and may at times hold economically offsetting positions. To the extent that the Investment Funds do, in fact, hold such positions, the Fund’s portfolio, considered as a whole, may not achieve any gain or loss despite incurring fees and expenses in connection with such positions. Furthermore, it is possible that from time to time, various Investment Funds selected by the Investment Sub-Adviser may be competing with each other for the same positions in one or more markets. In any such situations, the Fund could indirectly incur certain transaction costs without accomplishing any net investment result.

*Liquidity Constraints of Investment Funds.* Since the Fund may make additional investments in or affect withdrawals from an Investment Fund only at certain times pursuant to limitations set forth in the governing documents of the Investment Fund, the Fund from time to time may have to invest a greater portion of its assets temporarily in money market securities than it otherwise might wish to invest and may have to borrow money to repurchase Shares. The redemption or withdrawal provisions regarding the Investment Funds vary from fund to fund. Therefore, the Fund may not be able to

withdraw its investment in an Investment Fund promptly after it has made a decision to do so. Some Investment Funds may impose early redemption fees while others may not. This may adversely affect the Fund's investment return or increase the Fund's expenses and limit the Fund's ability to make offers to repurchase Shares from Shareholders.

Investment Funds may be permitted to redeem their interests in-kind. Thus, upon the Fund's withdrawal of all or a portion of its interest in an Investment Fund, it may receive securities that are illiquid or difficult to value. See "CALCULATION OF NET ASSET VALUE." In these circumstances, the Investment Adviser does not intend to distribute securities to Shareholders and therefore would seek to dispose of these securities in a manner that is in the best interests of the Fund.

Limitations on the Fund's ability to withdraw its assets from Investment Funds may, as a result, limit the Fund's ability to repurchase Shares. For example, many Investment Funds may impose lock-up periods prior to allowing withdrawals, which can be two years or longer from the date of the Fund's investment. After expiration of the lock-up period, withdrawals may be permitted only on a limited basis, such as semi-annually or annually. Because the primary source of funds to repurchase Shares will be withdrawals from Investment Funds, the application of these lock-ups and other withdrawal limitations, such as gates or suspension provisions, will significantly limit the Fund's ability to tender its Shares for repurchase.

*Valuation of Investment Funds.* The valuation of the Fund's investments in Investment Funds is ordinarily determined based upon valuations calculated by the Administrator, in accordance with valuation procedures approved by the Board and based on information provided by the Investment Funds or their respective administrators. Although the Investment Adviser reviews the valuation procedures used by all Underlying Managers, neither the Advisers nor the Administrator can confirm or review the accuracy of valuations provided by Investment Funds or their administrators. Further, the Distributor does not have any responsibility or obligation to verify the valuation determinations made for the Fund's investments, including valuation determinations with respect to the Investment Funds. An Underlying Manager may face a conflict of interest in valuing such securities since their values will affect the Underlying Manager's compensation.

If an Underlying Manager's valuations are consistently delayed or inaccurate, the Advisers generally will consider whether the Investment Fund continues to be an appropriate investment for the Fund. The Fund may be unable to sell interests in such an Investment Fund quickly, and could therefore be obligated to continue to hold such interests for an extended period of time. In such a case, such interests would continue to be valued without the benefit of the Underlying Manager's valuations, and the Investment Adviser may determine to discount the value of the interests or value them at zero, if deemed to be the fair value of such holding. Revisions to the Fund's gain and loss calculations will be an ongoing process, and no appreciation or depreciation figure can be considered final until the annual audits of Investment Funds are completed.

*High Portfolio Turnover.* The Fund's activities involve investment in the Investment Funds, which may invest on the basis of short-term market considerations. The turnover rate within the Investment Funds may be significant, potentially involving negative tax implications and substantial brokerage commissions, and fees. The Fund will have no control over this turnover. It is anticipated that the Fund's income and gains, if any, will be primarily derived from ordinary income. In addition, the withdrawal of the Fund from an Investment Fund could involve expenses to the Fund under the terms of the Fund's investment.

*Indemnification of Investment Funds.* The Underlying Managers often have broad indemnification rights and limitations on liability. The Fund may also agree to indemnify certain of the Investment Funds and, subject to certain limitations imposed by the Investment Company Act and the Securities Act, their Underlying Managers from any liability, damage, cost, or expense arising out of, among other things, certain acts or omissions relating to the offer or sale of the shares of the Investment Funds.

*Investments in Non-Voting Securities.* In order to avoid becoming subject to certain Investment Company Act prohibitions with respect to affiliated transactions, the Fund intends to own less than 5% of the voting securities of each Investment Fund. This limitation on owning voting securities is intended to ensure that an Investment Fund is not deemed an "affiliated person" of the Fund for purposes of the Investment Company Act, which may, among other things, potentially impose limits on transactions with the Investment Funds, both by the Fund and other clients of the Investment Adviser. To limit its voting interest in certain Investment Funds, the Fund may enter into contractual arrangements under which the Fund irrevocably waives its rights (if any) to vote its interests in an Investment Fund. Other accounts managed by the Investment Adviser may also waive their voting rights in a particular Investment

Fund (for example, to facilitate investment in small Investment Funds determined to be attractive by the Investment Adviser). Subject to the oversight of the Board, the Investment Adviser will decide whether to waive such voting rights and, in making these decisions, will consider the amounts (if any) invested by the Fund and its other clients in the particular Investment Fund. Rights may not be waived or contractually limited for an Investment Fund that does not provide an ongoing ability for follow-on investment, such as an Investment Fund having a single initial funding, closing or commitment, after which no new investment typically would occur. These voting waiver arrangements may increase the ability of the Fund and other clients of the Investment Adviser to invest in certain Investment Funds. However, to the extent the Fund contractually forgoes the right to vote the securities of an Investment Fund, the Fund will not be able to vote on matters that require the approval of the interest holders of the Investment Fund, including matters adverse to the Fund's interests.

Although the Fund may hold non-voting interests, the Investment Company Act and the rules and regulations thereunder may nevertheless require the Fund to limit its position in any one Investment Fund in accordance with applicable regulatory requirements, as may be determined by the Fund in consultation with counsel. These restrictions could change from time to time as applicable rules or interpretations thereof are modified. There are also other statutory tests of affiliation (such as on the basis of control), and, therefore, the prohibitions of the Investment Company Act with respect to affiliated transactions could apply in some situations where the Fund owns less than 5% of the voting securities of an Investment Fund. In these circumstances, transactions between the Fund and an Investment Fund may, among other things, potentially be subject to the prohibitions relating to affiliates of Section 17 of the Investment Company Act notwithstanding that the Fund has entered into a voting waiver arrangement.

*Control Over Underlying Managers.* The Fund will invest in Investment Funds that it believes will generally, and in the aggregate, be managed in a manner consistent with the Fund's investment objective and strategy. The Advisers will not have any control over the Underlying Managers, thus there can be no assurances that an Underlying Manager will manage its Investment Funds in a manner consistent with the Fund's investment objective.

### **Risks Inherent in Investments**

The success of the Fund is dependent on the performance of the Investments. The Investment Funds and the Direct Investments will be subject to many of the risks described above with respect to the Fund, as well as many other risks generally applicable to such Investment Funds, including but not limited to the ability of the Sub-Adviser and the Underlying Managers of the Investment Funds to identify and execute successful investment opportunities, the ability of the Investment Sub-Adviser and the Investment Funds to liquidate their respective investments in a profitable fashion, the success of the Investment Sub-Adviser and the Investment Funds at attracting and retaining key personnel, regulatory and enforcement litigation, and general economic conditions, among other factors. Each Investment Fund and Direct Investment will also be subject to risks specific to the investment activities it will seek to undertake and of any particular industry or market sector in which it will carry out such investment activities. Certain risks relating to the Investment Funds and Direct Investments are summarized below.

#### *Venture Capital Investments.*

The Fund may invest in Investment Funds devoted to early stage venture capital investments or make Direct Investments in such companies, which is a segment of the venture capital business with the highest degree of investment risk. Typically, such companies have no operating history, unproven technology, untested management, and unknown future capital requirements. These companies often face intense competition, often from established companies with much greater financial, manufacturing and technical resources, more marketing and service capabilities, and a greater number of qualified personnel. To the extent there is a public market for the securities of these companies, they may be subject to abrupt and erratic market price movements. The Fund's direct or indirect investments in such companies will be highly speculative and may result in the loss of the Fund's capital in respect of such Investments. There can be no assurance that any such losses will be offset by gains (if any) realized in other investments of the Fund. Accordingly, Shareholders may lose all of the monies invested in such Investments by the Fund.

#### *Buyout Investments*

The Fund may invest in Investment Funds that participate in buyout transactions or make Direct Investments in such transactions. Buyout transactions are similar to start-ups in that they result in new, untested enterprises that are subject to extreme volatility, require time for maturity and may require additional capital. In addition, they frequently rely on

borrowing significant amounts of capital, which can increase profit potential but at the same time increase the risk of loss. Leveraged companies may be subject to restrictive financial and operating covenants. The leverage may impair these companies' ability to finance their future operations and capital needs. As a result, these companies' flexibility to respond to changing business and economic conditions and to business opportunities may be limited. A leveraged company's income and net assets will tend to increase or decrease at a greater rate than if borrowed money were not used. Although these investments may offer the opportunity for significant gains, such buyout investments involve a high degree of business and financial risk that can result in substantial losses, which risks generally are greater than the risks of investing in public companies that may not be as leveraged.

#### *Equity Securities*

The equity securities in which an Investment Fund may invest may involve substantial risks and may be subject to wide and sudden fluctuations in market value, with a resulting fluctuation in the amount of profits and losses. There may be no absolute restrictions in regard to the size or operating experience of the companies in which an Investment Fund may invest (and relatively small companies may lack management depth or the ability to generate internally, or obtain externally, the funds necessary for growth and companies with new products or services could sustain significant losses if projected markets do not materialize).

#### *Risks of Investments in Distressed Credit*

The Direct Investments and the Investment Funds may be subject to all the risks inherent in investing in distressed credit, which risks may be increased by the use of leverage. These risks include liquidity risk, general macroeconomic, microeconomic and local economic risk associated with an industry or asset class, fluctuations in valuations of a company, asset, operating business or real estate values, the financial resources of the company, the ability of the company or asset to obtain financing or extend its financing. Such risks also include fluctuations in cost of operating the asset or company which could adversely affect the value of the assets as well as the ability for a management team to optimally or effectively operate or manage the asset or company or control the costs associated with operating or managing the asset or company. The Fund and the Investment Funds' investment objectives may not be realized and significant principal loss may be incurred in the event that the above risks lead to a deterioration of the asset or company. The Investment Funds and the Fund may have to advance funds to protect an investment, forgo the receipt of interest income on debt investments, or may be required to dispose of investments on disadvantageous terms if necessary to raise needed funds.

#### *Distressed Securities and Loans*

The Fund may make Direct Investments in or invest in Investment Funds that invest in securities and loans issued by companies in weak and/or deteriorating financial condition, experiencing poor operating results, needing substantial capital investment, perhaps having negative net worth, facing special competitive or product obsolescence problems or involved in bankruptcy or reorganization proceedings. Investments of this type may involve substantial financial and business risks, which are often heightened by an inability to obtain reliable information about the issuers. Such investments can result in significant or even total losses. In addition, the markets for distressed and high-yield securities are at times illiquid.

The Fund or the Investment Fund may also invest in Investments that are mezzanine securities. While mezzanine securities are typically senior to common stock and other equity securities in a company's capital structure, they may be subordinate to significant amounts of senior debt, and mezzanine securities are generally unsecured.

#### *Special Situations*

The Fund may make Direct Investments in or invest in Investment Funds that invest in issuers involved in (or that are the target of) acquisition attempts or tender offers, or issuers involved in work outs, liquidations, spin offs, reorganizations, bankruptcies and similar transactions. In any Investment involving any such type of business enterprise, there exists the risk that the transaction in which such business enterprise is involved will be unsuccessful, will take considerable time or will result in a distribution of cash or a new security the value of which will be less than the purchase price to the Fund or the Investment Fund of the security or other financial instrument in respect of which such distribution is received. Similarly, if an anticipated transaction does not in fact occur, the Fund or the Investment Fund may be

required to sell the Investment at a loss. Because there is substantial uncertainty concerning the outcome of transactions involving financially troubled issuers in whom the Fund or an Investment Fund may invest, there is a potential risk of loss by the Fund and such Investment Fund of their entire Investment in such issuers.

### *Leverage*

The Investment Funds may acquire assets subject to existing financing or may obtain new financing and may incur secured or unsecured indebtedness at the asset level and/or the Investment Fund level, subject to any restrictions set forth in the Investment Funds' governing documents. In addition, the Investment Funds, or subsidiaries thereof, may obtain a subscription facility to finance investments, which may be secured by a pledge of the unfunded commitments to an Investment Fund.

As a result of dislocations in the credit markets, it may be difficult or impossible for the Investment Funds to obtain financing on terms that the Underlying Managers would otherwise deem favorable. Further, the state of the credit markets may limit the amount of leverage available to the Investment Funds to finance investments, which may, in turn, have a material adverse effect on the Investment Funds' ability to achieve their targeted rates of return. The Investment Funds may take advantage of those opportunities where sellers of assets offer favorable financing terms to entice buyers. Although such financing opportunities have been available in the past, no assurances can be given that such financing opportunities will continue to be available. If borrowed funds are not then available or are not then available on favorable terms, the Investment Funds may not have the working capital which they require to conduct operations as anticipated, or may not have the capital needed to participate in attractive investment opportunities.

Should an Investment Fund obtain substantial leverage, such leverage will increase the Investment Fund's exposure to adverse economic factors, such as significantly rising interest rates, severe economic downturns, further real estate downturns or deteriorations in the condition of its investments or one or more geographic markets in which Investments are located. In the event the investments are unable to generate sufficient cash flow to meet principal and interest payments on an Investment Fund's indebtedness, as well as pay other operating expenses of the Investment Fund (most of which will be fixed in nature), the Investment Fund's return on its investments would likely be significantly reduced or even eliminated. Moreover, the presence of debt creates significant additional risks, such as: (i) lending institutions may have rights to participate in certain decisions relating to the management of an Investment Fund or its investments; (ii) financial obligations of an Investment Fund will have to be repaid before its investors (including the Fund) will be able to receive a return, if any; and (iii) cash flow from operations may be insufficient to pay an Investment Fund's debt service, potentially resulting in capital calls being made on the Fund or foreclosure on the collateral given by the Investment Fund to secure its obligations under such debt. Any inability of an Investment Fund to repay such borrowings could result in a reduction or complete loss of the Shareholders' investments in the Fund.

### *Hedging Transactions*

The Fund or an Investment Fund may from time to time purchase or sell various financial instruments designed to mitigate risk associated with its investments, including forwards, swaps or options on currencies or interest rates, securities and indices. When determining whether a hedging transaction is appropriate, it is expected that the Sub-Adviser and the Investment Funds will take currency risks, interest rate risks and specific credit risks into particular consideration. However, it is generally impossible to fully hedge an investment given the uncertainty as to the amount and timing of projected cash flows and investment returns, if any, on the investments. Conversely, at times the Sub-Adviser or a Underlying Manager may believe that it is not advisable to enter into hedging transactions and instead elect to remain unhedged against particular types of risks that in other cases the Fund or the Investment Fund may hedge against, or the Sub-Adviser or an Underlying Manager may determine not to engage in hedging transactions at all. Accordingly, the Fund and Investment Funds may be exposed to fluctuations in interest rates or currencies and other market conditions.

The success of any hedging transactions will be subject to the Sub-Adviser and the Underlying Manager's ability to predict correlations between the value of the Fund and the Investment Fund's assets, respectively, the value, composition and timing of income generated by the Fund and Investment Fund's assets and the direction of currency exchange rates, interest rates and securities prices and similar matters. Therefore, while the Fund and the Investment Funds may enter into hedging transactions to seek to reduce actual and/or perceived risks, unanticipated changes in values, compositions and/or timing may result in a worse overall performance for the Fund and the Investment Funds than if

they had not engaged in any such hedging transactions. In addition, the degree of correlation between price movements of the instruments used in a hedging strategy and price movements in the portfolio position being hedged may vary, potentially leaving the Fund or an Investment Fund with exposure to all or a portion of the risks being hedged.

#### *Lending Risk*

The Fund and the Investment Funds may invest in loans that face exposure to adverse business, financial or economic conditions which could lead to the issuer's inability to meet timely interest and principal payments. The market values of certain loans tend to reflect individual corporate developments to a greater extent than do higher rated loans, which react primarily to fluctuations in the general level of interest rates. It is highly likely that a major economic recession could have a materially adverse impact on the value of such investments. In addition, adverse publicity and investor perceptions, whether or not based on fundamental analysis, may also decrease the value and liquidity of the loans. Loans involve the risk that the obligor either cannot or will not fulfill its obligations under the terms of the loan documents. In evaluating credit risk, the Sub-Adviser and the Underlying Managers will often rely upon information provided by the obligor, which may be materially inaccurate or fraudulent. Any actual default, or any circumstance that increases the possibility of such a default, could have a material adverse effect on the Fund or an Investment Fund.

#### *Risks of Investment in Real Estate Funds*

The Fund may make Direct Investments in securities that provide exposure to real estate assets, or invest in Investment Funds that invest in real estate. These Investments are subject to all the risks inherent in investing in private equity, private equity-related or real estate and real estate-related investments, which risks may be increased by the use of leverage. These risks include liquidity risk, general macroeconomic, microeconomic and local economic risk associated with an industry or asset class, fluctuations in valuations of a company, asset, operating business or real estate values, the financial resources of the company or for real estate the tenants, vacancies, rent strikes, changes in tax, zoning, building, environmental and other applicable laws, rent control laws, real property tax rates, changes in interest rates and the availability of mortgage funds; the ability of the company or asset to obtain financing or extend its financing. Such risks also include fluctuations in occupancy rates, rent schedules and operating expenses, or cost of operating the asset or company which could adversely affect the value of the properties as well as the ability for a management team to optimally or effectively operate or manage the asset or company or control the costs associated with operating or managing the asset or company. There can be no assurance of profitable operations for any private equity investment or real estate property or the repayment of any debt investment. The cost of operating a property may exceed the rental income or cash flow it generates, and the Fund and the Investment Fund may have to advance funds to protect an equity investment, forgo the receipt of interest income on debt investments, or may be required to dispose of investments on disadvantageous terms if necessary to raise needed funds. Because real estate, like many other types of long-term investments, historically has experienced significant fluctuations and cycles in value, specific market conditions may result in occasional or permanent reductions in the value of real property interests. In addition, general economic conditions in the United States and abroad, as well as conditions of domestic and international financial markets, may adversely affect operations of real estate Investment Funds. In addition, investments in real property may result in the Fund being treated as a U.S. real property holding corporation, which may affect the tax liabilities of non-U.S. investors. See "TAXES."

#### *Concentration of Investments*

There are no limitations imposed by the Investment Adviser or Sub-Adviser as to the amount of Fund assets that may be invested in (i) any one Fund Investment, (ii) in other investments managed by a particular Underlying Manager or its affiliates, (iii) indirectly in any single industry or (iv) in any issuer. In addition, an investment portfolio may consist of a limited number of companies and may indirectly be concentrated in a particular industry area or group. The Fund will not knowingly concentrate its assets in any single industry.

Investment Funds generally are not subject to industry concentration restrictions on their investments and, in some cases, may invest 25% or more of the value of their total assets in a single industry or group of related industries. It is possible that, at any given time, the assets of Investment Funds in which the Fund has invested will, in the aggregate, be invested in a single industry or group of related industries constituting 25% or more of the value of their combined total assets. Because these circumstances may arise, the Fund is subject to greater investment risk to the extent that a significant portion of its assets may at times be invested, through investments the Fund makes in the Investment Funds, in the securities of issuers engaged in similar businesses that are likely to be affected by the same market conditions and other industry-specific risk

factors. Investment Funds are not generally required to provide current information regarding their investments to their investors (including the Fund). Thus, the Fund and the Investment Adviser or Investment Sub-Adviser may not be able to determine at any given time whether or the extent to which Investment Funds, in the aggregate, have invested 25% or more of their combined assets in any particular industry. Accordingly, the Fund's investment portfolio may at times be significantly concentrated, both as to managers, industries and/or individual companies. Such concentration could offer a greater potential for capital appreciation as well as increased risk of loss. Such concentration may also be expected to increase the volatility of the Fund's investment portfolio. The Fund is, however, subject to the asset diversification requirements applicable to RICs. See "CERTAIN TAX CONSIDERATIONS."

#### *Industry Specific Risks*

The Fund may invest from time to time in Investment Funds that focus on a particular industry or sector. There is a chance that there will be particular problems affecting an entire industry. Any fund that concentrates on a particular industry will generally be more volatile than a fund that invests more broadly. The performance of an Investment Fund that invests a substantial portion of its assets in a particular industry/sector will largely depend on the overall condition of such industry.

#### *Foreign Investments*

The Fund may invest in Investment Funds that hold portfolio investments outside of the United States. Foreign investments involve certain factors not typically associated with investing in U.S. businesses and securities. For instance, investments in non-U.S. businesses (i) may require government approvals under corporate, securities, exchange-control, non-U.S. investment and other similar laws and regulations, and (ii) may require financing and structuring alternatives and exit strategies that differ substantially from those commonly in use in the U.S. In addition, such risks of non-U.S. investing may include, in general, risks relating to (i) currency exchange matters, including fluctuations in the rate of exchange between the U.S. dollar and various foreign currencies in which an Investment Fund's investments are denominated, and costs associated with conversion of investment principal and income from one currency into another; (ii) differences between the U.S. and foreign securities markets, including potential price volatility in and relative illiquidity of some foreign securities markets, the absence of uniform accounting, auditing and financial reporting standards, practices and disclosure requirements and less government supervision and regulation; (iii) certain economic and political factors, including potential exchange control regulations and restrictions on foreign investment and repatriation of capital, the risks of political, economic or social instability and the possibility of expropriation or confiscatory taxation; and (iv) the possible imposition of foreign taxes on income and gain recognized with respect to such securities.

#### *Risks Related to Investing in Europe*

A number of countries in Europe have experienced severe economic and financial difficulties. Many non-governmental issuers, and even certain governments, have defaulted on, or been forced to restructure, their debts; many other issuers have faced difficulties obtaining credit or refinancing existing obligations; financial institutions have in many cases required government or central bank support, have needed to raise capital, and/or have been impaired in their ability to extend credit; and financial markets in Europe and elsewhere have experienced extreme volatility and declines in asset values and liquidity. These difficulties may continue, worsen or spread within and without Europe. Responses to the financial problems by European governments, central banks and others, including austerity measures and reforms, may not work, may result in social unrest and may limit future growth and economic recovery or have other unintended consequences. Further defaults or restructurings by governments and others of their debt could have additional adverse effects on economies, financial markets and asset valuations around the world. In addition, one or more countries may abandon the euro, the common currency of the European Union, and/or withdraw from the European Union. The impact of these actions, especially if they occur in a disorderly fashion, is not clear but could be significant and far-reaching. The Fund cannot predict for how long economic conditions will continue to impact the European markets adversely, or to what degree economic conditions will deteriorate further. Any further decline in the performance of national economies or the credit markets in European countries could have a negative impact on general economic and market conditions in Europe and globally. These events could negatively affect the value and liquidity of the Fund's investments in the Investment Funds.

#### *No Assurances as to Resale of Portfolio Investments.*

There can be no assurances that the Fund will be able to sell or otherwise dispose of an Investment at a time that the Sub-Adviser considers to be economically opportune or at all.

#### *Reliance on Underlying Managers*

The Fund, Investment Adviser and the Sub-Adviser do not have an active role in the day to day management of the Investment Funds or the assets managed by the Underlying Managers. Moreover, neither the Fund nor the Advisers have the opportunity to evaluate the specific investments made by any Investment Fund prior to the consummation of such investments. While considering an Investment Fund for investment and during the period the Fund holds such an investment, the Sub-Adviser will often have only a limited opportunity to confirm the accuracy of information received from Underlying Managers. Investment Funds may carry their investments at cost or may employ another valuation method that may differ from the fair market value of such investments. Generally, there will be no independent pricing source for interests in Investment Funds. The returns of the Fund depend in part on the performance of these unrelated investment managers over which the Fund has no control and could be adversely affected by the unfavorable performance of one or more Underlying Managers. The Sub-Adviser will attempt to evaluate each Investment Fund based on an analysis of its investment portfolio at the time of investment from available information, criteria such as the performance history of the Investment Funds or other funds managed by such Underlying Managers, and the investment strategies of the Investment Funds. Past performance may not, however, be a reliable indicator of future results, and Underlying Managers, investment management personnel and investment strategies of any Investment Fund in which the Fund invests may change without the consent of the Fund.

#### *Importance of Valuation and Structuring of Acquisitions*

The overall performance of the Fund will depend in large part on the acquisition price paid by the Fund for its Investments, which is typically determined by reference to the carrying values most recently reported by the Investment Funds and other available information. The Investment Funds are not generally obligated to update any valuations in connection with a transfer of interests on a secondary basis, and such valuation may not be indicative of current or ultimate realizable values. Moreover, there is no established market for secondary investment or for the privately held portfolio companies in which the Investment Funds may own securities, and there may not be any comparable companies for which public market valuations exist. As a result, the valuation of secondary investments may be based on limited information and is subject to inherent uncertainties. Generally, the Fund will not be acquiring interests directly from the issuers thereof, will not have the opportunity to negotiate the terms of the interests being purchased or any special rights or privileges, and expects to hold its secondary investments on a long-term basis. As a result, the performance of the Fund will be adversely affected in the event the valuations assumed by the Sub-Adviser in the course of negotiating acquisitions of investments prove to have been too high. The Fund also may face portfolio sales or other situations where, in order to make investments considered desirable, the Fund is required to make other investments considered less desirable or for which it is less comfortable with the estimated valuations.

#### *Diversification Risk*

The Investment Funds in which the Fund may invest may participate in a limited number of portfolio investments and, as a consequence, the aggregate return of the Investment Funds may be substantially adversely affected by the unfavorable performance of even a single portfolio investment.

#### *Control of Invested Funds*

An Investment Fund (alone, or together with other investors) may be deemed to have a control position with respect to some portfolio companies in which it invests which could expose it to liabilities not normally associated with minority equity investments, such as additional risks of liability for environmental damage, product defects, failure to supervise management, violation of governmental regulations and other types of liability in which the limited liability generally characteristic of business operations may be ignored.

### *Accounting Standards*

The Investment Funds may make investments in countries where generally accepted accounting standards and practices differ significantly from those practiced in the U.S. The evaluation of potential investments and the ability to perform due diligence may be adversely affected. The financial information appearing on the financial statements of a company operating in one or more European countries may not reflect its financial position or results of operations in the way they would be reflected if the financial statements had been prepared in accordance with accounting principles generally accepted in the U.S.

### *Lack of Control Over Investments*

An Investment Fund may hold minority or non-controlling interests in a number of its private equity or real estate investments. Accordingly, the Investment Funds may be unable to exercise control over their investments, and the shareholders with the controlling interests in such investments may be able to take actions, which adversely affect the value of the investment or the Fund's interest therein.

## **Risks Related to Underlying Managers**

### *Competition for Investment Opportunities*

Numerous investors will be competing with the Investment Funds for desirable investment opportunities. Because of this competition, the Investment Funds might not be able to participate in attractive investments that would otherwise be available to them. In addition, competition for investments also tends to increase the pre-money value of prospective issuers of portfolio securities, which may adversely affect investment returns.

### *Difficulty of Locating Suitable Investments*

Although it is anticipated that the principals of the Underlying Managers have been successful in identifying attractive and opportune investments in the past, the Investment Funds may be unable to find a sufficient number of attractive opportunities to meet its investment objectives or fully invest their committed capital.

### *General Private Investment Risks*

Many of the investments by Investment Funds will involve private securities and, therefore, may include significant risks not otherwise present in public market investments. The Investment Funds' investments may involve highly speculative investment techniques, including highly concentrated portfolios, investments in unproven technologies, less-developed companies, control positions and illiquid investments.

In connection with the disposition of an investment in private securities, an Investment Fund may be required to make representations about the business and financial affairs of the portfolio company typical of those made in connection with the sale of a business. The Investment Fund also may be required to indemnify the purchasers of such investment to the extent that any such representations turn out to be inaccurate. These arrangements may result in the incurrence of contingent liabilities that may ultimately yield funding obligations that must be satisfied by the investors of the Investment Fund, including the Fund, to the extent of distributions made to such investors.

### *No Control over Issuers of Portfolio Securities of Investment Funds*

The Investment Funds may from time to time acquire substantial positions in the securities of particular issuers. Nevertheless, the Fund will likely not obtain or seek to obtain representation on the board of directors of any issuer of securities held by any Investment Fund. Therefore, the success of each investment made by an Investment Fund will largely depend on the ability and success of the management of the issuers of such securities in addition to economic and market factors.

### *Limited Liquidity of Investments*

The Investment Funds will likely purchase restricted securities that are not traded in public markets. Restricted securities generally are difficult or impossible to sell at prices comparable to the market prices of securities of similar companies that are publicly traded. No assurance can be given that a public market for securities held by the Investment

Funds will develop. It is highly speculative whether and when an issuer will be able to register its securities with any governmental securities authority (such as the SEC) so that they become eligible for trading in public markets. In many cases, investments in privately held companies will be long-term in nature and may require many years from the date of initial investment before disposition.

The Fund will acquire privately offered interests in Investment Funds. Such interests have not been registered under foreign or U.S. securities laws and, as a result, are not readily transferable. Withdrawals from those Investment Funds are also usually severely restricted. Consequently, the Fund may be unable to liquidate readily its interests in such Investment Funds.

#### *Time Required for Maturity of Investments*

The Sub-Adviser anticipates that significant time will generally be required before an investment made by an Investment Fund will reach a state of maturity such that a disposition of outstanding securities can be considered, and frequently require even longer periods before such disposition can occur. It is unlikely that any significant distributions generated from dividends received from, or disposition or liquidation of, an Investment Fund's investments will be made until the later years of the term of the Fund, if at all. The Advisers can offer no assurance that Shareholders will realize a return with respect to their investments in the Fund within a reasonable time, or at all.

#### *Third-Party Involvement; Non-Control Investments*

The Investment Funds may co-invest with third parties through partnerships, joint ventures or other entities. Risks of such joint investments by the Investment Funds may include the existence of inconsistent economic or business goals with the third-party partner. Furthermore, the Investment Funds may be subject to liability for the actions of their third-party partners. The Investment Funds may make investments too small to permit the Underlying Managers of the Investment Funds to exercise control over the issuers of the portfolio securities held by such Investment Funds. The performance of such investments will be subject in large part to the expertise and ability of the parties exercising control over such investments and the Investment Funds' investment would be subject to the investment objective of such parties.

#### *Expedited Transactions*

Investment analyses and decisions by an Underlying Manager may frequently be required to be undertaken on an expedited basis to take advantage of investment opportunities. In such cases, the information available to the Underlying Manager at the time an investment decision is made may be limited, and the Underlying Manager may not have access to detailed information regarding the investment. Therefore, no assurance can be made that the Underlying Manager will have knowledge of all circumstances that may adversely affect an investment.

#### *Litigation*

Litigation can and does occur in the ordinary course of the management of an investment portfolio of securities. An Investment Fund may be engaged in litigation both as a plaintiff and as a defendant. This risk is somewhat greater where an Investment Fund exercises control or significant influence over the direction of a portfolio investment or portfolio company, including as a result of board or advisory committee participation. Such litigation can arise as a result of issuer default, issuer bankruptcies and/or other reasons. In certain cases, such issuers may bring claims and/or counterclaims against an Investment Fund, its Underlying Manager and/or their respective principals and affiliates alleging violations of securities laws and other typical issuer claims and counterclaims seeking significant damages. The expense of defending against claims made against an Investment Fund by third parties and paying any amounts pursuant to settlements or judgments would be borne by the Investment Fund to the extent that (i) the Investment Fund has not been able to protect itself through indemnification or other rights against the portfolio companies, (ii) the Investment Fund is not entitled to such protections or (iii) the portfolio company is not solvent. An Investment Fund's Underlying Manager and others may be indemnified by the Investment Fund, as noted above, in connection with such litigation, subject to certain conditions.

## **Liquidity Risk**

An investment in the Shares, unlike an investment in a traditional listed closed-end fund, may be illiquid. Unlike traditional listed closed-end funds, the Fund has not listed the Shares for trading on any securities exchange, and the Fund does not expect any secondary market to develop for the Shares unless they are listed on a securities exchange, if at all. Even if a secondary market develops, there can be no assurances that such a market will be efficient. In addition, although the Fund will conduct quarterly repurchase offers of its Shares, there is no guarantee that all tendered Shares will be accepted for repurchase or that shareholders will be able to sell all of the Shares they desire in a quarterly repurchase offer. In certain instances, repurchase offers may be suspended or postponed. See “TENDER OFFERS/OFFERS TO REPURCHASE” and “TENDER/REPURCHASE PROCEDURES.”

An investment in Shares is not suitable for investors who need access to the money they invest in the short term or within a specified timeframe. Unlike open-end funds (commonly known as mutual funds) which generally permit redemptions on a daily basis, Shares will not be redeemable at an investor’s option (other than pursuant to the Fund’s repurchase policy, as defined herein). The NAV of the Shares may be volatile. As the Shares are not traded, investors may not be able to dispose of their investment in the Fund no matter how poorly the Fund performs. The Fund is designed for long-term investors and not as a trading vehicle. Moreover, the Shares will not be eligible for “short sale” transactions or other directional hedging products.

The Fund’s investments are also subject to liquidity risk, which exists when particular investments of the Fund are difficult to purchase or sell, possibly preventing the Fund from selling such illiquid investments at an advantageous time or price, or possibly requiring the Fund to dispose of other investments at unfavorable times or prices in order to satisfy its obligations.

## **Illiquid Investment Risk**

The Fund will invest in restricted securities and other investments which are illiquid. Restricted securities are securities that may not be sold to the public without an effective registration statement under the Securities Act, or, if they are unregistered, may be sold only in a privately negotiated transaction or pursuant to an exemption from registration under the Securities Act.

Where registration is required to sell a security, the Fund may be obligated to pay all or part of the registration expenses, and a considerable period may elapse between the decision to sell and the time the Fund may be permitted to sell a security under an effective registration statement. If during such a period adverse market conditions were to develop, the Fund might obtain a less favorable price than the prevailing price when it decided to sell. The Fund may be unable to sell restricted and other illiquid securities at the most opportune times or at prices approximating the value at which it purchased such securities. The Fund’s portfolio may include a number of investments for which no market exists and which have substantial restrictions on transferability.

Additionally, the Fund’s repurchase process could involve substantial complications and delays, as the ability of the Fund to honor repurchase requests is dependent in part upon the Fund’s ability to make withdrawals from private Investment Funds which may be delayed, suspended altogether or not possible because, among other reasons, (i) many private Investment Funds permit withdrawals only on an infrequent basis, which timing is not likely to coincide with the repurchase dates of the Fund, (ii) some private Investment Funds may impose limits (known as “gates”) on the aggregate amount that a shareholder or all shareholders in the private Investment Funds may withdraw on any single withdrawal date, and (iii) the private Investment Funds portfolios may include investments that are difficult to value and that may only be able to be disposed of at substantial discounts or losses.

In addition, the Fund’s interests in the private Investment Funds are subject to substantial restrictions on transfer. The Fund may liquidate an interest and withdraw from a private Investment Funds pursuant to limited withdrawal rights. Some private Investment Funds also may suspend the repurchase rights of their shareholders, including the Fund, from time to time. The illiquidity of these interests may adversely affect the Fund were it to have to sell interests at an inopportune time. Overall, the types of restrictions on investments by the private Investment Funds affect the Fund’s ability to invest in, hold, vote the shares of, or sell the private Investment Funds. Furthermore, the Fund, upon its withdrawal of all or a portion of its interest in a private Investment Funds, may receive an in-kind distribution of securities that are illiquid or difficult to value and difficult to dispose of.

## **Repurchase Policy Risk**

Repurchases of Shares will reduce the amount of outstanding Shares and, thus, the Fund's net assets. To the extent that additional Shares are not sold, a reduction in the Fund's net assets may increase the Fund's expense ratio (subject to the Investment Adviser's reimbursement of expenses) and limit the investment opportunities of the Fund.

If a repurchase offer is oversubscribed by Shareholders, the Fund will repurchase only a pro rata portion of the Shares tendered by each Shareholder. In addition, because of the potential for such proration, Shareholders may tender more Shares than they may wish to have repurchased in order to ensure the repurchase of a specific number of their Shares, increasing the likelihood that other Shareholders may be unable to liquidate all or a given percentage of their investment in the Fund. To the extent Shareholders have the ability to sell their Shares to the Fund pursuant to a repurchase offer, the price at which a Shareholder may sell Shares, which will be the NAV per Share most recently determined as of the last day of the offer, may be lower than the price that such Shareholder paid for its Shares.

The Fund may find it necessary to hold a portion of its net assets in cash or other liquid assets, sell a portion of its portfolio investments or borrow money in order to finance any repurchases of its Shares. The Fund may accumulate cash by holding back (i.e., not reinvesting or distributing to Shareholders) payments received in connection with the Fund's investments, which could potentially limit the ability of the Fund to generate income. The Fund also may be required to sell its more liquid, higher quality portfolio investments to purchase Shares that are tendered, which may increase risks for remaining Shareholders and increase Fund expenses. Although most, if not all, of the Fund's investments are expected to be illiquid and the secondary market for such investments is likely to be limited, the Fund believes it would be able to find willing purchasers of its investments if such sales were ever necessary to supplement such cash generated by payments received in connection with the Fund's investments. However, the Fund may be required to sell such investments during times and at prices when it otherwise would not, which may cause the Fund to lose money. The Fund may also borrow money in order to meet its repurchase obligations. There can be no assurance that the Fund will be able to obtain financing for its repurchase offers. If the Fund borrows to finance repurchases, interest on any such borrowings will negatively affect Shareholders who do not tender their Shares in a repurchase offer by increasing the Fund's expenses (subject to the Investment Adviser's reimbursement of expenses) and reducing any net investment income. The purchase of Shares by the Fund in a repurchase offer may limit the Fund's ability to participate in new investment opportunities.

In the event a Shareholder chooses to participate in a repurchase offer, the Shareholder will be required to provide the Fund with notice of intent to participate prior to knowing what the repurchase price will be on the repurchase date. Although the Shareholder may have the ability to withdraw a repurchase request prior to the repurchase date, to the extent the Shareholder seeks to sell Shares to the Fund as part of a repurchase offer, the Shareholder will be required to do so without knowledge of what the repurchase price of the Shares will be on the repurchase date. It is possible that general economic and market conditions could cause a decline in the NAV per Share prior to the repurchase date. See "TENDER OFFERS/OFFERS TO REPURCHASE" and "TENDER/REPURCHASE PROCEDURES" below for additional information on, and the risks associated with, the Fund's repurchase policy.

## **Valuation Risk**

The value of the Fund's investments will be difficult to ascertain and the valuations provided in respect of the Fund's Investment Funds and other private securities will likely vary from the amounts the Fund would receive upon withdrawal of its investments. While the valuation of publicly-traded securities are more readily ascertainable, the Fund's ownership interest in the Investment Funds and other private securities are not publicly traded and the Fund will depend on appraisers, service providers and Underlying Managers to provide a valuation, or assistance with a valuation, of the Fund's investment. Any such valuation is a subjective analysis of the fair market value of an asset and requires the use of techniques that are costly and time-consuming and ultimately provide no more than an estimate of value. Moreover, the valuation of the Fund's investment in a private Investment Fund, as provided by an Underlying Manager as of a specific date, may vary from the fair value of the investment that may be obtained if such investment were sold to a third party.

For information about the value of the Fund's investment in private Investment Funds, the Investment Adviser will be dependent on information provided by the private Investment Funds, including quarterly unaudited financial statements which, if inaccurate, could adversely affect the Investment Adviser's ability to value accurately the Fund's Shares. The Investment Adviser faces conflicts of interest in assisting with the valuation of the Fund's investments, as the value of the Fund's investments will affect the Investment Adviser's compensation.

If at any time the stated NAV of the Fund is lower than its true value, those investors who have their Shares repurchased at such time will be underpaid and investors who retain their Shares would be adversely affected if more Shares were to be issued at the low price than are repurchased at that price. Conversely, if the Fund's stated NAV is higher than its true value, those investors who purchase Shares at such time will overpay, and if repurchases of Shares based on a high stated NAV were to exceed purchases of Shares at that value, investors who do not have their Shares repurchased will be adversely affected. In addition, investors would be adversely affected by higher fees payable to the Investment Adviser if the gross asset value of the Fund is overstated.

As a result, the NAV of the Fund, as determined based on the fair value of its investments in private Investment Funds, may vary from the amount the Fund would realize on the withdrawal of its investments from the private Investment Funds. This could adversely affect shareholders whose Shares are repurchased as well as new shareholders and remaining shareholders. For example, in certain cases, the Fund might receive less than the fair value of its investment in connection with its withdrawal of its investment from a private Investment Fund, resulting in a dilution of the value of the Shares of shareholders who do not tender their Shares in any coincident tender offer and a windfall to tendering shareholders; in other cases, the Fund might receive more than the fair value of its investment, resulting in a windfall to shareholders remaining in the Fund, but a shortfall to tendering shareholders. The Investment Adviser will attempt to resolve any conflicts between valuations assigned by an Underlying Manager and fair value as determined by the Investment Adviser by seeking information from the Underlying Manager and reviewing all relevant available information. Such review may result in a determination to change the fair value of the Fund's investment. Shareholders in the Fund have no individual right to receive information about the private Investment Funds or the Underlying Managers, will not be shareholders in the private Investment Funds, and will have no rights with respect to or standing or recourse against the private Investment Funds, Underlying Managers or any of their respective affiliates. Further, the Distributor does not have any responsibility or obligation to verify the valuation determinations made for the Fund's investments, including valuation determinations with respect to the private Investment Funds. In no event is the Distributor responsible for any errors or inaccuracies with the Fund's NAV in connection with its distribution of the Fund's Shares or in connection with any other purpose.

### **Legislation and Regulatory Risk**

At any time after the date of this Prospectus, legislation or additional regulations may be enacted that could negatively affect the assets of the Fund or the issuers of such assets. Changing approaches to regulation may have a negative impact on the assets in which the Fund or the Investment Funds invest. Legislation or regulation may also change the way in which the Fund or an Investment Fund is regulated. New or amended regulations may be imposed by the Commodity Futures Trading Commission, the SEC, the Federal Reserve or other financial regulators, other governmental regulatory authorities or self-regulatory organizations that supervise the financial markets that could adversely affect the Fund or the Investment Funds. There can be no assurance that future legislation, regulation or deregulation will not have a material adverse effect on the Fund or will not impair the ability of the Fund to achieve its investment objectives. The Fund and the Investment Funds also may be adversely affected by changes in the enforcement or interpretation of existing statutes and rules by these governmental authorities or self-regulatory organizations.

### **Business and Regulatory Risks**

Legal, tax and regulatory changes (including laws relating to taxation of the Fund's investments, trade barriers and currency exchange controls), as well as general economic and market conditions (such as interest rates, availability of credit, credit defaults, inflation rates and general economic uncertainty) and national and international political circumstances, may adversely affect the Fund. These factors may affect, among other things, the level of volatility of the prices of securities and real assets, the liquidity of the Fund's investments and the availability of certain securities and investments. Volatility or illiquidity could impair the Fund's returns or result in significant losses. Additionally, the securities markets are subject to comprehensive statutes and regulations and the regulatory environment for the Investment Funds is evolving. Changes in the regulation of registered funds, securities markets, the Investment Funds may adversely affect the value of investments held by the Fund and the ability of the Fund to successfully pursue its investment strategy. The effect of any future regulatory change on the Fund could be substantial and adverse.

## **AIFM Directive Risks**

The Directive 2011/61/EU on Alternative Investment Fund Managers (the “*Directive*”), broadly, applies to any person or undertaking which provides investment management services to a collective investment undertaking (such person, an “*AIF Manager*”) and requires, generally that (i) any AIF Manager established or operating in the European Union intending to provide investment management services to an alternative investment vehicle established within or outside the European Union (“*AIF*”); and (ii) any non-European Union AIF Manager intending to manage an AIF established in the European Union, must be authorized under the Directive, and, in order to be so authorized, comply with certain requirements and meet certain criteria. The Directive imposes new regulatory obligations on authorized AIF Managers in respect of their activities and on the AIFs that they manage.

In addition, the Directive regulates the marketing of AIFs in the European Union. In particular, the Directive restricts the marketing by any non-EU AIF Manager of an AIF to investors in the European Union. A non-EU AIF Manager seeking to market an AIF is required to meet certain criteria and to satisfy additional regulatory requirements, including as to regulatory and investor disclosure. It may not be possible to market an Investment Fund in the European Union, which may result in the Investment Fund not being able to raise expected levels of assets, have an adverse effect on its ability to make investments and/or reduce the Investment Fund’s liquidity. In the event the Investment Fund is marketed in the European Union, compliance with the Directive may increase the Investment Fund’s operating expenses. It is not yet clear to what extent the implementation of the Directive will affect the operation of either the Investment Funds or the Underlying Managers.

## **Tax Risks**

Special tax risks are associated with an investment in the Fund. The Fund intends to qualify and has elected to be treated as a RIC under Subchapter M of Subtitle A, Chapter 1 of the Code. As such, the Fund must satisfy, among other requirements, diversification and 90% gross income requirements, and a requirement that it distribute at least 90% of its income and net short-term gains in the form of deductible dividends.

Each of the aforementioned ongoing requirements for qualification for the favorable tax treatment available to RICs requires that the Fund obtain information from or about the private Investment Funds in which the Fund is invested. However, private Investment Funds generally are not obligated to disclose the contents of their portfolios. This lack of transparency may make it difficult for the Investment Adviser to monitor the sources of the Fund’s income and the diversification of its assets, and otherwise to comply with Subchapter M of Subtitle A, Chapter 1 of the Code. Ultimately this may limit the universe of private Investment Funds in which the Fund can invest. The Fund expects to receive information from each Investment Fund regarding its investment performance on a regular basis.

Private Investment Funds and other entities classified as partnerships for U.S. federal income tax purposes may generate income allocable to the Fund that is not qualifying income for purposes of the 90% gross income test. In order to meet the 90% gross income test, the Fund may structure its investments in a manner that potentially increases the taxes imposed on income from such investments. Because the Fund may not have timely or complete information concerning the amount or sources of such a private Investment Funds income until such income has been earned by the private Investment Funds or until a substantial amount of time thereafter, it may be difficult for the Fund to satisfy the 90% gross income test.

In the event that the Fund believes that it is possible that it will fail the asset diversification requirement at the end of any quarter of a taxable year, it may seek to take certain actions to avert such failure, including by acquiring additional investments to come into compliance with the asset diversification tests or by disposing of non-diversified assets. Although the Code affords the Fund the opportunity, in certain circumstances, to cure a failure to meet the asset diversification test, including by disposing of non-diversified assets within six months, there may be constraints on the Fund’s ability to dispose of its interest in a private Investment Funds that limit utilization of this cure period. Curing a diversification test failure, in certain circumstances, will require the Fund to pay a penalty.

If the Fund were to fail to satisfy any of the RIC requirements, absent a cure, it would lose its status as a RIC under the Code, in which case the Fund would lose its status as a RIC. Such loss of RIC status could affect the amount, timing and character of the Fund’s distributions and would cause all of the Fund’s taxable income to be subject to U.S. federal income tax at regular corporate rates without any deduction for distributions to shareholders. In addition,

all distributions (including distributions of net capital gain) would be taxed to their recipients as dividend income to the extent of the Fund's current and accumulated earnings and profits. Accordingly, disqualification as a RIC would have a significant adverse effect on the value of the Shares.

The Fund must distribute at least 90% of its investment company taxable income for each taxable year of the Fund, in a manner qualifying for the dividends-paid deduction, to qualify as a RIC, and must distribute substantially all its income in order to avoid a fund-level tax. The Fund will be subject to corporate tax on any undistributed investment company taxable income. In addition, if the Fund were to fail to distribute in a calendar year a sufficient amount of its income for such year, it will be subject to an excise tax. The determination of the amount of distributions sufficient to qualify as a RIC and avoid a fund-level income or excise tax will depend on income and gain information that must be obtained from the underlying private Investment Funds. The Fund's investment in private Investment Funds may make it difficult to estimate the Fund's income and gains in a timely fashion, which may increase the likelihood that the Fund will be liable for corporate and excise tax with respect to certain undistributed amounts.

In addition, the Fund invests in private Investment Funds located outside the United States. Such private Investment Funds may be subject to withholding tax on their investments in such jurisdictions. Any such withholding tax would reduce the return on the Fund's investment in such Investment Funds.

The Fund intends to distribute at least 90% of its investment income and net short-term capital gains to shareholders in accordance with RIC requirements each year. Investors will be required each year to pay applicable federal and state income taxes on their respective shares of the Fund's taxable income. Shareholders who reinvest their distributions will nonetheless be obligated to pay these taxes from sources other than Fund distributions.

### **Reliance on Key Persons Risk**

The Fund relies on the services of certain executive officers who have relevant knowledge of private assets and familiarity with the Fund's investment objective, strategies and investment features. The loss of the services of any of these key personnel could have a material adverse impact on the Fund.

### **Fund Capitalization Risk**

There is a risk that the Fund may not continue to raise capital sufficient to maintain profitability and meet its investment objective. An inability to continue to raise capital may adversely affect the Fund's diversification, financial condition, liquidity and results of operations, as well as its compliance with regulatory requirements and tax diversification requirements.

### **Cybersecurity Risk**

The Fund and its service providers are susceptible to cyber security risks that include, among other things, theft, unauthorized monitoring, release, misuse, loss, destruction or corruption of confidential and highly restricted data; denial of service attacks; unauthorized access to relevant systems, compromises to networks or devices that the Fund and its service providers use to service the Fund's operations; or operational disruption or failures in the physical infrastructure or operating systems that support the Fund and its service providers. Cyber-attacks against or security breakdowns of the Fund or its service providers may adversely impact the Fund and its shareholders, potentially resulting in, among other things, financial losses; the inability of Fund shareholders to transact business and the Fund to process transactions; inability to calculate the Fund's NAV; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs; and/or additional compliance costs. The Fund may incur additional costs for cyber security risk management and remediation purposes. In addition, cyber security risks may also impact issuers of securities in which the Fund invests, which may cause the Fund's investment in such issuers to lose value. There can be no assurance that the Fund or its service providers will not suffer losses relating to cyber-attacks or other information security breaches in the future. Despite reasonable precautions, the risk remains that such incidents could occur, and that such incidents could cause damage to individual investors due to the risk of exposing confidential personal data about investors to unintended parties.

## **Technology Risk**

As the use of Internet technology has become more prevalent, the Fund and its service providers and markets generally have become more susceptible to potential operational risks related to intentional and unintentional events that may cause the Fund or a service provider to lose proprietary information, suffer data corruption or lose operational capacity. There can be no guarantee that any risk management systems established by the Fund, its service providers, or issuers of the securities in which the Fund invests to reduce technology and cyber security risks will succeed, and the Fund cannot control such systems put in place by service providers, issuers or other third parties whose operations may affect the Fund.

## **Temporary Defensive Strategies Risk**

When the Sub-Adviser anticipates unusual market or other conditions, the Fund may temporarily depart from its principal investment strategies as a defensive measure and invest all or a portion of its assets in cash or cash equivalents or accept lower current income from short-term investments rather than investing in high yielding long-term securities. In such a case, Shareholders of the Fund may be adversely affected and the Fund may not pursue or achieve its investment objectives.

## **Potential Conflicts of Interest Risk**

The Investment Adviser, Sub-Adviser and the portfolio managers of the Fund have interests which may conflict with the interests of the Fund. In particular, the Sub-Adviser manages and/or advises other investment funds or accounts with the same or similar investment objectives and strategies as the Fund. As a result, the Sub-Adviser and the Fund's portfolio managers may devote unequal time and attention to the management of the Fund and those other funds and accounts, and may not be able to formulate as complete a strategy or identify equally attractive investment opportunities as might be the case if they were to devote substantially more attention to the management of the Fund. The Sub-Adviser and the Fund's portfolio managers may identify a limited investment opportunity that may be suitable for multiple funds and accounts, and the opportunity may be allocated among these several funds and accounts, which may limit the Fund's ability to take full advantage of the investment opportunity. Additionally, transaction orders may be aggregated for multiple accounts for purpose of execution, which may cause the price or brokerage costs to be less favorable to the Fund than if similar transactions were not being executed concurrently for other accounts. Furthermore, it is theoretically possible that a portfolio manager could use the information obtained from managing a fund or account to the advantage of other funds or accounts under management, and also theoretically possible that actions could be taken (or not taken) to the detriment of the Fund. At times, a portfolio manager may determine that an investment opportunity may be appropriate for only some of the funds and accounts for which he or she exercises investment responsibility, or may decide that certain of the funds and accounts should take differing positions with respect to a particular security. In these cases, the portfolio manager may place separate transactions for one or more funds or accounts which may affect the market price of the security or the execution of the transaction, or both, to the detriment or benefit of one or more other funds and accounts. For example, a portfolio manager may determine that it would be in the interest of another account to sell a security that the Fund holds, potentially resulting in a decrease in the market value of the security held by the Fund.

Conflicts potentially limiting the Fund's investment opportunities may also arise when the Fund and other clients of the Advisers invest in, or even conduct research relating to, different parts of an issuer's capital structure, such as when the Fund owns senior debt obligations of an issuer and other clients own junior tranches of the same issuer. In such circumstances, decisions over whether to trigger an event of default, over the terms of any workout, or how to exit an investment may result in conflicts of interest. In order to minimize such conflicts, a portfolio manager may avoid certain investment opportunities that would potentially give rise to conflicts with other clients of the Advisers or result in the Advisers receiving material, non-public information, or the Advisers may enact internal procedures designed to minimize such conflicts, which could have the effect of limiting the Fund's investment opportunities. Additionally, if the Advisers acquires material non-public confidential information in connection with its business activities for other clients, a portfolio manager or other investment personnel may be restricted from purchasing securities or selling certain securities for the Fund or other clients.

The portfolio managers also may engage in cross trades between funds and accounts, may select brokers or dealers to execute securities transactions based in part on brokerage and research services provided to the Advisers which may not benefit all funds and accounts equally and may receive different amounts of financial or other benefits for managing different funds and accounts. The Advisers and their affiliates may provide more services to some types of funds and accounts than others.

The Fund, Investment Adviser, and Sub-Adviser have adopted policies and procedures that address the foregoing potential conflicts of interest, including policies and procedures to address the allocation of investment opportunities, execution of portfolio transactions, personal trading by employees and other potential conflicts of interest that are designed to ensure that all accounts of the Investment Adviser are treated equitably. There is no guarantee that the policies and procedures adopted by the Investment Adviser and the Fund will be able to identify or mitigate the conflicts of interest that arise between the Fund and any other investment funds or accounts that the Investment Adviser may manage or advise from time to time. For further information on potential conflicts of interest, see “INVESTMENT MANAGEMENT AND OTHER SERVICES — CONFLICTS OF INTEREST” in the SAI.

**In view of the risks noted above, the Fund should be considered a speculative investment and prospective investors should invest in the Fund only if they can sustain a complete loss of their investment.**

**No guarantee or representation is made that the investment program of the Fund will be successful or that the Fund will achieve its investment objective.**

## MANAGEMENT OF THE FUND

### The Board of Trustees

The Board has overall responsibility for the management and supervision of the business operations of the Fund on behalf of the Shareholders. A majority of the Board is and will be persons who are not “interested persons,” as defined in Section 2(a)(19) of the Investment Company Act (the “Independent Trustees”). To the extent permitted by the Investment Company Act and other applicable law, the Board may delegate any of its rights, powers and authority to, among others, the officers of the applicable fund, any committee of such board, or service providers. See “BOARD OF TRUSTEES AND OFFICERS” in the Fund’s SAI for the identities of the Trustees and executive officers of the Fund, brief biographical information regarding each of them, and other information regarding the election and membership of the Board.

### The Advisers

Skypoint Capital Advisors, LLC serves as the investment adviser (the “Investment Adviser”) of the Fund. Felicita Global Partners, LLC serves as investment sub-adviser to the Fund (the “Investment Sub-Adviser” or “Sub-Adviser” and, together with the Investment Adviser, the “Advisers”). Each of the Advisers is an investment adviser registered with the SEC under the Advisers Act.

As of June 30, 2024, the Investment Adviser had assets under management of approximately \$105 million. As of June 30, 2024, the Sub-Adviser and its affiliates had assets under management of approximately \$811 million.

The Advisers and their affiliates serve as investment advisers to other funds that have investment programs which are similar to the investment program of the Fund, and the Advisers and/or their affiliates may in the future serve as an investment advisers or otherwise manage or direct the investment activities of other registered and/or private investment companies with investment programs similar to the investment program of the Fund. See “CONFLICTS OF INTEREST.”

### PORTFOLIO MANAGER

The personnel of the Sub-Adviser who currently have primary responsibility for management of the Fund (the “Portfolio Managers”) are as follows:

#### **BONAR CHHAY — Portfolio Manager**

Mr. Chhay, CFA, joined the Sub-Adviser and its affiliated companies in 2012 and is currently Managing Partner and Founder of the Sub-Adviser. Prior thereto, from 2006 to 2012, Mr. Chhay helped manage the J. Paul Getty Trust’s global private equity portfolio and spearheaded major secondary-market transactions. From 2004 to 2006, Mr. Chhay served as an investment analyst, specializing on performing due diligence on alternative investments, at Contango Capital Advisors, the wealth management arm of Zions Bank. Mr. Chhay graduated from UC Berkeley with a Bachelor of Arts in Business Administration. Mr. Chhay is a holder of the right to use the Chartered Financial Analyst® designation.

See “INVESTMENT MANAGEMENT AND OTHER SERVICES” in the SAI for additional information about the portfolio managers’ compensation, other accounts managed, and the portfolio managers’ ownership of Fund securities.

### The Investment Management Agreement

The Investment Management Agreement (the “Investment Management Agreement”) between the Investment Adviser and the Fund became effective as of June 20, 2023 and will continue in effect for an initial two-year term. Thereafter, the Investment Management Agreement will continue in effect from year to year provided such continuance is specifically approved at least annually by (i) the vote of a majority of the outstanding voting securities of the Fund, or a majority of the Board, and (ii) the vote of a majority of the Independent Trustees of the Fund, cast in person at a meeting called for the purpose of voting on such approval. See “VOTING.” The Investment Management Agreement will terminate automatically if assigned (as defined in the Investment Company Act) and is terminable at any time without penalty upon sixty (60) days’ written notice to the Fund by either the Board or the Investment Adviser. A discussion regarding the basis for the Board’s approval of the Investment Management Agreement is available in the Fund’s semi-annual report to shareholders for the six-month period ended December 31, 2023.

The Investment Management Agreement provides that, in the absence of willful misfeasance, gross negligence or reckless disregard of its obligations to the Fund, the Investment Adviser and any partner, director, officer or employee of the Investment Adviser, or any of its affiliates, executors, heirs, assigns, successors or other legal representatives, will not be liable to the Fund for any error of judgment, for any mistake of law or for any act or omission by the person in connection with the performance of services to the Fund. The Investment Management Agreement also provides for indemnification, to the fullest extent permitted by law, by the Fund, of the Investment Adviser or any member, manager, officer or employee of the Investment Adviser, and any of its affiliates, executors, heirs, assigns, successors or other legal representatives, against any liability or expense to which the person may be liable that arises in connection with the performance of services to the Fund, so long as the liability or expense is not incurred by reason of the person's willful misfeasance, gross negligence or reckless disregard of its obligations to the Fund.

#### **INVESTMENT MANAGEMENT FEE**

The Fund pays to the Investment Adviser an investment management fee (the "Investment Management Fee") in consideration of the advisory and other services provided by the Investment Adviser to the Fund. Pursuant to the Investment Management Agreement, the Fund pays the Investment Adviser a quarterly Investment Management Fee equal to 1.50% on an annualized basis of the Fund's NAV as of each quarter-end, subject to certain adjustments. The Investment Management Fee is paid to the Investment Adviser before giving effect to any repurchase of Shares in the Fund effective as of that date and will decrease the net profits or increase the net losses of the Fund that are credited to its Shareholders. NAV means the total value of all assets of the Fund, less an amount equal to all accrued debts, liabilities and obligations of the Fund; provided that for purposes of determining the Investment Management Fee payable to the Investment Adviser for any quarter, NAV will be calculated prior to any reduction for any fees and expenses of the Fund for that quarter, including, without limitation, the Investment Management Fee payable to the Investment Adviser for that quarter.

The Investment Adviser pays the Sub-Adviser a quarterly sub-advisory fee equal to 83.33% of the first \$750,000.00 of Net Management Fee received by the Investment Adviser and then 66.67% of any Net Management Fee above \$750,000.00. The "Net Management Fee" means the gross management fee (as defined by the Investment Management Agreement) paid by the Fund to the Investment Adviser for the period being measured, *minus* the amount of any fee waiver or expense reimbursement paid by or due from the Investment Adviser to the Fund or any service provider to the Fund (including without limitation shareholder service fees and platform fees and expenses paid by the Fund or the Investment Adviser) under an expense limitation agreement, expense cap arrangement, or other similar agreement.

## DISTRIBUTOR

UMB Distribution Services, LLC is the distributor (also known as principal underwriter) of the Shares of the Fund and is located at 235 W. Galena St., Milwaukee, Wisconsin 53212. The Distributor is a registered broker-dealer and is a member of the Financial Industry Regulatory Authority, Inc. (“FINRA”).

Under a Distribution Agreement with the Fund, the Distributor acts as the agent of the Fund in connection with the continuous offering of shares of the Fund. The Distributor has no obligation to sell any specific quantity of Fund shares. The Distributor and its officers have no role in, or responsibility for, determining the investment policies of the Fund or which securities are to be purchased or sold by the Fund or determining the valuation of the Fund’s assets and liabilities. In addition, the Distributor is not responsible for any operational matters associated with repurchases of Fund Shares.

The Distributor or its affiliates may enter into agreements with selected broker-dealers or other financial intermediaries for distribution of shares of the Fund. With respect to certain financial intermediaries and related fund “supermarket” platform arrangements, the Fund and/or the Investment Adviser, rather than the Distributor, may enter into such agreements. These financial intermediaries may charge a fee for their services and may receive shareholder service or other fees from parties other than the Distributor. These financial intermediaries may otherwise act as processing agents and are responsible for promptly transmitting purchase, redemption and other requests to the Fund.

The Fund may authorize one or more financial intermediaries and their authorized agents that have made arrangements with the Fund (collectively, “Financial Intermediaries”) to receive on its behalf purchase orders and repurchase requests. Such Financial Intermediaries are authorized to designate other intermediaries or designees to receive purchase orders and repurchase requests on the Fund’s behalf. The Fund will be deemed to have received a purchase order or repurchase request when a Financial Intermediary or, if applicable, a Financial Intermediary’s designee, receives the order or repurchase request. Orders will be priced at the next computed per-class NAV per Share after they are received by a Financial Intermediary or the Financial Intermediary’s authorized designee.

Investors may be charged a fee if they effect transactions through a Financial Intermediary or authorized designee. Investors who purchase shares through Financial Intermediaries will be subject to the procedures of those intermediaries through which they purchase shares, which may include charges, investment minimums, cutoff times and other restrictions in addition to, or different from, those listed herein. Information concerning any charges or services will be provided to customers by the Financial Intermediary through which they purchase shares. Investors purchasing shares of the Fund through Financial Intermediaries should acquaint themselves with their Financial Intermediary’s procedures and should read the Prospectus in conjunction with any materials and information provided by their Financial Intermediary. The Financial Intermediary, and not its customers, will be the shareholder of record, although customers may have the right to vote shares depending upon their arrangement with the Financial Intermediary. The Investment Adviser pays the Distributor out of its own resources a fee for certain distribution-related services.

Pursuant to the Distribution Agreement, the Distributor is solely responsible for its costs and expenses incurred in connection with its registration and qualification as a broker-dealer under state or federal laws. The Distribution Agreement also provides that the Fund will indemnify the Distributor and its affiliates and certain other persons against certain liabilities. In the absence of willful misfeasance, bad faith, gross negligence, or reckless disregard by the Distributor in the performance of its duties, obligations, or responsibilities set forth in the Distribution Agreement, the Distributor and its affiliates, including their respective officers, directors, partners, agents, and employees (collectively with the Distributor, the “Distributor Indemnitees”), shall not be liable for, and the Fund agrees to indemnify and hold harmless such persons from and against any and all taxes, charges, expenses, assessments, claims, demands and liabilities (including, without limitation, the reasonable costs of investigating or defending any alleged tax, charge, assessment, claim, demand, liability or expense and reasonable legal counsel fees incurred in connection therewith as well as any disbursements and liabilities arising under applicable federal and state laws) (collectively, “Losses”) arising directly or indirectly from the following: (i) the inaccuracy of factual information furnished to the Distributor by the Fund or the Fund’s investment adviser, custodians, or other service providers in any material respect; (ii) any claim that the registration statement, prospectus, statement of additional information, shareholder report, sales literature and advertisements approved for use by the Fund and/or the Fund’s investment adviser or other information filed or made public by the Fund (as from time to time amended) included an untrue statement of a material fact or omission of a material fact required to be stated therein or necessary in order to make the statements therein (and in the case of the prospectus and statement of additional information, in light of the circumstances under which they were made) not misleading under the Securities Act, the Investment Company Act, or any other statute, regulation,

self-regulatory organization rule or applicable common law, except to the extent the statement or omission was made in reliance upon, and in conformity with, information furnished by or on behalf of the Distributor in writing; (iii) any wrongful act of the Fund or any of its officers; (iv) any error of judgment or mistake of law or for any loss suffered by the Fund in connection with the matters to which this Agreement relates; (v) the Fund's breach of any of its representations, warranties or covenants contained in this Agreement; (vi) the Fund's failure to comply with applicable laws or regulations; (vii) any liability of the Distributor resulting from a representation, covenant or warranty that the Distributor makes, or any indemnification that the Distributor provides, on behalf of the Fund and in reliance on a Fund representation, covenant or warranty in an intermediary agreement relating to the Fund; (viii) the Distributor's reliance on any instruction, direction, notice, instrument or other information that the Distributor reasonably believes to be genuine; (ix) any other action or omission to act which the Distributor takes in connection with the provision of services to the Fund pursuant to this Agreement and the Fund's Prospectus; or (x) any action taken or omitted by the Fund prior to the effective date of the Distribution Agreement. The Distributor also has no duty to calculate the net asset value of Fund Shares or to inquire into, or liability for, the accuracy of the net asset value per Share (including a Class thereof) as calculated by or for the Fund.

The Investment Adviser, the Distributor and/or its affiliates may make payments to selected affiliated or unaffiliated third parties (including the parties that have entered into selling agreements with the Distributor) from time to time in connection with the distribution of Shares and/or the servicing of Shareholders and/or the Fund. These payments will be made out of the Investment Adviser's, the Distributor's and/or affiliates' own assets and will not represent an additional charge to the Fund. The amount of the foregoing payments may be significant in amount and the prospect of receiving any such payments may provide such third parties or their employees with an incentive to favor sales of Shares of the Fund over other investment options. Contact your financial intermediary for details about revenue sharing payments it receives or may receive. The Distributor may reallocate all or a portion of the sales load to broker-dealers or other financial intermediaries. Similarly, the Distributor may reallocate all or a portion of the distribution and/or service fees to the financial intermediary or other third party; however, the Distributor shall not be obligated to make such payments to the financial intermediaries or other parties unless the Distributor has received a corresponding payment from the Fund. The Distributor may also make payments to financial intermediaries from its own resources, subject to the following conditions: (a) any such payments shall not create any obligation for or recourse against the Fund or Class thereof and (b) the terms and conditions of any such payments are consistent with the Fund's Prospectus and applicable federal and state securities laws and are disclosed in the Fund's Prospectus or SAI to the extent such laws require. The Distributor may retain any portion of the sales load, distribution and/or service fee not paid to a financial intermediary. See "ADDITIONAL PAYMENT TO FINANCIAL INTERMEDIARIES" in the SAI.

#### **SHAREHOLDER SERVICE PLAN**

The Fund has adopted a Shareholder Service Plan with respect to Class I Shares in compliance with Rule 12b-1 under the Investment Company Act. The Shareholder Service Plan allows the Fund to pay shareholder servicing fees for the sale and servicing of its Class I Shares. Under the Shareholder Service Plan, the Fund is permitted to pay as compensation up to a maximum of 0.15% per year on Class I Shares on an annualized basis of the aggregate net assets of the Fund attributable to each class (the "Shareholder Servicing Fee") to qualified recipients under the Shareholder Service Plan. The Fund may pay all or a portion of these fees to any registered securities dealer, financial institution, or any other person who provides certain shareholder services, pursuant to a written agreement. Because these fees are paid out of the Fund's assets on an ongoing basis, over time these fees will increase the cost of an investment and may cost more than paying other types of sales charges. Class Y Shares are not subject to the Shareholder Servicing Fee.

## ADMINISTRATION

The Fund has retained the Administrator, UMB Fund Services, Inc., whose principal business address is 235 West Galena Street, Milwaukee, WI 53212, to provide administrative services, and to assist with operational needs. The Administrator provides such services to the Fund pursuant to an administration agreement between the Fund and the Administrator (the “Administration Agreement”). The Administrator is responsible directly or through its agents for, among other things, providing the following services to the Fund; (1) maintaining a list of Shareholders and generally performing all actions related to the issuance and repurchase of Shares of the Fund, if any, including delivery of trade confirmations and capital statements; (2) providing certain administrative, clerical and bookkeeping services; (3) providing transfer agency services, services related to the payment of distributions, and accounting services; (4) computing the NAV of the Fund in accordance with U.S. generally accepted accounting principles (“GAAP”) and procedures defined in consultation with the Investment Adviser; (5) overseeing the preparation of semi-annual and annual financial statements of the Fund in accordance with GAAP, quarterly reports of the operations of the Fund and information required for tax returns; (6) supervising regulatory compliance matters and preparing certain regulatory filings; and (7) performing additional services, as agreed upon, in connection with the administration of the Fund. The Administrator may from time to time delegate its responsibilities under the Administration Agreement to one or more parties selected by the Administrator, including its affiliates or affiliates of the Investment Adviser.

In consideration for these services, the Fund pays the Administrator a minimum monthly administration fee of \$3,000 or \$36,000 on an annualized basis (the “Administration Fee”). The Administration Fee is paid to the Administrator out of the assets of the Fund and therefore decreases the net profits or increases the net losses of the Fund. The Administrator is also reimbursed by the Fund for out-of-pocket expenses relating to services provided to the Fund, and receives a fee for transfer agency services. The Administration Fee and the other terms of the Administration Agreement may change from time to time as may be agreed to by the Fund and the Administrator.

The Administration Agreement provides that, in the absence of willful misfeasance, bad faith, gross negligence or reckless disregard of its obligations to the Fund, the Administrator and any partner, director, officer or employee of the Administrator, or any of their affiliates, executors, heirs, assigns, successors or other legal representatives, will not be liable to the Fund for any error of judgment, for any mistake of law or for any act or omission by the person in connection with the performance of administration services for the Fund. The Administration Agreement also provides for indemnification, to the fullest extent permitted by law, by the Fund or the Administrator, or any partner, director, officer or employee of the Administrator, and any of their affiliates, executors, heirs, assigns, successors or other legal representatives, against any liability or expense to which the person may be liable that arises in connection with the performance of services to the Fund, so long as the liability or expense is not incurred by reason of the person’s willful misfeasance, bad faith, gross negligence or reckless disregard of its obligations to the Fund.

The Fund, the Distributor and the Fund’s transfer agent, may enter into arrangements with one or more financial intermediaries to provide sub-transfer agency, or sub-administration, and other services associated with shareholders whose shares are held of record in omnibus accounts, including platforms that facilitate trading and recordkeeping by financial intermediaries. In return for these services, the Fund, the Distributor or the Fund’s transfer agent may pay sub-transfer agency fees to such financial intermediaries. If paid by the Fund, these expenses will be included in “Other Expenses” under “Fund Fees and Expenses” in this prospectus and will not be used for distribution purposes.

## CUSTODIAN

UMB Bank, n.a., an affiliate of the Administrator (the “Custodian”) serves as a custodian of the assets of the Fund to which it is allocated and may maintain custody of such assets with U.S. and non-U.S. sub-custodians (which may be banks and trust companies), securities depositories and clearing agencies in accordance with the requirements of Section 17(f) of the Investment Company Act and the rules thereunder. Assets of the Fund are not held by the Investment Adviser or commingled with the assets of other accounts other than to the extent that securities are held in the name of the Custodian or U.S. or non-U.S. sub-custodians in a securities depository, clearing agency or omnibus customer account of such custodian. UMB Bank, n.a.’s principal business address is 1010 Grand Blvd., Kansas City, MO 64106.

## FUND EXPENSES

The Fund pays all of its expenses, or reimburses the Investment Adviser or its affiliates to the extent they have previously paid such expenses on behalf of the Fund. The expenses of the Fund include, but are not limited to, any fees and expenses in connection with the offering and issuance of Shares; all fees and expenses reasonably incurred in connection with the operation of the Fund; all fees and expenses directly related to portfolio transactions and positions for the Fund's account such as direct and indirect expenses associated with the Fund's investments, and enforcing the Fund's rights in respect of such investments; quotation or valuation expenses; the Investment Management Fee and the Administration Fee; Distribution and Servicing Fee; brokerage commissions; interest and fees on any borrowings by the Fund; professional fees; research expenses (including, without limitation, expenses of consultants who perform fund manager due diligence research); fees and expenses of outside legal counsel (including fees and expenses associated with the review of documentation for prospective investments by the Fund), including foreign legal counsel; accounting, auditing and tax preparation expenses; fees and expenses in connection with repurchase offers and any repurchases or redemptions of Shares; taxes and governmental fees (including tax preparation fees); fees and expenses of any custodian, sub-custodian, transfer agent, and registrar, and any other agent of the Fund; all costs and charges for equipment or services used in communicating information regarding the Fund's transactions with any custodian or other agent engaged by the Fund; bank services fees; costs and expenses relating to any amendment of the Agreement and Declaration of Trust or other organizational documents of the Fund; expenses of preparing, amending, printing, and distributing the Prospectus and any other sales material (and any supplements or amendments thereto), reports, notices, other communications to Shareholders, and proxy materials; expenses of preparing, printing, and filing reports and other documents with government agencies; expenses of Shareholders' meetings, including the solicitation of proxies in connection therewith; expenses of corporate data processing and related services; shareholder recordkeeping and account services, fees, and disbursements; expenses relating to investor and public relations; fees and expenses of the members of the Board who are not employees of the Investment Adviser or its affiliates; insurance premiums; Extraordinary Expenses (as defined below); and all costs and expenses incurred as a result of dissolution, winding-up and termination of the Fund. The Fund may need to sell portfolio securities to pay fees and expenses, which could cause the Fund to realize taxable gains.

"Extraordinary Expenses" means all expenses incurred by the Fund outside of the ordinary course of its business, including, without limitation, costs incurred in connection with any claim, litigation, arbitration, mediation, government investigation or dispute and the amount of any judgment or settlement paid in connection therewith, or the enforcement of the rights against any person or entity; costs and expenses for indemnification or contribution payable to any person or entity; expenses of a reorganization, restructuring or merger, as applicable; expenses of holding, or soliciting proxies for, a meeting of shareholders (except to the extent relating to items customarily addressed at an annual meeting of a registered closed-end management investment company); and the expenses of engaging a new administrator, custodian or transfer agent.

The Investment Adviser bears all of its expenses and costs incurred in providing investment advisory services to the Fund. In addition, the Investment Adviser is responsible for the payment of the compensation and expenses of those officers of the Fund affiliated with the Investment Adviser, and making available, without expense to the Fund, the services of such individuals, subject to their individual consent to serve and to any limitations imposed by law.

The Fund bears directly certain ongoing offering costs associated with any periodic offers of Shares which will be expensed as they are incurred. Offering costs cannot be deducted by the Fund or the Shareholders.

The Investment Adviser has entered into an expense limitation and reimbursement agreement (the "Expense Limitation and Reimbursement Agreement") with the Fund, whereby the Investment Adviser has agreed to waive fees that it would otherwise have been paid, and/or to assume expenses of the Fund (a "Waiver"), if required to ensure the Total Annual Expenses (excluding any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses (as determined in accordance with SEC Form N-2), expenses incurred in connection with any merger or reorganization, any shareholder servicing fees paid under the Fund's Shareholder Service Plan and extraordinary expenses, such as litigation expenses) do not exceed 2.25% of the average daily net assets (the "Expense Limit"). Because taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses, expenses incurred in connection with any merger or reorganization, any shareholder servicing fees paid under the Fund's Shareholder Service Plan and extraordinary expenses are excluded from the Expense Limit, Total Annual Expenses (after fee waivers and expense reimbursements) are expected to exceed 2.25%. The Expense Limitation and Reimbursement may not be terminated before July 1, 2025 and thereafter may be terminated by the Fund or the Investment Adviser upon 30 days' written notice. For a period not to exceed three years from the date on which a Waiver is made, the Investment Adviser may

recoup amounts waived or assumed, provided it is able to effect such recoupment and remain in compliance with the Expense Limit in effect at the time of the Waiver and the Expense Limit at the time of the recoupment. For the period July 1, 2023 (commencement of operations) through June 30, 2024, the Investment Manager contractually waived fees and expenses totaling \$401,305, and additionally voluntarily waived fees and expenses totaling \$0.

The Fund's fees and expenses will decrease the net profits or increase the net losses of the Fund that are credited to Shareholders.

### **VOTING**

Each Shareholder will have the right to cast a number of votes, based on the number of such Shareholder's Shares, at any meeting of Shareholders called by the Board. Except for the exercise of such voting privileges, Shareholders will not be entitled to participate in the management or control of the Fund's business and may not act for or bind the Fund.

### **SHAREHOLDER RIGHTS**

Except for actions under the U.S. federal securities laws, the By-Laws ("By-Laws") provide that by virtue of becoming a Shareholder, each Shareholder (i) irrevocably agrees that any claims, suits, actions or proceedings arising out of or relating in any way to the Trust, the Declaration of Trust or the By-Laws or asserting a claim governed by the internal affairs (or similar) doctrine, be exclusively brought in the Court of Chancery of the State of Delaware or, if such court does not have subject matter jurisdiction thereof, any other court in the State of Delaware with subject matter jurisdiction, (ii) irrevocably submits to the exclusive jurisdiction of such courts in connection with any such claim, suit, action or proceeding, (iii) irrevocably agrees not to, and waives any right to, assert in any such claim, suit, action or proceeding that (A) it is not personally subject to the jurisdiction of such courts or any other court to which proceedings in such courts may be appealed, (B) such claim, suit, action or proceeding is brought in an inconvenient forum, or (C) the venue of such claim, suit, action or proceeding is improper, (iv) expressly waives any requirement for the posting of a bond by a party bringing such claim, suit, action or proceeding, (v) consents to process being served in any such claim, suit, action or proceeding by mailing, certified mail, return receipt requested, a copy thereof to such party at the address in effect for notices hereunder, and agrees that such service shall constitute good and sufficient service of process and notice thereof; provided, nothing in clause (v) hereof shall affect or limit any right to serve process in any other manner permitted by law, and (vi) irrevocably waives any and all right to trial by jury in any such claim, suit, action or proceeding.

The designation of exclusive jurisdictions may make it more expensive for a Shareholder to bring a suit than if the Shareholder were permitted to select another jurisdiction. Also, the designation of exclusive jurisdictions and the waiver of jury trials limit a Shareholder's ability to litigate a claim in the jurisdiction and in a manner that may be more convenient and favorable to the Shareholder.

### **CONFLICTS OF INTEREST**

The Fund may be subject to a number of actual and potential conflicts of interest.

The Advisers and their affiliates engage in financial advisory activities that are independent from, and may from time to time conflict with, those of the Fund. In the future, there might arise instances where the interests of such affiliates conflict with the interests of the Fund. The Advisers and their affiliates may provide services to, invest in, advise, sponsor and/or act as Investment Adviser to investment vehicles and other persons or entities (including prospective investors in the Fund) which may have structures, investment objectives and/or policies that are similar to (or different than) those of the Fund; which may compete with the Fund for investment opportunities; and which may, subject to applicable law, co-invest with the Fund in certain transactions. In addition, the Advisers and their affiliates and respective clients may themselves invest in securities that would be appropriate for the Fund. By acquiring Shares, each Shareholder will be deemed to have acknowledged the existence of any such actual and potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

The Fund has been granted an order of exemptive relief from the SEC that permits the Fund to participate in certain negotiated investments alongside other funds managed by the Investment Sub-Adviser or certain of its affiliates outside the parameters of Section 17 of the Investment Company Act, subject to certain conditions including (i) that a majority of the Trustees who have no financial interest in the co-investment transaction and a majority of the Trustees who are not "interested persons," as defined in the Investment Company Act, approve the 17(d) investment and (ii) that the price, terms and conditions of the 17(d) investment will be identical for each fund participating pursuant to the exemptive relief. The Fund will not engage in 17(d) investments alongside affiliates unless such investments

are permitted under the order granting such exemptive relief or unless such investments are not prohibited by Section 17(d) of the Investment Company Act or interpretations of Section 17(d) as expressed in SEC no-action letters or other available guidance. The Fund could be limited in its ability to invest in certain investments in which the Advisers or their respective affiliates are investing or are invested. Furthermore, the Fund's participation in co-investment transactions in reliance on the Order may give rise to actual or perceived conflicts of interest among the Fund and the other participating accounts. For example, certain co-investment transactions may be more or less advantageous to the Fund relative to one or more other participating accounts. In addition, the Advisers may be incentivized to pursue a co-investment transaction for the Fund for reputational or other reasons that are not directly advantageous to the Fund.

Although the Advisers and their affiliates will seek to allocate investment opportunities among the Fund and their other clients in a fair and reasonable manner, there can be no assurance that an investment opportunity which comes to the attention of the Investment Adviser or its affiliates will be appropriate for the Fund or will be referred to the Fund. The Advisers and their affiliates are not obligated to refer any investment opportunity to the Fund.

The directors, partners, trustees, managers, members, officers and employees of the Advisers and their affiliates may buy and sell securities or other investments for their own accounts (including through funds managed by the Advisers or their affiliates). As a result of differing trading and investment strategies or constraints, investments may be made by directors, partners, trustees, managers, members, officers and employees that are the same, different from or made at different times than investments made for the Fund. To reduce the possibility that the Fund will be materially adversely affected by the personal trading described above, the Fund, the Investment Adviser and the Investment Sub-Adviser have adopted codes of ethics (collectively, the "Codes of Ethics") in compliance with Section 17(j) of the Investment Company Act that restricts securities trading in the personal accounts of investment professionals and others who normally come into possession of information regarding the portfolio transactions of the Fund. The Codes of Ethics are available on the EDGAR Database on the SEC's website at <https://www.sec.gov>, and copies may be obtained, after paying a duplicating fee, by email at [publicinfo@sec.gov](mailto:publicinfo@sec.gov).

## TENDER OFFERS/OFFERS TO REPURCHASE

**The Fund is not a liquid investment.** No Shareholder will have the right to require the Fund to redeem its Shares. In addition, no public market exists for the Shares and the Fund does not expect any trading market to develop for the Shares. As a result, if investors decide to invest in the Fund, they will have very limited opportunity to sell their Shares, as described below.

At the discretion of the Board and provided that it is in the best interests of the Fund and the Shareholders to do so, the Fund intends to, but is not obligated to, provide a limited degree of liquidity to the Shareholders by conducting repurchase offers generally quarterly. The Board will consider the following factors, among others, in making its determination for the Fund to make each repurchase offer:

- the recommendation of the Investment Adviser;
- whether any Shareholders have requested to tender Shares or portions thereof to the Fund;
- the liquidity of the Fund's assets (including fees and costs associated with withdrawing from investments);
- the investment plans and working capital requirements of the Fund;
- the relative economies of scale with respect to the size of the Fund;
- the history of the Fund in repurchasing Shares or portions thereof;
- the availability of information as to the value of the Fund's assets;
- the economic condition of the securities markets and the economy generally as well as political, national or international developments or current affairs; and
- the anticipated tax consequences to the Fund of any proposed repurchases of Shares or portions thereof.

The Investment Adviser currently expects that, beginning on or about the first quarter of 2024, it will generally recommend to the Board that the Fund offer to repurchase Shares from Shareholders quarterly with tender offer valuation dates occurring on or about March 31, June 30, September 30 and December 31 of each year (each, a "Valuation Date"); however, there can be no assurance that any such tender offers will be conducted on quarterly basis or at all. The Board may elect not to conduct a tender offer, notwithstanding the recommendation of the Investment Adviser. The decision to offer to repurchase Shares is in the complete and absolute discretion of the Board. The Fund is not required to conduct tender offers.

In certain circumstances, the Board may require a Shareholder to tender its Shares.

Shareholders whose written tenders of Shares are accepted by the Fund will be subject to the risk of fluctuations in the NAV of Shares until the Valuation Date. In addition, payment for repurchased Shares may require the Fund to liquidate portfolio holdings earlier than the Investment Adviser would otherwise have caused these holdings to be liquidated, potentially resulting in losses, and may increase the Fund's investment-related expenses as a result of higher portfolio turnover rates.

A 2.00% early repurchase fee will be charged by the Fund with respect to any repurchase of Shares from a Shareholder at any time prior to the day immediately preceding the one-year anniversary of the Shareholder's purchase of the Shares. Shares tendered for repurchase will be treated as having been repurchased on a "first in-first out" basis. An early repurchase fee payable by a Shareholder may be waived by the Fund in circumstances where the Board determines that doing so is in the best interests of the Fund.

## TENDER/REPURCHASE PROCEDURES

Due to liquidity restraints associated with the Fund's investments in Investment Funds, it is presently expected that, under the procedures applicable to the repurchase of Shares, Shares will be valued as of the applicable Valuation Date. The Fund will generally pay the value of the Shares repurchased (or as discussed below, 95% of such value if all Shares owned by a Shareholder are repurchased) no later than the 65<sup>th</sup> day after the deadline for Shareholders to tender Shares for repurchase as set forth in the applicable repurchase offer. This amount will be subject to adjustment after completion of the annual audit of the Fund's financial statements for the fiscal year in which the repurchase is effective. Shares may be repurchased prior to Investment Fund audits. To mitigate any effects of this, if all Shares owned by a Shareholder are repurchased, the Shareholder will receive an initial payment equal to 95% of the estimated value of the Shares (after adjusting for fees, expenses, reserves or other allocations or redemption charges) no later than the 65<sup>th</sup> day after the deadline for Shareholders to tender Shares for repurchase as set forth in the applicable repurchase offer, subject to audit adjustment, and the balance due will be determined and paid within two business days after completion of the Fund's annual audit.

Under these procedures, Shareholders will have to decide whether to tender their Shares for repurchase without the benefit of having current information regarding the value of the Shares as of the Valuation Date. The Shareholder may inquire of the Fund, at the telephone number indicated within this Prospectus, as to the value of the Shares last determined. In addition, there will be a substantial period of time between the date as of which the Shareholders must tender the Shares and the date they can expect to receive payment for their Shares from the Fund. However, promptly after the expiration of a repurchase offer, Shareholders whose Shares are accepted for repurchase may be given non-interest bearing, non-transferable promissory notes by the Fund representing the Fund's obligation to pay in cash an amount equal to the value, determined as of the valuation date, of the repurchased shares. Payment under the promissory note will be made by the Fund within 65 days after the deadline for Shareholders to tender Shares for repurchase as set forth in the applicable tender offer. Pursuant to the promissory note, if all of a shareholder's shares are repurchased, the shareholder will receive an initial payment in cash equal to 95% of the value of the shares and the balance due will be paid in cash promptly (within two business days) after completion of the Fund's audit. Any promissory notes will be held by the Fund Administrator and can be provided upon request by calling UMB Fund Services, Inc. at (888) 884-8810.

Repurchase of Shares by the Fund are subject to certain regulatory requirements imposed by SEC rules.

If the Board determines that the Fund will offer to repurchase Shares, written notice will be provided to Shareholders that describes the commencement date of the repurchase offer, specifies the date on which repurchase requests must be received by the Fund, and contains other terms and information Shareholders should consider in deciding whether and how to participate in such repurchase opportunity. The expiration date of the repurchase offer (the "Expiration Date") will be a date set by the Board occurring no sooner than 20 business days after the commencement date of the repurchase offer, provided that such Expiration Date may be extended by the Board in its sole discretion. The Fund generally will not accept any repurchase request received by it or its designated agent after the Expiration Date. Each repurchase offer will be offered pursuant to the tender offer rules of the Securities Exchange Act of 1934.

Payment by the Fund upon a repurchase of Shares is expected to be made in cash. The Fund does not generally expect to distribute securities as payment for repurchased Shares except in unusual circumstances, including if making a cash payment would result in a material adverse effect on the Fund or the Shareholders, or if the Fund has received distributions from Investment Funds in the form of securities that are transferable to the Fund's Shareholders. Securities which are distributed in-kind in connection with a repurchase of Shares may be illiquid. Any in-kind distribution of securities will be valued in accordance with the Declaration of Trust and will be distributed to all tendering Shareholders on a proportional basis. See "CALCULATION OF NET ASSET VALUE; VALUATION."

Following the commencement of an offer to repurchase Shares, the Fund may suspend, postpone or terminate such offer in certain circumstances upon the determination of a majority of the Board, including a majority of the Independent Trustees, that such suspension, postponement or termination is advisable for the Fund and its Shareholders, including, without limitation, circumstances as a result of which it is not reasonably practicable for the Fund to dispose of its investments or to determine its net asset value, and other unusual circumstances.

Each Shareholder whose Shares have been accepted for repurchase will continue to be a Shareholder of the Fund until the Valuation Date (and thereafter if the Shareholder retains Shares following such repurchase) and may exercise its voting rights with respect to the repurchased Shares until the Valuation Date. Moreover, the account maintained in respect of a Shareholder whose Shares have been accepted for repurchase will be adjusted for the net profits or net

losses of the Fund through the Valuation Date, and such Shareholder's account shall not be adjusted for the amount withdrawn, as a result of the repurchase, prior to the Valuation Date. Shareholders whose written tenders are not accepted by the Fund for payment prior to the expiration of forty business days from the commencement of the offer, have the right to withdraw their tender requests.

Payments for repurchased Shares may require the Fund to liquidate Investments earlier than the Investment Sub-Adviser otherwise would liquidate such holdings, potentially resulting in losses, and may increase the Fund's portfolio turnover. The Fund may, but need not, maintain cash or borrow money to meet repurchase requests. Such a practice could increase the Fund's operating expenses and impact the ability of the Fund to achieve its investment objective.

A 2.00% early repurchase fee (the "Early Repurchase Fee") will be charged by the Fund with respect to any repurchase of Shares from a Shareholder at any time prior to the day immediately preceding the one-year anniversary of the Shareholder's purchase of the Shares. Shares tendered for repurchase will be treated as having been repurchased on a "first in-first out" basis. Therefore, Shares repurchased will be deemed to have been taken from the earliest purchase of Shares by such Shareholder (adjusted for subsequent net profits and net losses) until all such Shares have been repurchased, and then from each subsequent purchase of Shares by such Shareholder (adjusted for subsequent net profits and net losses) until such Shares are repurchased. An Early Repurchase Fee payable by a Shareholder may be waived by the Fund in circumstances where the Board determines that doing so is in the best interests of the Fund. To the extent the Fund determines to waive, impose scheduled variations of, or eliminate an Early Repurchase Fee, it will do so consistently with the requirements of Rule 22d-1 under the Investment Company Act, and the Fund's waiver of, scheduled variation in, or elimination of, the early repurchase fee will apply uniformly to all shareholders regardless of share class.

Other than the Early Repurchase Fee, the Fund does not presently intend to impose any charges on the repurchase of Shares. However, the Fund is permitted to allocate Shareholders, whose Shares are repurchased, costs and charges imposed by the Investments, if the Sub-Adviser determines to liquidate such interests as a result of repurchase tenders by Shareholders and such charges are imposed on the Fund. In the event that any such charges are allocated to the Fund, and subject to applicable law, the Fund may allocate such charges to the Shareholders whose repurchase tenders resulted in the repurchase of a portion of the Shares that resulted in such charges.

In the event that the Advisers or any of their affiliates holds Shares in its capacity as a Shareholder, such Shares may be tendered for repurchase in connection with any repurchase offer made by the Fund, without notice to the other Shareholders.

In accordance with the terms and conditions of the Agreement and Declaration of Trust, the Fund may cause a mandatory repurchase or redemption of all or some of the Shares of a Shareholder, or any person acquiring Shares from or through a Shareholder, in the event that the Board determines or has reason to believe, in its sole discretion, that: (i) its Shares have been transferred to, or has vested in, any person, by operation of law in connection with the death, divorce, bankruptcy, insolvency, or adjudicated incompetence of a Shareholder; (ii) ownership of the Shares by such Shareholder or other person will cause the Fund to be in violation of, or subject the Fund or the Investment Adviser to additional registration or regulation under the securities, commodities, or other laws of the United States or any other jurisdiction; (iii) continued ownership of the Shares by such Shareholders may be harmful or injurious to the business or reputation of the Fund or the Investment Adviser, or may subject the Fund or any Shareholders to an undue risk of adverse tax or other fiscal consequences; (iv) any representation or warranty made by a Shareholder in connection with the acquisition of Shares was not true when made or has ceased to be true, or the Shareholder has breached any covenant made by it in connection with the acquisition of Shares; or (v) it would be in the best interests of the Fund for the Fund to cause a mandatory redemption of such Shares in circumstances where the Board determines that doing so is in the best interests of the Fund in a manner as will not discriminate unfairly against any Shareholder.

## **TRANSFERS OF SHARES**

No person shall become a substituted Shareholder of the Fund without the consent of the Fund, which consent may be withheld in its sole discretion. Shares held by Shareholders may be transferred only: (i) by operation of law in connection with the death, divorce, bankruptcy, insolvency, or adjudicated incompetence of the Shareholder; or (ii) under other limited circumstances, with the consent of the Board (which may be withheld in its sole discretion and is expected to be granted, if at all, only under extenuating circumstances).

Notice to the Fund of any proposed transfer must include evidence satisfactory to the Board that the proposed transferee, at the time of transfer, meets any requirements imposed by the Fund with respect to investor eligibility and suitability. Notice of a proposed transfer of a Share must also be accompanied by a properly completed investor application in respect of the proposed transferee. In connection with any request to transfer Shares, the Fund may require the Shareholder requesting the transfer to obtain, at the Shareholder's expense, an opinion of counsel selected by the Fund as to such matters as the Fund may reasonably request. The Board generally will not consent to a transfer of Shares by a Shareholder (i) unless such transfer is to a single transferee, or (ii) if, after the transfer of the Shares, the balance of the account of each of the transferee and transferor is less than \$250,000. Each transferring Shareholder and transferee may be charged reasonable expenses, including, but not limited to, attorneys' and accountants' fees, incurred by the Fund in connection with the transfer.

Any transferee acquiring Shares by operation of law in connection with the death, divorce, bankruptcy, insolvency, or adjudicated incompetence of the Shareholder, will be entitled to the distributions allocable to the Shares so acquired, to transfer the Shares in accordance with the terms of the Declaration of Trust and to tender the Shares for repurchase by the Fund, but will not be entitled to the other rights of a Shareholder unless and until the transferee becomes a substituted Shareholder as specified in the Declaration of Trust. If a Shareholder transfers Shares with the approval of the Board, the Fund shall as promptly as practicable take all necessary actions so that each transferee or successor to whom the Shares are transferred is admitted to the Fund as a Shareholder.

By subscribing for Shares, each Shareholder agrees to indemnify and hold harmless the Fund, the Board, the Investment Adviser, and each other Shareholder, and any affiliate of the foregoing against all losses, claims, damages, liabilities, costs, and expenses (including legal or other expenses incurred in investigating or defending against any losses, claims, damages, liabilities, costs, and expenses or any judgments, fines, and amounts paid in settlement), joint or several, to which such persons may become subject by reason of or arising from any transfer made by that Shareholder in violation of the Declaration of Trust or any misrepresentation made by that Shareholder in connection with any such transfer.

## **ANTI-MONEY LAUNDERING**

If the Fund, the Investment Adviser, the Sub-Adviser or any governmental agency believes that the Fund has sold Shares to, or is otherwise holding assets of, any person or entity that is acting, directly or indirectly, in violation of U.S., international or other anti-money laundering laws, rules, regulations, treaties or other restrictions, or on behalf of any suspected terrorist or terrorist organization, suspected drug trafficker, or senior foreign political figure(s) suspected of engaging in corruption, the Fund, the Investment Adviser or such governmental agency may freeze the assets of such person or entity invested in the Fund or suspend the repurchase of Shares. The Fund may also be required to, or deem it necessary or advisable to, remit or transfer those assets to a governmental agency, in some cases without prior notice to the investor.

## CALCULATION OF NET ASSET VALUE

### GENERAL

The Fund calculates its NAV as of the close of business on the last day of each quarter and at such other times as the Board may determine, including in connection with repurchases of Shares, in accordance with the procedures described below or as may be determined from time to time in accordance with policies established by the Board. Shareholders will receive the estimated NAV of the Fund, free of charge upon request.

The Fund's Board oversees the valuation of the Fund's investments on behalf of the Fund. The Board has approved valuation procedures for the Fund (the "Valuation Procedures") and designated the Fund's Investment Adviser as its valuation designee ("Valuation Designee"). The Valuation Procedures provide that the Fund will value its investments in Direct Investments and Investment Funds at fair value.

The Fund values its investments in private Investment Funds (generally private funds that are excluded from the definition of "investment company" pursuant to Sections 3(c)(1) or 3(c)(7) of the Investment Company Act). In accordance with the Valuation Procedures, fair value as of each quarter-end or other applicable accounting periods, as applicable, ordinarily will be the value determined as of such date by each private Investment Fund in accordance with the private Investment Fund's valuation policies and reported at the time of the Fund's valuation. As a general matter, the fair value of the Fund's interest in a private Investment Fund will represent the amount that the Fund could reasonably expect to receive from the private Investment Fund if the Fund's interest was redeemed at the time of valuation, based on information reasonably available at the time the valuation is made and that the Fund believes to be reliable. The Fund will determine the fair value of such private Investment Fund based on the most recent final or estimated value reported by the private Investment Fund, as well as any other relevant information available at the time the Fund values its portfolio. Using the nomenclature of the hedge fund industry, any values reported as "estimated" or "final" values are expected to reasonably reflect market values of securities when available or fair value as of the Fund's valuation date. A substantial amount of time may elapse between the occurrence of an event necessitating the pricing of Fund assets and the receipt of valuation information from the Underlying Manager of a private Investment Fund.

Prior to the Fund investing in any Investment Fund, the Investment Adviser will conduct a due diligence review of the valuation methodologies utilized by the Investment Fund, which as a general matter will utilize market values when available, and otherwise will utilize principles of fair value that the Investment Adviser reasonably believe to be consistent, in all material respects, with those used by the Fund in valuing its own investments. Although the Valuation Procedures provide that the Investment Adviser will review the valuations provided by the Underlying Managers to the Investment Funds, none of the Board or the Investment Adviser will be able to confirm independently the accuracy of valuations provided by such Underlying Managers, which may be unaudited.

The Fund's Valuation Procedures require the Valuation Designee to take reasonable steps in light of all relevant circumstances to value the Fund's portfolio. The Valuation Designee will consider such information, and may conclude in certain circumstances that the information provided by an Underlying Manager does not represent the fair value of the Fund's interests in the Investment Fund. Although redemptions of interests in Investment Funds are subject to advance notice requirements, Investment Funds will typically make available NAV information to holders which will represent the price at which, even in the absence of redemption activity, the Investment Fund would have effected a redemption if any such requests had been timely made or if, in accordance with the terms of the Investment Fund's governing documents, it would be necessary to effect a mandatory redemption. Following procedures adopted by the Board, the Investment Adviser will consider whether it is appropriate, in light of all relevant circumstances, to value such interests at the NAV as reported by the Underlying Manager at the time of valuation, or whether to adjust such value to reflect a premium or discount to NAV. In accordance with U.S. generally accepted accounting principles and industry practice, the Fund may not always apply a discount in cases where there is no contemporaneous redemption activity in a particular Investment Fund. In other cases, as when an Investment Fund imposes extraordinary restrictions on redemptions, when other extraordinary circumstances exist, or when there have been no recent transactions in Investment Fund interests, the Fund may determine that it is appropriate to apply a discount to the NAV of the Investment Fund. Any such decision will be made in good faith, and subject to the review and supervision of the Board.

The valuations reported by the Underlying Managers, upon which the Fund calculates its quarter-end NAV and the NAV of each Share, may be subject to later adjustment or revision, based on information reasonably available at that time. For example, any "estimated" values from Investment Funds may be revised and fiscal year-end NAV

calculations of the Investment Funds may be audited by their independent auditors and may be revised as a result of such audits. Other adjustments may occur from time to time. Because such adjustments or revisions, whether increasing or decreasing the NAV of the Fund at the time they occur, relate to information available only at the time of the adjustment or revision, the adjustment or revision may not affect the amount of the repurchase proceeds of the Fund received by Shareholders who had their Shares in the Fund repurchased at a NAV calculated prior to such adjustments and received their repurchase proceeds, subject to the ability of the Fund to adjust or recoup the repurchase proceeds received by Shareholders under certain circumstances. As a result, to the extent that such subsequently adjusted valuations from the Underlying Managers or revisions to the NAV of an Investment Fund adversely affect the Fund's NAV, the outstanding Shares may be adversely affected by prior repurchases to the benefit of Shareholders who had their Shares repurchased at a NAV higher than the adjusted amount. Conversely, any increases in the NAV resulting from such subsequently adjusted valuations may be entirely for the benefit of the outstanding Shares and to the detriment of Shareholders who previously had their Shares repurchased at a NAV lower than the adjusted amount. The same principles apply to the purchase of Shares. New Shareholders may be affected in a similar way. The Valuation Procedures provide that, where deemed appropriate by the Advisers and consistent with the Investment Company Act, investments in Investment Funds may be valued at cost. Cost will be used only when cost is determined to best approximate the fair value of the particular security under consideration. For example, cost may not be appropriate when the Fund is aware of sales of similar securities to third parties at materially different prices or in other circumstances where cost may not approximate fair value (which could include situations where there are no sales to third parties). In such a situation, the Fund's investment will be revalued in a manner that the Valuation Designee, in accordance with the Valuation Procedures, determines in good faith best reflects approximate market value.

Debt securities will be valued in accordance with the Valuation Procedures, which generally provide for using a third-party pricing system, agent, or dealer selected by the Investment Adviser, which may include the use of valuations furnished by a pricing service that employs a matrix to determine valuations for normal institutional size trading units. The Valuation Designee will monitor periodically the reasonableness of valuations provided by any such pricing service. Debt securities with remaining maturities of 60 days or less, absent unusual circumstances, will be valued at amortized cost, so long as such valuations are determined by the Valuation Designee to represent fair value.

Assets and liabilities initially expressed in foreign currencies will be converted into U.S. dollars using foreign exchange rates provided by a pricing service. Trading in foreign securities generally is completed, and the values of such securities are determined, prior to the close of securities markets in the United States. Foreign exchange rates are also determined prior to such close. On occasion, the values of securities and exchange rates may be affected by events occurring between the time as of which determination of such values or exchange rates are made and the time as of which the NAV of the Fund is determined. When such events materially affect the values of securities held by the Fund or its liabilities, such securities and liabilities may be valued at fair value as determined in good faith in accordance with procedures approved by the Board.

#### ***Other Securities***

Securities for which the primary market is a national securities exchange are valued at the last reported sales price on the day of valuation. Listed securities for which no sale was reported on that date are valued at the mean between the most recent bid and asked prices. Securities traded on the over-the-counter market are valued at their closing bid prices. Valuation of short-term cash equivalent investments will be at amortized cost.

The Valuation Procedures provide that, where deemed appropriate by the Valuation Designee and consistent with the Investment Company Act, investments in private Investment Funds may be valued at cost. Cost will be used only when cost is determined to best approximate the fair value of the particular security under consideration. For example, cost may not be appropriate when the Fund is aware of sales of similar securities to third parties at materially different prices or in other circumstances where cost may not approximate fair value (which could include situations where there are no sales to third parties). In such a situation, the Fund's investment will be revalued in a manner that the Valuation Designee, in accordance with the Valuation Procedures, determines in good faith best reflects approximate market value. The Board will be responsible for ensuring that the Valuation Procedures utilized by the Valuation Designee are fair to the Fund and consistent with applicable regulatory guidelines.

The Investment Adviser acts as investment adviser to other clients that may invest in securities for which no public market price exists. Valuation determinations by the Valuation Designee or its affiliates for other clients may result in different values than those ascribed to the same security owned by the Fund. Consequently, the fees charged to the Fund may be different than those charged to other clients, given that the method of calculating the fees takes the value of all assets, including assets carried at different valuations, into consideration.

Prospective investors should be aware that situations involving uncertainties as to the value of portfolio positions could have an adverse effect on the Fund's NAV if the judgments of the Valuation Designee regarding appropriate valuations should prove incorrect. In no event does the Distributor have any responsibility for any valuations of the Fund's investments (including the accuracy, reliability or completeness thereof) or for the valuation processes utilized for the Fund, and the Distributor disclaims any and all liability for any direct, incidental, or consequential damages arising out of any inaccuracy or incompleteness in valuations. The Distributor has no duty to calculate the NAV of Fund Shares or to inquire into, or liability for, the accuracy of the NAV per Share (including a Class thereof) as calculated by or for the Fund.

## SUSPENSION OF CALCULATION OF NET ASSET VALUE

As noted above, the Administrator calculates the Fund's NAV as of the close of business on the last day of each quarter. However, there may be circumstances where it may not be practicable to determine an NAV, such as during any period when the principal stock exchanges for securities in which the Fund has invested its assets are closed other than for weekends and customary holidays (or when trading on such exchanges is restricted or suspended). In such circumstances, the Board (after consultation with the Investment Adviser) may suspend the calculation of NAV. The Fund will not accept subscriptions for Shares if the calculation of NAV is suspended, and the suspension may require the termination of a pending repurchase offer by the Fund (or the postponement of the Valuation Date for a repurchase offer). Notwithstanding a suspension of the calculation of NAV, the Fund will be required to determine the value of its assets and report NAV in its semi-annual and annual reports to Shareholders, and in its reports on Form N-PORT filed with the SEC after the end of the first and third quarters of the Fund's fiscal year. The Administrator will resume calculation of the Fund's NAV after the Board (in consultation with the Investment Adviser) determines that conditions no longer require suspension of the calculation of NAV.

## DIVIDENDS AND DISTRIBUTIONS

The Fund intends to qualify annually as a RIC under the Code and intends to distribute at least 90% of its annual net taxable income to its Shareholders. For any distribution, the Fund will calculate each Shareholder's specific distribution amount for the period using record and declaration dates. From time to time, the Fund may also pay special interim distributions in the form of cash or Shares at the discretion of the Board. Unless Shareholders elect to receive distributions in the form of cash, the Fund intends to make its ordinary distributions in the form of additional Shares under the DRIP. Any distributions reinvested under the DRIP will nevertheless remain subject to U.S. federal (and applicable state and local) taxation to Shareholders. The Fund may finance its cash distributions to Shareholders from any sources of funds available to the Fund, including offering proceeds, borrowings, net investment income from operations, capital gains proceeds from the sale of Investments, non-capital gains proceeds from the sale of Investments, dividends or other distributions paid to the Fund and expense reimbursements from the Investment Adviser. The Fund has not established limits on the amount of funds the Fund may use from available sources to make distributions.

Each year a statement on IRS Form 1099-DIV (or successor form), identifying the character (e.g., as ordinary income, qualified dividend income or long-term capital gain) of the distributions, will be mailed to Shareholders. The Fund's distributions may exceed the Fund's earnings, especially during the period before the Fund has substantially invested the proceeds from this offering. As a result, a portion of the distributions the Fund makes may represent a return of capital for U.S. federal tax purposes. A return of capital generally is a return of your investment rather than a return of earnings or gains derived from the Fund's investment activities and will be made after deduction of the fees and expenses payable in connection with the offering, including any fees payable to the Investment Adviser. See "CERTAIN TAX CONSIDERATIONS." **There can be no assurance that the Fund will be able to pay distributions at a specific rate or at all.**

The Fund intends to elect to be treated, beginning with the taxable year ending June 30, 2024, and intends to qualify annually, as a RIC under the Code. To qualify for and maintain RIC tax treatment, the Fund must, among other things, distribute at least 90% of its net ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any. A RIC may satisfy the 90% distribution requirement by distributing dividends (other than capital gain dividends) during the taxable year (including dividends declared in October, November or December of a taxable year that, if paid in the following January, are treated as paid by a RIC and received by its shareholders in the prior taxable year). In addition, a RIC may, in certain cases, satisfy the 90% distribution requirement by distributing dividends relating to a taxable year after the close of such taxable year under the "spillover dividend" provisions of the Code. If a RIC makes a spillover dividend the amounts will be included in IRS Form 1099-DIV for the year the spillover distribution is paid.

The Fund can offer no assurance that it will achieve results that will permit the Fund to pay any cash distributions. If the Fund issues senior securities, the Fund will be prohibited from making distributions if doing so causes the Fund to fail to maintain the asset coverage ratios stipulated by the Investment Company Act or if distributions are limited by the terms of any of the Fund's borrowings. See "CERTAIN TAX CONSIDERATIONS."

## **DISTRIBUTIONS AND DIVIDEND REINVESTMENT PLAN**

Distributions will be paid at least annually on the Shares in amounts representing substantially all of the net investment income and net capital gains, if any, earned each year.

The Fund has a dividend reinvestment plan (the “DRIP”). Unless a Shareholder elects to receive cash by contacting the Fund’s Administrator, UMB Fund Services, Inc. at (888) 884-8810 or 235 West Galena Street, Milwaukee, WI 53212, all dividends and/or capital gains distributions declared on Shares will be automatically reinvested in additional Shares at the Fund’s then current NAV. Shareholders that elect not to participate in the DRIP will receive dividends and capital gains distributions in cash paid by check mailed directly to the shareholder of record (or, if the Shares are held in street or other nominee name, then to such nominee) by the Administrator as dividend disbursing agent. The Fund reserves the right to cap the aggregate amount of any income dividends and/or capital gain distributions that are made in cash at a total amount of not less than 20% of the total amount distributed to Shareholders.

Participation in the DRIP is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Administrator prior to the dividend record date; otherwise, such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Such notice will be effective with respect to a particular dividend or other distribution (together, a “Dividend”). Some brokers or dealers may automatically elect to receive cash on behalf of Shareholders who hold their Shares in the broker or dealer’s name and may re-invest that cash in additional Shares. Reinvested Dividends will increase the Fund’s assets on which the Investment Management Fee is payable to the Investment Adviser.

Whenever the Fund declares a dividend and/or capital gain payable in cash, non-participants in the DRIP will receive cash and participants in the DRIP will receive the equivalent in Shares. The Shares will be acquired by the Administrator for the DRIP participants’ accounts through receipt of additional unissued but authorized Shares from the Fund.

The Administrator maintains all Shareholders’ accounts in the DRIP and furnishes written confirmation of all transactions in the accounts, including information needed by Shareholders for tax records. Shares in the account of each DRIP participant will be held by the Administrator on behalf of the DRIP participant, and each Shareholder proxy will include those Shares purchased or received pursuant to the DRIP. The Administrator will forward all proxy solicitation materials to participants and vote proxies for Shares held under the DRIP in accordance with the instructions of the participants.

Beneficial owners of Shares who hold their Shares in the name of a broker or dealer should contact the broker or nominee to determine whether and how they may participate in, or opt out of, the DRIP. In the case of Shareholders such as banks, brokers or dealers that hold shares for others who are the beneficial owners, the Administrator will administer the DRIP on the basis of the number of Shares certified from time to time by the record shareholder’s name and held for the account of beneficial owners who participate in the DRIP.

There will be no brokerage charges with respect to Shares issued directly by the Fund. The automatic reinvestment of dividends and/or capital gains in Shares under the DRIP will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends and/or capital gains, even though such participants have not received any cash with which to pay the resulting tax.

The Fund reserves the right to amend or terminate the DRIP. There is no direct service charge to participants with regard to purchases in the DRIP; however, the Fund reserves the right to amend the DRIP to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Fund’s Administrator, UMB Fund Services, Inc. at (888) 884-8810 or 235 West Galena Street, Milwaukee, WI 53212.

## TAXES

### INTRODUCTION

The following is a summary of certain material federal income tax consequences of acquiring, holding and disposing of Shares. Because the federal income tax consequences of investing in the Fund may vary from Shareholder to Shareholder depending on each Shareholder's unique federal income tax circumstances, this summary does not attempt to discuss all of the federal income tax consequences of such an investment. Among other things, except in certain limited cases, this summary does not purport to deal with persons in special situations (such as financial institutions, non-U.S. persons, insurance companies, entities exempt from federal income tax, regulated investment companies, dealers in commodities and securities and pass-through entities). Further, to the limited extent this summary discusses possible foreign, state and local income tax consequences, it does so in a very general manner. Finally, this summary does not purport to discuss federal tax consequences (such as estate and gift tax consequences) other than those arising under the federal income tax laws. *You are therefore urged to consult your tax advisers to determine the federal, state, local and foreign tax consequences of acquiring, holding and disposing of Shares.*

The following summary is based upon the Code as well as administrative regulations and rulings and judicial decisions thereunder, as of the date hereof, all of which are subject to change at any time (possibly on a retroactive basis). Accordingly, no assurance can be given that the tax consequences to the Fund or its shareholder will continue to be as described herein.

The Fund has not sought or obtained a ruling from the Internal Revenue Service (the "IRS") (or any other federal, state, local or foreign governmental agency) or an opinion of legal counsel as to any specific federal, state, local or foreign tax matter that may affect it. Accordingly, although this summary is considered to be a correct interpretation of applicable law, no assurance can be given that a court or taxing authority will agree with such interpretation or with the tax positions taken by the Fund.

Except where specifically noted, this summary relates solely to U.S. Shareholders. A U.S. Shareholder for purposes of this discussion is a person who is a citizen or a resident alien of the U.S., a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) organized under the laws of the U.S. or any political subdivision thereof, an estate whose income is subject to U.S. federal income tax regardless of its source or a trust if (i) a U.S. court can exercise primary supervision over the trust's administration and one or more U.S. persons are authorized to control all substantial decisions of the trust or (ii) the trust has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. person.

### TAXATION OF THE FUND

The discussions of the federal tax consequences in this Prospectus are based on the Code and the regulations issued under it, and court decisions and administrative interpretations, as in effect on the date of this Prospectus. The Fund intends to qualify as a RIC under federal income tax law. As a RIC, the Fund will generally not be subject to federal corporate income taxes, provided that it distributes out to Shareholders its taxable income and gain each year.

**Distributions to Shareholders.** In general, distributions will be taxable to you for federal, state and local income tax purposes unless you are a tax-exempt entity, including qualified retirement plans or individual retirement accounts. Distributions are taxable whether they are received in cash or reinvested in Fund Shares. A Shareholder may thus recognize income and gains taxable for federal, state and local income tax purposes and not receive any cash distributions to pay any resulting taxes.

Fund distributions, if any, that are attributable to "qualified dividend income" or "net capital gain" (the excess, if any, of net long-term capital gains over net short-term capital losses) earned by the Fund will generally be taxable to non-corporate Shareholders at reduced rates. Shareholders must have owned the Fund Shares for at least sixty-one (61) days during the one hundred twenty-one (121) day period beginning sixty (60) days before the ex-dividend date to benefit from the lower rates on qualified dividend income. Additionally, U.S. individuals with modified adjusted gross income exceeding \$200,000 (\$250,000 for married couples filing jointly) and trusts and estates with income above specified levels are subject to a 3.8% tax on their net investment income, which includes interest, dividends and capital gains.

Shareholders are generally taxed on any dividends from the Fund in the year they are actually distributed. Dividends declared in October, November or December of a year, and paid in January of the following year, will generally be treated for federal income tax purposes as having been paid to Shareholders on December 31<sup>st</sup> of the year in which the dividend was declared.

**Sales, Exchanges and Redemptions.** You will recognize gain or loss on a sale, exchange or redemption of your shares in an amount equal to the difference between your tax basis in the shares and the amount you receive for them. Generally, this gain or loss will be long-term or short-term depending on whether your holding period exceeds twelve (12) months, except that a loss recognized on disposition of shares held for six months or less will be recharacterized as long-term capital loss to the extent of any capital gains dividends that have been received on the shares. Any loss realized on a disposition of shares of the Fund may be disallowed under “wash sale” rules to the extent the shares disposed of are replaced with other shares of the Fund within a period of sixty-one (61) days beginning thirty (30) days before and ending thirty (30) days after the shares are disposed of, such as pursuant to a dividend reinvestment in shares of the Fund. If disallowed, the loss will be reflected in an upward adjustment to the basis of the shares acquired.

The Fund is required to compute and report the cost basis of shares sold or exchanged. The Fund has elected to use the First In, First Out (“FIFO”) method, unless you instruct the Fund to select a different method or choose to specifically identify your shares at the time of each sale or exchange. If your account is held by your broker or other advisor, they may select a different method. In these cases, please contact the holder of your shares to obtain information with respect to the available methods and elections for your account. You should carefully review the cost basis information provided by the Fund and make any additional basis, holding period or other adjustments that are required when reporting these amounts on your federal and state income tax returns.

**Certain Withholding Taxes.** The Fund and the Investment Funds may be subject to taxes, including foreign withholding taxes, attributable to investments of the Fund and the Investment Funds. If at the close of the Fund’s taxable year more than 50% of the value of its assets consists of foreign stock or securities, the Fund will be eligible to elect, for federal income tax purposes, to treat certain foreign taxes paid by it, including generally any withholding and other foreign income taxes, as paid by its Shareholders. If the Fund so elects, the pro rata amount of such foreign taxes paid by the Fund will be included in its Shareholders’ income and each such Shareholder will be entitled either (1) to credit that proportional amount of taxes against U.S. Federal income tax liability as a foreign tax credit or (2) to take that amount as an itemized deduction. The Fund does not expect to be able to make such election.

**IRAs and Other Tax Qualified Plans.** In general, dividends received and gain or loss realized with respect to shares held in an IRA or other tax qualified plan are not currently taxable unless the Fund Shares were acquired with borrowed funds.

Pursuant to the Regulations directed at tax shelter activity, taxpayers are required to disclose to the IRS certain information on Form 8886 if they participate in a “reportable transaction.” A transaction may be a “reportable transaction” based upon any of several indicia with respect to a shareholder, including the recognition of a loss in excess of certain thresholds (for individuals, \$2 million in one year or \$4 million in any combination of years). Investors should consult their own tax advisers concerning any possible disclosure obligation with respect to their investment in Fund Shares.

**U.S. Tax Treatment of Foreign Shareholders.** Nonresident aliens, foreign corporations and other foreign investors in the Fund will generally be exempt from U.S. federal income tax on Fund distributions attributable to the Fund’s net long-term and short-term capital gains, subject to exception for FIRPTA gain, discussed below, or to the Fund’s net interest income from U.S. sources (provided, in each case, that such foreign person furnishes a properly completed Form W-8BEN, W-8BEN-E or other applicable Form W-8). The exemption may not apply, however, if the investment in the Fund is connected to a trade or business of the foreign investor in the United States or if the foreign investor is present in the United States for one hundred eighty-three (183) days or more in a year and certain other conditions are met.

Under the Foreign Investment in Real Property Tax Act of 1980 (“FIRPTA”), a non-U.S. shareholder is subject to withholding tax in respect of a disposition of a U.S. real property interest and any gain from such disposition (“FIRPTA gain”) is subject to U.S. federal income tax as if such person were a U.S. person. The Fund will be a “U.S. real property holding corporation” if, in general, 50% or more of the fair market value of its assets consists of U.S. real property interests, including stock of certain U.S. real estate investment trusts and other corporations holding real property.

If the Fund is a U.S. real property holding corporation, is regularly traded on an established securities market, and is not domestically controlled, then any gain realized on the sale or exchange of Fund shares by a foreign shareholder that owns at any time during the 5-year period ending on the disposition date more than 5% of a class of Fund shares would be FIRPTA gain. If the Fund were not to be treated as regularly traded on an established securities market, then such gain would be FIRPTA gain for all foreign shareholders.

The Code also contains a look-through rule for distributions of FIRPTA gain that may apply to the Fund if (i) the Fund is a “qualified investment entity” (which a RIC such as the Fund will be if, in general, more than 50% of its assets consist of interests in certain real estate investment trusts and U.S. real property holding corporations); and (ii) you are a non-U.S. shareholder that owns more than 5% of the Fund’s shares at any time during the one-year period ending on the date of the distributions. If these conditions are met, Fund distributions to you to the extent derived from gain on the disposition of a U.S. real property interest may also be treated as FIRPTA gain and therefore subject to U.S. federal income tax and requiring you to file a nonresident U.S. income tax return.

FIRPTA gain may also be subject to a 30% branch profits tax for corporate non-U.S. shareholders. For non-U.S. shareholders owning not more than 5% of the Fund’s shares, Fund distributions attributable to gain from the sale of a U.S. real property interest will be taxable as ordinary dividends subject to withholding at 30%, unless a lower rate applies under an applicable treaty. A special wash sale rule will apply to cause non-U.S. shareholders to recognize FIRPTA gain in connection with certain dispositions of shares within the 30 days preceding a distribution of FIRPTA gain by the Fund followed by a reacquisition of shares of the Fund within a 61-day period.

Fund distributions attributable to other categories of Fund income, such as interest from non-U.S. sources, and dividends from companies whose securities are held by the Fund or the Investment Funds (including corporate subsidiaries in a “blocker structure”), will generally be subject to a 30% withholding tax when paid to foreign shareholders. The withholding tax may, however, be reduced (and, in some cases, eliminated) under an applicable tax treaty between the United States and a shareholder’s country of residence or incorporation, provided that the shareholder furnishes the Fund with a properly completed Form W-8BEN or W-BEN-E to establish entitlement for these treaty benefits.

A foreign investor will generally not be subject to U.S. tax on gains realized on sales or exchanges of Fund shares unless the investment in the Fund is connected to a trade or business of the investor in the United States or if the investor is present in the United States for one hundred eighty-three (183) days or more in a year and certain other conditions are met.

In addition, the Fund will be required to withhold 30% tax on certain payments to foreign entities that do not meet specified information reporting requirements under the Foreign Account Tax Compliance Act.

All foreign investors should consult their own tax advisers regarding the tax consequences of an investment in the Fund in their country of residence.

**State and Local Taxes.** In addition to the U.S. federal income tax consequences summarized above, you may be subject to state and local taxes on distributions and redemptions. State income taxes may not apply, however, to the portions of the Fund’s distributions, if any, that are attributable to interest on U.S. government securities.

**Backup Withholding.** Under applicable “backup withholding” requirements, the Fund will generally be required in certain cases to withhold and remit to the IRS a percentage of the distributions or sales proceeds payable to Shareholders who have failed to provide a correct tax identification number in the manner required, or who are subject to withholding by the IRS for failure to properly include on their return payments of taxable interest or dividends, or who have failed to certify to the Fund that they are not subject to backup withholding when required to do so or that they are “exempt recipients.” The amount of any backup withholding from a payment to a Shareholder will be allowed as a credit against the Shareholder’s U.S. federal income tax liability and may entitle such a Shareholder to a refund, provided that the required information is timely furnished to the IRS.

*The foregoing discussion summarizes some of the possible consequences under current federal tax law of an investment in the Fund. It is not a substitute for personal tax advice. You also may be subject to state and local tax on Fund distributions and sales of shares of the Fund. Consult your personal tax advisor about the potential tax consequences of an investment in Shares of the Fund under all applicable tax laws. For more information, please see the section entitled “TAXES” in the SAI.*

## ERISA AND CODE CONSIDERATIONS

Persons who are fiduciaries with respect to an employee benefit plan or other arrangements subject to the Employee Retirement Income Security Act of 1974, as amended (“ERISA”) (an “ERISA Plan”), certain individual retirement accounts (“IRAs”), or certain Keogh plans, should consider, among other things, the matters described below before determining whether to invest in the Fund. ERISA imposes certain general and specific responsibilities on persons who are fiduciaries with respect to an ERISA Plan, including prudence, diversification, the avoidance of prohibited transactions, and other standards. In determining whether a particular investment is appropriate for an ERISA Plan, U.S. Department of Labor regulations provide that a fiduciary of the ERISA Plan must give appropriate consideration to, among other things, the role that the investment plays in the ERISA Plan’s portfolio, whether the investment is designed reasonably to further the ERISA Plan’s purposes, the risk and return factors, the portfolio’s composition with regard to diversification, the liquidity and current total return of the portfolio relative to the anticipated cash flow needs of the ERISA Plan and the proposed investment, the income taxes (if any) attributable to the investment, and the projected return of the investment relative to the ERISA Plan’s funding objectives. Before investing the assets of an ERISA Plan in the Fund, an ERISA Plan fiduciary should determine whether such an investment is consistent with ERISA’s fiduciary responsibilities and the foregoing considerations. If a fiduciary with respect to any such ERISA Plan breaches such responsibilities with regard to selecting an investment or an investment course of action for such ERISA Plan, the fiduciary may be held personally liable for losses incurred by the ERISA Plan as a result of such breach. Non-ERISA-covered IRAs and Keogh plans and other arrangements not subject to ERISA, but subject to the prohibited transaction rules of Section 4975 of the Code (“Code Plans”; together with ERISA Plans, “Plans”), should determine whether an investment in the Fund will violate those rules.

Because the Fund will be registered as an investment company under the Investment Company Act, the underlying assets of the Fund will not be considered “plan assets” of the Plans investing in the Fund for purposes of ERISA’s fiduciary responsibility rules and ERISA and the Code’s prohibited transaction rules. Thus, the Investment Adviser will be a fiduciary within the meaning of ERISA and the Code with respect to the assets of any Plan that becomes a Shareholder of the Fund, solely as a result of the Plan’s investment in the Fund.

Certain prospective ERISA Plan investors may currently maintain relationships with the Investment Adviser or with other entities that are affiliated with the Investment Adviser. Each of such persons may be deemed to be a party in interest to, a disqualified person of, and/or a fiduciary of any ERISA Plan to which it provides investment management, investment advisory, or other services. ERISA and the Code prohibit ERISA Plan assets from being used for the benefit of a party in interest or disqualified person and also prohibit a fiduciary from using its position to cause the ERISA Plan to make an investment from which it or certain third parties in which such fiduciary has an interest would receive a fee or other consideration. ERISA Plan investors should consult with legal counsel to determine if participation in the Fund is a transaction that is prohibited by ERISA or the Code. ERISA Plan fiduciaries will be required to represent that the decision to invest in the Fund was made by them as fiduciaries that are independent of such affiliated persons, that they are duly authorized to make such investment decisions, and that they have not relied on any individualized advice or recommendation of such affiliated persons as a primary basis for the decision to invest in the Fund.

The provisions of ERISA and the Code are subject to extensive and continuing administrative and judicial interpretation and review. The discussion of ERISA and the Code contained herein is, of necessity, general and may be affected by the future publication or the future applicability of final regulations and rulings. Potential investors should consult with their legal advisers regarding the consequences under ERISA and the Code of the acquisition and ownership of Shares.

## INVESTOR QUALIFICATIONS

Each prospective investor in the Fund will be required to certify that it is an “accredited investor” within the meaning of Rule 501 under the Securities Act. The criteria for qualifying as an “accredited investor” are set forth in the investor application that must be completed by each prospective investor. Investors who meet such qualifications are referred to in this Prospectus as “Eligible Investors.” Existing Shareholders who request to purchase additional Shares (other than in connection with the DRIP) will be required to qualify as “Eligible Investors” and to complete an additional investor application prior to the additional purchase.

## PURCHASING SHARES

### PURCHASE TERMS

The minimum initial investment for Class Y Shares of the Fund is \$250,000 and the minimum additional investment in Class Y Shares of the Fund by any Shareholder is \$25,000. However, the Fund, in its sole discretion, may accept investments below these minimums. The following groups of investors are eligible to purchase Class Y Shares without any initial minimum investment requirement: (i) accounts and programs offered by certain financial intermediaries, such as registered investment advisers, provided that the minimum aggregate value of such accounts is \$250,000; and (ii) principals and employees of the Investment Adviser and Investment Sub-Adviser and their respective affiliates and their immediate family members.

The minimum initial investment for Class I Shares of the Fund is \$25,000 and the minimum additional investment in Class I Shares of the Fund by any Shareholder is \$5,000. The following groups of investors are eligible to purchase Class I Shares without any initial minimum investment requirement: accounts and program offered by certain financial intermediaries, such as registered investment, provided the minimum aggregate value of such accounts is \$25,000.

The Board may also suspend or terminate offerings of Shares at any time.

Except as otherwise permitted by the Board, initial and subsequent purchases of Shares will be payable in cash. Each initial or subsequent purchase of Shares will be payable in one installment which will generally be due (i) four business days prior to the date of the proposed acceptance of the purchase set by the Fund, which is expected to be the last day of each calendar quarter (the "Acceptance Date"), where funds are remitted by wire transfer, or (ii) ten business days prior to the Acceptance Date, where funds are remitted by check. An investor may not know the NAV of the Fund applicable to its purchase of Shares at the time of payment. A prospective investor must also submit a completed investor application at least five business days before the Acceptance Date. The Fund reserves the right, in its sole discretion, to accept or reject any subscription to purchase Shares in the Fund at any time. Although the Fund may, in its sole discretion, elect to accept a subscription prior to receipt of cleared funds, an investor will not become a Shareholder until cleared funds have been received. In the event that cleared funds and/or a properly completed investor application are not received from a prospective investor prior to the cut-off dates pertaining to a particular offering, the Fund may hold the relevant funds and investor application for processing in the next offering.

Although an investor must submit its subscription for Shares and transmit the funds for the subscription prior to the acceptance of the subscription on the first business day of the applicable calendar quarter, the investor will not become a Shareholder of the Fund with respect to the Shares until (and the Fund will issue purchased Shares to the investor only as of) such acceptance (i.e., the first business day of the relevant calendar quarter). An investor's subscription for Shares is irrevocable by the investor and will generally require the investor to maintain its investment in the Fund until such time as the Fund offers to repurchase the Shares in a tender offer.

Pending any offering, funds received from prospective investors will be placed in an escrow account with UMB Bank, n.a., the Fund's escrow agent. On the date of any closing, the balance in the escrow account with respect to each investor whose investment is accepted will be invested in the Fund on behalf of such investor. In general, an investment will be accepted if the investor meets the Fund's eligibility requirement and a completed investor application and funds are received in good order on or prior to the Acceptance Date set by the Fund. The Fund reserves the right to reject, in its sole discretion, any request to purchase Shares in the Fund at any time. For any investor whose investment is not accepted, the balance in the escrow account with respect to such investor will be returned to the investor. Any interest earned with respect to escrow accounts will be paid to the Fund.

### TERM, DISSOLUTION AND LIQUIDATION

The Fund may be dissolved upon approval of a majority of the Trustees. Upon the liquidation of the Fund, its assets will be distributed first to satisfy (whether by payment or the making of a reasonable provision for payment) the debts, liabilities and obligations of the Fund, including actual or anticipated liquidation expenses, other than debts, liabilities or obligations to Shareholders, and then to the Shareholders proportionately in accordance with the amount of Shares that they own. Assets may be distributed in-kind on a proportionate basis if the Board or liquidator determines that the distribution of assets in-kind would be in the interests of the Shareholders in facilitating an orderly liquidation.

## **REPORTS TO SHAREHOLDERS**

The Fund will furnish to Shareholders as soon as practicable after the end of each of its taxable years such information as is necessary for them to complete U.S. federal and state income tax or information returns, along with any other tax information required by law. The Fund anticipates providing Shareholders with an unaudited semi-annual and an audited annual report within 60 days after the close of the period for which the report is being made, or as otherwise required by the Investment Company Act. Shareholders also will be provided with reports regarding the Fund's operations each quarter.

## **FISCAL YEAR**

The Fund's fiscal year is the 12-month period ending on June 30. The Fund's taxable year is the 12-month period ending on June 30.

## **INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM; LEGAL COUNSEL**

The Board has selected Cohen & Company, Ltd., 1835 Market St., Suite 310, Philadelphia, PA 19103 as the Fund's independent registered public accounting firm.

Faegre Drinker Biddle & Reath LLP, One Logan Square, Suite 2000, Philadelphia, PA 19103-6996, serves as counsel to the Fund and the Independent Trustees.
